Bombs are blamed on far Right •Jews fear they may be next target

Police say racists will strike again

BY STEWART TENDLER, RICHARD FORD AND JOANNA BALE

POLICE fear the neo-Nazi racists who planted nail bombs in Brixton and Brick Lane in London will strike again in other cities, and possibly against

Jewish targets. As Scotland Yard drafted extra detectives into the anti-terrorist branch yesterday and stepped up the hunt for the bombers. Jack Straw, the Home Secretary, said there was a constant danger until the "extremely evil, unpleasant" criminals and terrorists were caught.

The hunt for the bombers is Scotland Yard's top priority. Senior officers are well aware that their success will be closely monitored by ethnic communities in the wake of the

Stephen Lawrence inquiry. Sir Paul Condon, Commissioner of the Metropolitan Police, yesterday condemned the attack in Brick Lane on Saturday evening as "an appalling outrage" and an attack on "innocent people in innocent communities". The police now had no doubt that the two attacks were racist. Sir Paul said: "We feared the Brixton bomb would be repeated and, tragi-cally, it has been. We have had very serious fears there will be a continuing series of vicious attacks and we cannot rule out these attacks might be taken outside London."

As Sir Paul spoke. Yard officers were briefing other forces. A national meeting of chief constables on Wednesday will be told the latest developments in the investigations.

Outside London, there are potential targets in Slough. Luon, Birmingham, Leicester, Manchester, Bradford, Bristol, Nomingham, Leeds, the Lancashire mill towns and Glasgow. The Yard has also had talks in the last week with senior officials of the Jewish community. Michael Whine. from the British Board of Jewish Deputies, said yesterday that it was logical to think that Jews could be the next target. In Saturday evening's atON OTHER PAGES

It was found by a white man in his fifties in Hanbury Street, which is lined with shops and restaurants. He picked up the bag at about 17.37, walked round to Brick Lane and put it in the boot of his car. He looked at the contents and then closed the boot. According to police, he then became worried at what he might have found. He crossed the road to a small, part-time

He decided not to move the car and walked to a former police station in Leman Street, which is now used as offices.

He tried to telephone police but as he did so, at 17.57, the bomb exploded. Six-inch nails were hurled 40 yards down the street, smashing shop windows. Six Asian people were injured slightly. An anti-terror-ist officer said yestrerday that putting the bomb in the car had not reduced the power of the blast. The greater energy built up probably threw the nails further down the street.

The bombing came at the end of a week in which a number of ethnic community groups received warnings, purporting to come from extremist groups, threatening that Brick Lane and other areas were to be attacked. Police patrols were increased, but Sir Paul said the network of streets in Spitalfields was difficult to monitor.

Two hours after the blast a caller claimed that Combat 18. the most violent of the rightwing groups, had planted the bomb. The call was made in a terse 999 call from a telephone box in New Malden, southwest London.

Police say there has been an increase in threats from extremist groups since the report on the Stephen Lawrence case in February. The last week has also seen anniversaries of Hitler's birthday. St George's Day and the attack on

The Southall Monitoring Project, in West London, said yesterday that it had received a handwritten letter from Combat 18 two days after the Brixton bomb, saying that there would be other attacks. The letter, which had a Hampshire postmark, gave warning of further attacks and named Southall, Slough, Tower Hamlets and Tottenham in London, Bradford and Dublin. The areas all have high concentrations of Indians. Pakistanis, Bangladeshis and black people. The lener suggested Dublin would be attacked because the group hated Roman Catholics.

Dashing Clinton fumbles America's nuclear football

A NEW and wholly unexpected threat to world security cropped up briefly during the weekend's Nato summit when President Clinton dashed off from a meeting and forgot to take with him the "nuclear foorball", a briefcase containing secret electronic launch codes for US nuclear missiles. The football, a communications link with the Pentagon authorising the use of nuclear weapons, is carried by (and chained to a military aide who is supposed to remain just feet from the President whenever he leaves the White House. But on Saturday Mr Clinton ended his International Trade Centre meeting and sped off in his motorcade, leav-

ing behind the most dangerous handbag in the world. The aide marched the halfmile to the White House, thankfully without being mug-ged, and reunited the Presi-dent with his portable "button". "We're safe," Joe Lockhart, the White House spokes-man, said. He idded that the

meeting had ended 45 minutes ahead of schedule, and "rather than wait for everyone to gather, he just took off".

The black attache case has been known as the "football" and passed with care from one president to the next since Eisenhower's day. The device, containing a telephone, two pull-up antennae and codes to identify the caller, would give the President a range of options in responding to a nuclear alert. The President also carries a card containing iden-

tification codes to launch a nuclear strike. Mr Clinton is not the first

ball. In 1975 Gerald Ford arrived at an economic summit in Paris and discovered, with horror, that it had been left in a luggage compartment on Air Force One. "It was one of those things: Didn't you bring the football? No. I thought you had the football," Ron Nessen. the embarrassed White House press secretary, explained.

Jimmy Carter left the code-card in his suit when it was sent to the dry-cleaners, and Ronald Reagan was separated from it when shot by John Hinkley in 1981. Later it was discovered that the FBI had seized it as evidence. Mr Clinton's Russian coun-

terpart is accompanied by an aide carrying a "cheget". although there are rumours that it may be simply symbolic. According to a 1996 CIA report. Mr Yeltsin's first defence minister was asked whether he and the President could "push the button" for a nuclear attack. "Yes," came the answer. "But nothing would happen."

Bewildered refugees find their haven in Britain

By PAUL WILKINSON AT LEEDS BRADFORD AIRPORT

A SMALL boy stepped hestitantly off a set of aircraft steps yesterday to become the first Kosovan from the Balkan refugee camps to arrive on British

The unfamiliar airport on the edge of Leeds and the ranks of waiting pressmen were all a little too much for Alben Maksuti, 4, and he needed a guiding hand from a member of the ground staff to steer him towards an airport bus and a future which

nobody can yet predict.

Behind him came his mother, followed by a straggling column of bewildered refugees from the Macedonian camp at Stenkovic.

One was Avni Gosalci, 27, who fled with his wife Anita. 25, and their baby daughter Dielleza, two months old. He was relieved to be in Britain but concerned for the family he had left behind. "We are very grateful for everything this country has done," he said. Even in the camps, the British were sensitive and

The chemistry student from Pristina told how his family was given two minutes to leave their home by Serb police threatening them with knives, and said that he was allowed to escape only because of his daughter.

"I held the baby in my arms. Without the baby it would have been very difficult if not impossible to be allowed to cross the border. Because we had a baby we were lucky. Again we are very grateful to the baby for saving our lives." Of the 161 on the three-hour

children, eight of them aged under two. One, a schoolboy suffering from multiple sclerosis, was taken from the aircraft in his wheelchair aboard a specially adapted hoist. Most of the rest were women.

Such was the confused state of events that officials in Leeds had no exact picture of who was aboard the Tupolev 154 jet until it had touched down. The refugees long day began when they boarded buses at the giant Brazde and

Stenkovic camps after a lastminute medical check from doctors wearing masks. They climbed aboard four vehicles amid smiles, waves and tears and were driven to the airport. arriving at 10am and loading bags, suitcases and bin liners onto waiting trolleys.

The mood on board the buses was decidedly mixed, some families delighted to be leaving with everyone on board, others distraught at leaving behind sisters, cousins and friends. One boy, Visar, clutched a toy rabbit named Lepurosh, the Albanian for Bunny, as he trotted happily into the airport.

By contrast Fexherije Shala, 31, and her two sisters-in-law, Tebare and Behare, were reduced to tears as they were forced to leave behind Fexherije's sister Adlije. Unlike them. her name had not made it onto the reserve list.

MATTHEW PARRIS POLITICAL SKETCH

Ming leads way as LibDems bang their drum

THREE-BUTTON blue blaz- are wooed. "Are you in good er, suede slip-ons, Saturday shirt, silk tie ... and a certain bearing. These are the attire of a parliamentary prince in his patch.

Not that Menzies Campbell lords it. in the way that an educated Scot of a certain class can, the Liberal Democrat MP for North East Fife succeeds effortlessly in being of the people, for the people and above the people, all at the same time. And in prosperous Fife, the combination of looking like a Tory and not being one is irresistible. It would be inappropriate for Ming (as Scots pronounce the abbreviated Menzies) to act as though he were anybody special; but everyone around him will. The yellow banner they've draped across the shopfront of his HQ in Cupar says "Menzies Campbell QC, CBE ROM".

His party's Leader is shortly to retire, and there have been discreet murmurs that. if pressed - if friends are determined, his name should go forward - well . . . Ming would not wish to shirk. But that's for another day. Today the campaign is for the local LibDem candidate in the Scottish Parliamentary elec-

tions, Jain Smith. And nobody marshals a campaign better than Ming. We gather in his cramped office. The splendid Elspeth ("Mrs Campbell" has never sounded right upbraids The Times: "You are wicked to seek us out like this." Her husband explains the pur-pose of a Liberal Democrat walkabout: "Little talking. Pace. Don't tarry. We want people to say, 'Lord — the ruddy street's full of Liberal Democrats'. Smile: big handshake: introduce lain: move on. If anyone seems unwilling - no argument, polite smile and move on. Now, big smiles everybody: cheerful. happy ... and we're off!"

He does it brilliantly. "Keep up! Cross the road . . . now." Small boys on bikes decide we are a cavalcade. and join. Ladies with sticks

form? How's Mr Andrews?" A cake shop is flattered. "Best cream cakes in the world." "Keep up, keep up." We sweep past a small stall at which the Labour candidate is trying with little success to hand out purple balloons. "He's a very good, hard-working man," says

Campbell, sincerely. "You'll have my vote," says a white-haired little lady. "You're always here."

"Good morning ladies, I'm your MP." They know. So does a man in a cap: "Oh yes, I recognise your face from television." Ming is having a good Balkan war. To fall into the slipstream

behind a Campbell cavalcade is to encounter a stream of dazed pedestrians nursing bruised hands and staring at Liberal Democrat calling cards. "Don't you feel a bit overshadowed?" I ask the pleasant young candidate, who is also falling behind. "Oh no - the photo on the card shows him talking to

Ming storms a wine shop. The owner is protesting about a new Tesco supermar ket: "A cancer on the edge of town; they're like a drag-net fishing fleet ..." but, tact-fully sympathetic, the MP moves on. He terrifies a small dog and overwhelms four small ladies. It is hard not to get swept along with the LibDem spirit. "I've put your poster up," a lady says to me. "Thank you so much," I hear myself replying. At the Ferryfield Play-

group coffee morning (no rosettes) Campbell is asked to judge the children's flower arranging competition. "It's the very substance of politics," says Ming. He needs no introduction.

The winner is declared. "And now the guess-thename-of-the-burny contest. The name was ... Poppy!" "Poppy!" exclaims the audi-ence in delight. This is a long way from Kosovo.

Hague unruffled by split with Old Guard

POLITICAL EDITOR

WILLIAM HAGUE delivered a "like it. or lump it" message to his Tory critics last night as he prepared to take the break with his party's Thatcherite past a stage further.

Mr Hague declared that if colleagues' feathers had been ruffled over his rejection of health and education privatisation, they would have to "get unruffled because that is the way I am going to carry on".

Having authorised Francis Maude, the Shadow Chancellor, to make plain today that the Tories would match in government the massive Labour increases in spending on health and education, the Tory leader was going out of his way to stress that he would not be deflected by the fierce reaction in the Tory press and among Thatcherite members of the Shadow Cabinet against his tactics.

That was underlined again yesterday when Michael Howard, who led the internal criticism last week of the speech by Peter Lilley ruling out big private sector solutions for health and education. made his own irritation publicly obvious. When it was put to him on BBC TV's Breakfast with Frost that he was furious about the whole episode, Mr

Woody and Soon-Yi show off their mystery child

Neurotic film star's lack of parenting skills put to test, writes

WOODY Allen and his young bride, Soon-Yi Previn, played the proud parents at the weekend when they paraded their new baby girl up New York's Sashionable Madison Avenue in a pram.

James Bone

The neurotic actor, who was once reprimanded by a judge for lacking "any parent-ing skills", told a pursuing photographer: "Yes, it's our baby.

The controversial couple, who have a 35-year age difference, said they had named the child Bechet Dumaine Allen - thought to be a tribute to Sidney Bechet, the late, great iazz clarinetist, and Jean Doumanian, the director's longtime confidant and producer.

Mr Allen, 63, refused to reveal how old the infant was beyond saying she was "a few months". The child appeared to have Asian features, like her Korean-born mother, but Soon-Yi Previn. 28, has not looked pregnant in recent public appearances and there was speculation that the baby, like her mother, was adopted.

Still in swaddling clothes, Ms Farrow began dating Mr Bechet becomes the latest player in a family drama that makes even Mr Allen's tortured comedies look tame.

The scandal broke back in 1992 when Mr Allen's longtime companion, Mia Farrow, found nude photographs of Soon-Yi, then a 21-year-old college student, on the mantelpiece of his flat on Fifth Avenue. In her autobiography, What Falls Away, the actress recalls how she confronted Mr Allen, screaming: "You're meant to do the right thing. You're not supposed to for the

A RED ORCHID is being guarded around the clock by security guards, dogs and a gaggle of geese.

The moth orchid (novelty phalaenopsis), said to be the finest example of its colour grown in the world, is estimated to be worth more than £10,000. Orchids usually sell for no more than £20 each.

Black peers and MPs, in-cluding Oona King, in whose constituency the second bombing took place, announced yesterday that they had received threats from the group before the Brixton bombing.
The White Wolves, who

have demanded that all Jews and non-whites leave Britain by the end of the year, are one of four far-Right organisations that have claimed responsibility for the Brixton attack.

The group favours the philosophy of "leaderless resistance" - forming small cells of two or three members to carry out random attacks, according to Gerry Gable, the publisher of the anti-Fascist magazine Searchlight. He said that those tactics made it a much more likely suspect than the most well-known extreme right group. Combat 18, which is under intense police surveil-

It gives advice on bomb making, although it does not mention using nails. Mr Gable believes that the White Wolves may have been behind the bomb attempt made on him in 1994, as well as other sophisticated bomb attempts for which they have not claimed responsibility.

"It is possible that someone in the group may have been a former member of Combat 18. but realised that it had been infiltrated and moved away again." he said. Mr Gable estimates that the

"Although it's aimed at terrorising the local population I think it will backfire because it hardens resolve amongst the majority of decent British people to make sure we stamp out racism," she said.

The group's name, a popular term among fascists, may be inspired by the "Werewolf" Nazi resistance planned by Hitler for occupied Germany. Heinrich Himmler imagined the guerrilla movement springing up "behind their backs time and time again ... like werewolves, brave as death, volunteers will strike the enemy." The name has been used by English football hooligans and by South African terrorists who claim responsibility for bomb attacks in black com-

The White Wolves are the least well known of about a dozen British far-right organisations. The first, the National Front, was established in 1967. its membership peaked at about 17,500 in the early seven-ties, but by in 1982 it was in near-terminal decline.

The British National Party was formed out of a split, with roughly 600 members. The BNP did have democratic political success when a member, Derek Beackon, served as a Tower Hamlets councillor in the early 1990s. This week a "Young BNP" Website came under investigation by the police for its racist message.

In 1992, racists frustrated by the perceived mildness of the BNP formed Combat 18 as a "defence force" for the League of St George, a white supremacist group founded in 1972.

Combat 18 recently told Cherry Short, Labour's Jamaican-born candidate for Monmouthshire in the Welsh Assembly elections, to "withdraw or else" and daubed her car with swastikas. Over the past few years, however, its mem-bership is estimated to have dwindled from 200 to 30.

Fault line with history of violent eruptions

BRICK LANE, at the heart of the East End, has long been a violent fault line between refugee immigrants and a hostile indigenous popu-

The same street corners and pubs where the National Front notoriously gathered in the 1970s were used by Major Evans-Gordon and his anti-alien British Brothers' League agitators in 1901.

Brick Lane was named after the brick kilns first fired in 1576. The first immigrants were Huguenots fleeing from France after Louis XIV made Protestantism illegal. The Huguenots were silk weavers

and were immediately attacked by ap-

prentice workers, whose wages they

undercut. They enjoyed a monopoly on the silk trade until the 19th century, when it collapsed. Jews fleeing the pogroms of Russia and Poland arrived between 1880 and 1905. But work was short and,

Southall puts 100 volunteers on streets as fear spreads

By Richard Ford, home correspondent, and Joanna Bale

ONE hundred volunteers from anti-racist groups and the Asian community will patrol Southall next weekend because they fear that the West London borough is the next bombing target.

In other parts of the country, community leaders are calling for more police patrols, the barming of neo-Nazi groups and greater use of closed circuit television.

While most admitted that it would be difficult for the police to counter the terrorists and urged ethnic communities to remain calm, one man gave warning that if the attacks continued there was a danger of vigilante activity. Joe Allen, of the Montserrat Community Association in Leicester, said: 'If this continues you will get people organising. People are not going to lie down and take this kind of attack. There is a danger of vigilante-style opera-

The decision to put 100 men and women on the streets of Southall was made yesterday at a hastily organised meeting of the Southall Monitoring Project and representatives of local temples and mosques.

Suresh Grover, from the monitoring project, said that the people on patrol would not wear uniforms but would have an armband from his organisation or the National Civil Rights movement. "People are very shocked and very ap-

prehensive about what might happen next. The 100 anti-racist safety volunteers will go around Southall keeping an eye out for suspicious packag-

es and any suspicious vehicles. "The ethruc minority community is now in an unparalleled situation. We have suffered a long history of racial hostility and attacks against individuals and families, but

this is racial terrorism." In other towns and cities, community leaders are anxiously waiting to see if the at-tacks spread out of London. Mohammed Ajeeb, deputy leader of Bradford council, said Asians in the city were anxious about what would be

bombed next. "Whoever is involved is using tactics that are scaring, frightening and intimidating other parts of Britain with large ethnic minority communities.

Jews are worried that they may be the next target. Michael Whine, an official with the British Board of Jewish Deputies, said: "If there is a pattern beginning with an attack on blacks, the Asians next, it would be logical to assume that Jews would be third or fourth."

The Jews have trained volunteers in a community security service who provide protection at synagogues and hotels during all Jewish celebrations and functions. The men patrol the pavement directly outside synagogues, search people before they enter the building and check on parked cars.

Most synagogues and many

Europe fears far-Right campaign

FROM ROGER BOYES

GERMAN police investigating neo-Nazi activity have been put on alert after the two apparently racially motivated bomb attacks in London.

There are long-standing contacts between Combat 18 and far-Right groups in Germany," said a senior officer, expressing fears that attacks could be conducted across Europe. The German equivalent of Combat 18 is the Viking. Youth movement. Police forces in cities with a high density of foreigners especially Berlin, with its large Turkish and Kurdish populations - are stepping up their intelligence work. The main fear seems to be the popu-

lar unwillinguess to take in a new wave of refugees from the Balkans. Some 10.000 Kosovans have already been accepted by the Germans and memories are still fresh as to how the flood of Bosnian refugees - more than 300,000 of them - created a groundswell of support for the far right.

Co-ordination between German, Austrian, Italian and British racist groups is carried out via the Internet, and although there was no major effort to mark Hitter's birthday on April

20, the various groups seem to be planning an international celebration on the anniversary of the death of Rudolf-Hess. Hitler's deputy, in August.

Europe's most powerful and popular extreme right-wing movements are French, but there is no recent evidence of links to terrorist activities. Jean-Marie Le Pen, the leader of the National Front, has built up links with the farright across Europe and has been seen with former SS members in Germany. There are no reports of public meetings with British extremists but

French police say it is highly likely that private contacts have been established.

WITNESSES to the Brick lane bomb explosion described how the bustling street erupted into chaos as dozens of screaming people were showered with shards of glass

Some were on their way to a service at the London Jamme Masjid mosque, others were the first evening diners arriving at Indian restaurants and many were shoppers heading home from the market.

Emdad Talukder, 44, was

pierced in the head by a large piece of glass when the bomb exploded a few feet from him as he chatted to his GP. Nursing a deep gash in his scalp yesterday, he said: "There was a terribly loud bang and I saw this red car jump four feet in the air as its boot exploded.

"The lid of the boot was ripped off and it flew up about 25 feet high. There was a huge fire and it went dark because

Mr Talukder, who works for an educational charity at Toynbee Hall near by, was

treated on the scene by his GP. Hosne Haq, who has a practice in Brick Lane. She said yesterday: "When the bomb went off we thought we were about to die. There was glass flying everywhere and a huge fire. I thought a building would collapse on top of us."

Dr Haq, who was with her husband, Abul, her sister, Eti Chowdhury, and a friend, Kulsum Huq, another GP, was on her way home to North London from rehearsals for a Bangladeshi cultural evening. She removed the glass from Mr Talukder's head, stemming the blood with handker-

"He was bleeding very heavily," she said. "I swabbed his wound with one hand and with the other rang the police on my mobile telephone.

Police chiefs in emergency talks to halt bombers

By Stewart Tendler, crime correspondent

WITHIN hours of the Brick Lane bomb a dozen senior police officers and security experts in London were called to

an emergency meeting.

The Security Review Group, which oversees the capital's protection from terrorist attack, rarely meets on a Sunday. Now the Yard is so concerned at the threat from neo-Nazi terrorists that Sir Paul Condon, the Metropolitan Police Commissioner, called the group from their weekend

group from their weekend breaks into session yesterday. They include officers from MIS, the City of London force and British Transport Police who were brought together to analyse the threat and make decisions about protecting the capital and catching the bomber. Membership includes the heads of the Special Branch, senior crime commanders and assistant commissioners.

After the bomb in Brixton, the Yard bad increased foot patrols across London in areas with large ethnic-minority communities, including the Brick Lane area, in the East End. Officers were moved from patrols in Central London and yesterday the group agreed that the police presence would be raised again in the streets of about a dozen areas in London with high concentrations of people from ethnic minorities.

The Yard is also urging all businesses, shops and councils in London to make sure private closed-circuit television systems are working.

But the key question before

But the key question before
the group meeting yesterday

WITHIN hours of the Brick at the Yard was how to carch the bomber or bombers.

The groups on the Far Right have been extensively infiltrated by police and MIS. On the night of the Brixton bomb, Combat 18 supporters were at a private concert of right-wing rock music in Covenity. Detectives keeping

watch found the Combat 18 members as surprised by the bomb as everyone else.

Special Branch in London

has a small team watching the extreme Right. This is likely to be enlarged and the Yard will probably create an intelligence cell to sift all the information about the two bombs.

An expert in psychological

profiles has been called in he will work with analysts to get a picture of possible suspects. One question they will consider is why the bombs began when they did: none of the telephoned claims have given a reason such as the publication of the Stephen Lawrence report or anniversaries such as

Hitter's birthday.

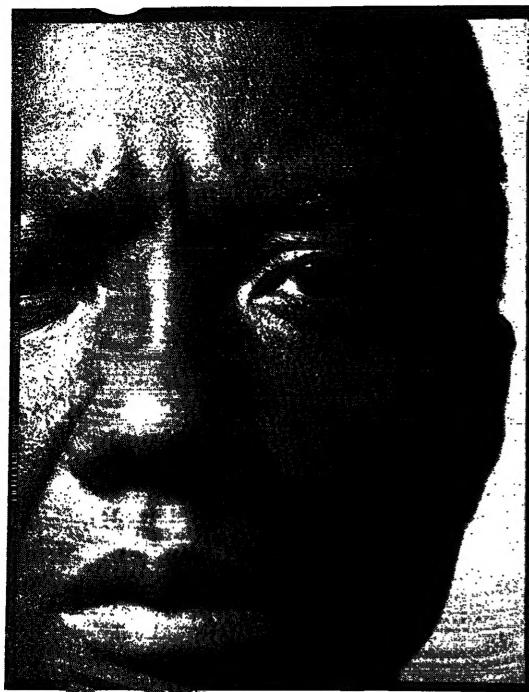

Police are also reviewing files on 400 to 500 extremists, looking for any with a history of violence and the technical capability to make the bombs. They believe there are only about 30 hardcore activists within Combat 18 but on the fringes there are others about whom little is known.

Interpol has been asked to contact other European forces for intelligence; MI5 has links to intelligence services on the Continent. The Yard is aware of links between neo-Nazis here and in Denmark, Germany, Sweden and America.

Nato to step up its forces, write **Michael Evans** and Ian Brodie in Washington

BRITAIN is expected to increase its military commitment to the Kosovo operation with a third 2.000-man armoured battle group, another squadron of eight Harrier GR7s and an extra frigate.

Following the decision by Nato leaders at the 50th anniversary summit in Washington to put even more effort into defeating President Milosevic by bombing alone - leaving the ground troops option in the hands of the contingency planners — General Wesley Clark, the Supreme Allied Commander, has asked for 400 more aircraft, bringing the total to about 1,400 planes.

Britain indicated that it was ready to increase its aircraft involved in Operation Allied Force from its present commit-ment of 12 Harrier GR7s at Gioia del Colle in Italy and eight Tornado GRIs at Bruggen in Germany. There is another squadron of Tornados at Brüggen, but the remaining squadron of Harriers at RAF Wittering in Cambridgeshire seems more likely to be sent. defence sources said.

BALKANS WAR: NATO STRATEGY

Russian ships face searches on high seas

NATO'S proposed oil embargo on Yugoslavia and "blockade" of the Montenerin port of Bar in the Adriaticwill be enforced according to international law, Tony Blair's official spokes-man promised yesterday. Despite the pledge, Nato's decision to pish for military

action to stop ill tankers enter-ing Bar, helping to fuel Presi-dent Milosevi's tanks and ar-moured vehiles in Kosovo, will have to be pored over by

One of the key areas, Nato officials said would be the rules of engalement given to all warship commanding officers to make il clear what action they can take in deterring, intercepting of boarding tankers suspected of carrying oil for Yugoslavia. President Chirac of France gave a strong

warning on Saurday that intercepting a ship on the high seas "is an act if war in international law". spokesman, however, insisted that it was the french idea to have an oil embargo and that Paris was fully supportive.
"Anything we dewill be done
in accordance with internation-

al law," he said. Senior British defence sources at the Nato summit said that

although it was intended to operate a blockade, there were also plans to bomb the roads running through the mountains from Bar to ensure that those supplies that managed to get through would be prevented from reaching Serbia.

This would reverse Nato's pledge to avoid bombing infrastructure targets in Montenegro because of the need to support President Djukanovic in his stand against Mr Milosevic. The Montenegrin leader has been assured by Nato that he will still be able to receive his country's normal oil shipments. In return, Mr Dju-kanovic has agreed to allow Nato warships to control all tanker movements into Bar. The bombing of roads in Mon-tenegro could, however, strain Nato's relationship with Mr Djukanovic.

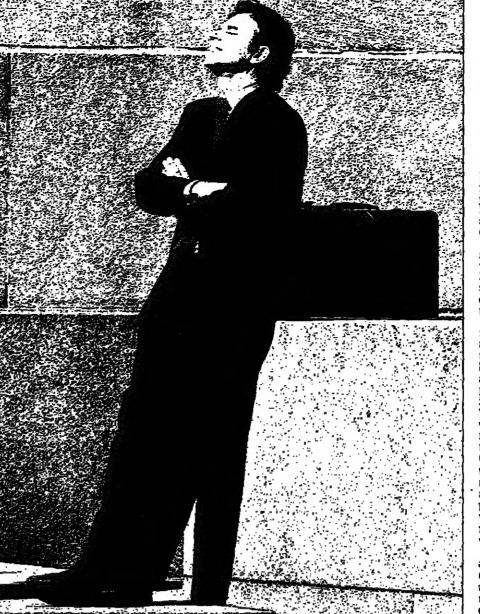

Nato already has sufficient

warships in the Adriatic to im-plement a blockade, once the egal arguments have been resolved. The United States has four cruisers and five destroyers, as well as the aircraft carrier. Theodore Roosevelt, and

three submarines. The Royal Navy has the carrier, HMS Invincible, the submarine, HMS Splendid, and two frigates, HMS Grafton and HMS Iron Duke. Royal Marine commandos on board the two frigates would play a significant role in the proposed visit and search" missions against suspect tankers.

The major question being asked at the summit yesterday was how Nato would react if faced by a Russian oil tanker bound for Bar. At the weekend the Krerolin made it clear that it would not respect a Nato-led oil embargo. "We cannot do anything to worsen the suffering of the people in Yugosla-via, and we will continue deliv-ering oil in keeping with our international commitments," Igor Ivanov, Russia's Foreign Minister, said. American officials made it

clear that the naval blockade would cover all countries, including Russia. They added that the operation could be in

for military intervention beyond the alliance's borders has been unveiled while that strategy is being put the test dramatically in Kosovo.

The outward-looking philosophy underpins Nato's interventionist determination, but has also exposed fresh divisions within the alliance while emphasising that its very fu-ture is at stake in the Balkans.

We have reaffirmed our readiness to address regional and ethnic conflicts beyond the territory of Nato members," President Clinton said as the "Strategic Concept" was presented during the alliance's 50th anniversary summit in Washington. The concept pro-vides Nato with "a road map" for military crises, according to Javier Solana, its Secretary-General - transforming a mutual defence agreement into a regional policeman willing and able to use its collective power to intervene when faced with ethnic conflagration, ter-rorism and the proliferation of weapons of mass destruction.

Nato recognised the European Union's expanding role in defence policy and its right to approve military action where not all Nato members were

The redefining of Nato's

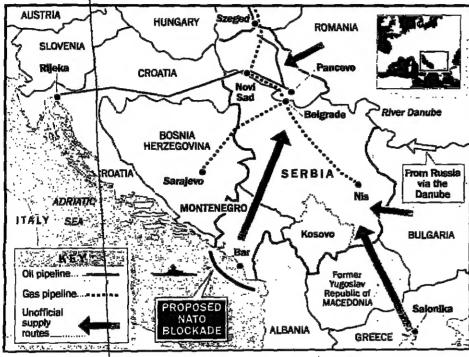

role will equip it to "deal with

NATO'S ambitious blueprint the security challenges of the new century", Mr Clinton said. The timing could hardly be more sensitive; when plan-ners began addressing the question five years ago they lirtle expected it would face such an immediate, defining and

potentially damaging test.
If Nato's Kosovo policy fails, then the strategic concept will have been shown to be a failure before it was born, "The stakes for Nato are Nato," one

senior US policymaker said. Differences within the alliance have been reflected in the blueprint's drafting, most notably over the UN's role. President Chirac of France said a passage recognising the UN's "primary responsibility" for maintaining international peace and security made it clear that Nato could not, and would not act without UN authorisation - an interpretation contradicted by Señor Solana, who said a Security Council resolution would not be necessary before making an intervention outside Nato territory.

Members also agreed to expand intelligence-sharing, find ways to defend members against nuclear, chemical and biological weapons, and head off a growing gap in military technology between America and the other 18 allies.

Oil embargo 'illegal'

A NATO blockade of Yugo-slav ports and the fertible inspection of approachile oil tankers would be a breach of international law, legal experts said yesterday.

Stopping neutral ships on the high seas could be justified only if sanctioned by the United Nations or as a Hear act of self-defence, one expert said, "It would require a new

Nato might argue that the action was justified under an extension of the doctrine of self-defence. But a unilaleral declaration to that effect nlight not win international acceptance. To stop and board ships otherwise would be seen at agression against the flaglunder which they were sailing.

The Government could try

to argue that Security Council Resolution 1160, which last month imposed an arms embargo on Yugoslavia, included wording that prohibited ships from carrying arms and related materiel - and this could be stretched to include oil. But that resolution still does not authorise the use of force.

After the invasion of Kuwait, Britain and America imposed a naval blockade on Iraq. But Washington insisted on a different form of words so as not to force the invocation of the American War Powers Act. Its action, called a "naval interdiction", was subsequently upheld by the UN. Yugoslavia receives only a

fraction of its oil by sea. Until the airstrikes began, most of the 54,000 barrels it imported each day came from Russia (12,000 barrels), Ukraine, Greece, Bulgaria, Romania and the European Union. Most unrefined oil was imported through two main pipelines, from Croatia and Hun-

gary. These have been closed. Oil, especially from Russia. also came by barge up the Danube Robin Cook, the Foreign Secretary, said yesterday that this was a main reason for blocking the river by bringing down the bridges. Yugoslavia produces a further 18,000 barrels a day of its own oil.

Only; small quantities of refined oil come to Bar, on the Montenegrin coast, and have to be taken inland by lorry.

Similar patterns emerge in the attitudes of writers to the Yugoslav war. Some see it as a reprise of the Spanish Civil War. The parallels are not precise since the bombing is being conducted not by the Condor legions on behalf of Franco but by Nato against a

Others see the Kosovo war as Vietnam - as intended to impose an American order on a faraway place populat-ed by victims. That is how Peter Handke seems to view it, and he, the best contemporary German-speaking playwright, has been to Belgrade to show his solidarity with the Serbs. At the weekend he was said to be going to Pristina, presumably to show soli-

The backlash has been such - Susan Sontag says Handke is "finished in New York" - that his publishers have had to remind the literary world that writers are entiled to different views. Handke is pletty much alone, although some scepticism about Nato has been filter-

ing through from the salons. On the whole it is a case of Brains for Bombs. Grass, as Germany's best-known novelist, regards himself as its voice di conscience; he favours not only airstrikes but ground troops. His heroes are often shrewd spectators of war. So when the author talks of the lessons of Auschwitz, he shapes the debate.

BRITAIN was under pressure last night to take more Kosovan refugees after a row erupted over the small number to arrive since bombing started.

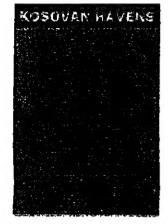

The United Nations High Commissioner for Refugees (UNHCR) called on the Government to accept thousands like other European states.

As the first plane, carrying 161 refugees, arrived in York-shire, Lyndall Sachs, a spokeswoman for the UNHCR, urged the Government to allow more in.

She said: "At present we have 35 countries who have of-fered about 100,000 places. and countries such as Germany have just doubled their intake. Originally they were taking 10,000. They have already doubled that to 20,000. Britain needs to assist in burden-sharing from the area."

Unless more refugees were flown out of Macedonia, the Balkan state might take drastic action and push them across the borders, she said.

The assault on the Government's position was reinforced by Olaru Ottunnu, the personal representative of Kofi Annan, the UN Secretary-

General, who also called on Britain to take more refugees. Referring to the refugees' arrival yesterday, Mr Ottunnu told ITV's Dimbleby programme: "I'm very pleased by this gesture. More is needed, both on the part of Britain and other Western countries. And they must also, more significantly, provide more support for the host families in Alba-

nia and Macedonia." But Clare Short, the International Development Secretary, said the Government's duty was to look after people in the region and get them back to their homes. It was right to accept only those with special medical needs or who had relatives in Britain, she said.

"Of course we should help. especially needy cases. But flying people to Europe will not deal with the refugee problem. And our real duty is to defeat this evil, to look after people in the region and get them back home as soon as possible."

Tory demand for conflict inquiry

A commission of inquiry into the origins and conduct of Nato's offensive against Belgrade should be set up after the fighting ends, the Conservative Party proposed yesterday (Philip Webster writes). Michael Howard, the Shadow Foreign Secretary, said that the kind of far-reaching investiga-tion that followed the Falklands war should be established to look into the "failure of diplomacy" that preceded the conflict, and some of the decisions taken during i.

Mr Howard and William Hague yesterday maintained Opposition support for Nato's stance, including the possibility of using ground forces, but Mr Howard called for more clarity from the Government on issues such as the legal basis for a blockade against Serbia.

The Queen should stay, the report says, but a Commonwealth presidency should supplement her role

Queen sidelined as empire hits back

should be relocated from London to Cape Town or Delhi and the Prince of Wales should be replaced by an elected Commonwealth president when the Queen's reign ends, ac-cording to a Government-spon-sored think-rank.

A report, published today on the eve of the 50th anniversary of the modern Commonwealth's founding, also calls for a permanent "enforcer to investigate breaches of human rights and a decision-making body of Commonwealth High Commissioners to resolve crises.

The report is published by the Foreign Policy Centre, headed by Mark Leonard, a young new La-bour activist who advised the Government on "rebranding Britain" and drew up a pamphlet on modemising the monarchy. The policy centre is a think-tank created to shake-up the Foreign Office.

It says that in the past 50 years the Commonwealth's idealism has evaporated, Most of its 1.6 billion people know next to nothing about it, and few can name the Secretary-General (Chief Erneka Anyaoku).

A poll of young people found that 43 per cent had no idea what the Commonwealth meant, even though the Secretariat claims that two-thirds of British primary schoolchildren have a relative in

one member country.

The report says that the Commonwealth has a "British problem". The end of empire was so quiet and dignified that Britain did not develop new, equal relationships with the states it once ruled, and could not find a balance between seeking control and disen-

gaging. Institutions and activities remain highly "London-centric". It adds: "This can only be tackled by a clear break with the past. The secretariat must move out of Britain to a new, permanent and purpose-built home. There should be a range of potential candidates — Canada, South Africa, India, New Zealand. The price is worth paying for an effective Commonwealth no longer trapped by its past."

On the controversial question of changing the Queen's role as head of the Commonwealth, it says she is undoubtedly popular in many Commonwealth countries, and there is no support for removing her. But she should be supplemented by a Commonwealth presidency, with a head of government elected for a two-year term, like the system used in the European Union. He or she would speak out on international is-

arch's position should be reconsidered, according to the report. It suggests that the Prince of Wales is far less interported ss interested and should not be

asked to take over the reins. Among other measures to revital-ise the 54-nation organisation, the report calls for a new declaration on democracy and human rights; a heavyweight political figure to examine abuses; and a standing council of top ambassadors (known as high commissioners) to refer problems to the Commonwealth Ministers Action Group, It also suggests better auditing and targeting of public money on democracy and economic development issues.

The Commonwealth appears for a few days every two years when its heads of government meet, and then disappears. Unless it develops a permanent presence that allows it to respond to crises, it will never be relevant," the report

The authors, Kate Ford and Sunder Katwala, will spend the next six months — until the Commonwealth summit in Durban - developing their arguments. The main thrust of the report is expected to be supported by Robin Cook, the Foreign Secretary and president of the Foreign Policy Centre.

Before coming to power, Labour promised to revive the Commonwealth and review relations with former colonies. But the ideas may receive a frostier welcome in the Commonwealth Secretariat.

The report concludes: "Reinventing Britishness and reinventing the Commonwealth are two sides of

THREE Manchester United fans were shot yesterday when a masked gunman opened fire in a crowded pub in Salford.

A 32-year-old man was shot five times in the chest and back while two others were superficially wounded.

Lawyers pay for delaying tactics

LAWYERS who indulge in "trial by combat" and try to drag out litigation face swingeing financial penalties from today.

Lord Woolf, Master of the Rolls. has given warning that in the new "landscape for civil justice", anyone who acts unreasonably and refuses a settlement offer can be forced to pay damages with punitive rates of

interest on top.

Judges will take control of the pace of litigation, setting tight deadlines. They also have wide powers to encourage settlement of disputes be-

Lord Woolf, author of the 1996 report that is the basis of today's reforms, said: "The main object is to change the culture of our litigation scene. We want to get away from a system which is exceptionally adversarial, a big fight using up unnecessary resources, and which really is a turn-off for ordinary members of the public the system should be serv-

The shake-up makes it easier and cheaper for people to bring to court and defend a wide range of civil claims, from unpaid debts and breach of contract to personal injury actions and insurance claims. At the same time, the slow, costly system of litigation that has dominated civil justice for the past century is re-placed with a judge-driven system in which lawyers will be punished and ordered to pay costs if they delay or act unreasonably.

There are built-in incentives to settle before trial and to use other methods of resolving disputes, such as mediation or arbitration. Lord Woolf said: "The courts will have sums due, as well as full costs, again

the responsibility, which they have never had before, of encouraging people to settle disputes without going to court."

Under the new framework there are three tracks for disputes. Claims of up to £5,000 can be heard in the small claims court, claims of up to E15,000 in a new fast-track court where trial costs are capped, and big, complex cases on a multi-track in the High Court.

Lord Woolf said that people would be clearer about the cost of go-ing to law. What the ordinary person wants to know is how long it is going to take and how much it is going to cost."

Defendants would no longer be able to indulge in stalling tactics or conduct a war of attrition to wear down claimaints and exhaust their

From the new armoury of judges' powers he singled out the "offer to settle": if a claimant makes an offer that is rejected by the defendant, and the offer is later matched at trial, the defendant can be ordered to pay interest at 10 per cent above base rate — say 17 per cent — on the

with the same punitive interest

Claimaints also have to make a declaration as to the truth of their claims. If a claim later turns out to be false or ill-founded, costs penalties will be imposed. "Until now you could put forward anything to raise a smokescreen and avoid liability." Lord Woolf said, "Now people will have to mean what they say."

Some lawyers fear the changes will increase costs in the early stages of litigation, but most believe the re-forms are well overdue. John Hull, a litigation partner with Richards Butler, said: "Some lawyers are worried and fear a bumpy ride ahead. No one likes change. But the customer is looking forward to it: they see

they will get more for their money."
He added: "If lawyers think they can receive a claim form then sit back and do nothing until the next letter arrives, they are in for a shock. Everything will now happen at high speed and it will mean a big change in how we manage our cases."

LibDem hopefuls step aside in bid to block Kennedy

BY PHILIP WEBSTER AND JAMES LANDALE

LEADING Liberal Democrats are preparing to step aside to allow Menzies Campbell to become the main "stop Charles Kennedy" candidate in the party's leadership race. Mr Campbell, the Liberal Democrat foreign affairs spokesman whose profile is rising through regular appearances to comment on Nato's action against Belgrade, is expected to emerge as the figure most committed to carrying on Paddy Ashdown's policy of close relations with Labour.

Nick Harvey, the Liberal Democrat communications chief and one of the contenders to succeed Mr Ashdown, has indicated that he will pull out to support Mr Campbell. And over the weekend, senior Liberal Democrats were putting pressure on Don Poster, the education spokesman, to do the same to give Mr Campbell what one strategist described as a "sporting chance" of defeating Mr Kennedy, thought

Connery rallies Scots

By GILLIAN HARRIS SCOTLAND CORRESPONDENT

SEAN CONNERY will make an impassioned plea for Scots to embrace independence at a rally today aimed at revitalising the Scottish National Party's election campaign.

In his first political speech. the former "James Bond" will urge an invited audience of 300 to fight to ensure that the SNP secures victory in the Holyrood elections.

With 12 days to go before polling day, it is hoped that

Connery, who is the SNP's most famous supporter, will galvanise activists who have been crushed by opinion polls showing that Labour has gained a 20-point lead.

The SNP promise that his speech, to which he put the finishing touches yesterday, will be "confident and inspiring". The actor was offered help in composing his address by the party leader. Alex Salmond, and the chief executive, Mike Russell, but said he preferred to use his own words.

The rally, at the Edinburgh

International Conference Centre, is being billed as the highlight of the SNP's five-week election campaign. Mr Salmond and the SNP president, Winnie Ewing, will also make speeches. Later, Mr Salmond and Connery, who donates large sums to the SNP, will go on a walkabout in the city.

Preparations for the rally have gone ahead in an upbeat atmosphere despite the party's poll showing. SNP leaders last week decided to take their message over the heads of the media directly to the voters.

Cheese makers' threat to quit Britain

Red tape and over-harsh inspection regulations are putting squeeze on small firms, Valerie Elliott reports

SPECIALIST cheese makers are threatening to close their businesses and move abroad unless the Government's "hygiene police" relaxes enforcement of dairy controls.

New swathes of red tape.

costly inspection checks and realous enforcement by officials are threatening the livelihood of the country's 120 small specialist cheese producers. They believe that the blitz is

in response to a spate of E. coli poisonings and part of a plan to ban all unpasteurised milk from dairy products, even at the expense of family firms that have produced only safe

This week industry representatives are to meet Michael Wills, the Small Business Minister, to press for the exemption of small cheese makers from regulations and controls that they say are more appropriate for large corporations. Arthur Cunynghame, the

managing director of Paxton and Whitfield, the 200-year-old London cheese shop that supplies the Royal Family, said that ministers were hiding a plan to ban unpasteurised milk behind EU regulations. He said that the 165 pages of proposed new dairy hygiene rules would befuddle a corporate lawyer, let alone a

small producer. Mr Cunynghame, who is also president of the Specialist Cheesemakers Association, argues that all cheese manufacturers are governed by the

Food Safety Act 1990, which he says is sufficient regulation.
The plight of the cheese makers has resulted in a new alliance of small producers, including sheep farmers, wine growers and abattoir owners. who also face new controls. They are soon to form an allparty Campaign for Independent Foods to lobby ministers.

Among those leading the group are the Countess of Mar, who produces her own goats' cheese, John Redwood, the Tory Trade and Industry spokesman, Paul Tyler, the Liberal Democrat shadow Leader of the House, and Mark Todd, the Labour MP for South Derbyshire.

Lady Mar, a crossbencher in the Lords said last night that most regulations were intended to cover a factory process in which different people performed various tasks.

"It is in the interests of family firms to produce a clean, wholesome flavoursome product that is not going to blight their reputation: There is far more personal control than in a factory," she said.

Lady Mar said that if small producers went out of business, village communities would also be affected.

Leon Downey, whose chee-sery in West Wales has made the Llangloffan brand for more than 20 years, said that he would not hesitate to move to France if there was any sign that the Government intended to ban unpasteurised milk. He

making, its principles or methods. They want to pasteurise everything ... but then people will start to lose their immuni-

ty," he said. Mr Downey fears that the Government will double the number of checks on his farm. At the moment, the annual Ministry of Agriculture cow shed inspection costs him £94,

and two more milk tests £120. He is particularly worried about plans to ensure that a cheese from every batch should be sent for microbiological testing. The £50 tests could cost him as much as £300 a week.

In most recent tests the caliform bacteria count in his cheese was -1. To pass the test you have to be less than 100,"

he said. "The total bacterial count must be less than 20,000 ours was 2,100."

Last night a Ministry of Agriculture spokesman said that the department was still consulting the industry over proposals to increase hygiene checks on raw milk and raw milk products.

The checks, he said, were the alternative to banning raw

milk from food products altogether. "We welcome and will isten to the views of the small cheese producers," he said. ☐ Netlinks: cheese information: www.cheese.com

Teachers deaf to appeal of

BY A CORRESPONDENT

'golden hellos'

THE Government's "golden hello" scheme to attract graduates into teaching has failed to halt the recruitment crisis, a head teachers' leader said yes-

John Dunford, the general secretary of the Secondary Heads Association, said that some schools would soon be unable to fill posts in subjects such as foreign languages be-cause too few young people were joining the profession.

More than two thirds of the way through the recruitment year, applications for courses starting in September look set to fall short of last year's level of 14,000. The Education Department's target is 16,800, which it says is "more realistic" than the 19,000 it had aimed for last year. A spokesman said yesterday that it was too early to say whether the tar-

get would be met. Government concern at the low level of applications last year led to the introduction in October of golden helios worth E5,000 for applicants to train for teaching key subjects, such as maths and science. Mr Dun-ford said, however, that the number of applications to teach subjects such as French, business, history and English was plummeting.

"What has the Government done about it? First they reduced the targets for secondary recruitment. Then they expressed delight that ... applications for postgraduate recruitment for maths and science courses have been met as a result of their golden hello scheme. In fact, these figures mask a worsening of the recruitment crisis."

While there has been a 24 per cent increase in students

registering for maths courses, a 16 per cent increase for biology, 13 per cent for chemistry and 4 per cent for physics, there has been a 21 per cent drop in registrations for training as French teachers, 26 per cent for business studies, 10 per cent for history, 15 per cent for art, 6 per cent for English

studies. The first thing we will see is schools not able to deliver the National Curriculum in foreign languages, because they simply do not have the teach-

and 5 per cent for religious

ers," Mr Dunford said. "While you can perhaps convert someone quite quickly into a maths or a science teachет, perhaps bringing someone in from industry, you can't get someone to learn a foreign language that quickly and then learn bow to teach it."

David Bennett, head teacher at Sackville School in East Grinstead, West Sussex, told the conference he had been forced to recruit a German teacher from a shortlist of one and "ended up being interviewed by the candidate".

An Education Department spokesman said: "We are determined to tackle recruitment issues, and the Green Paper on teachers' pay is aimed at modernising the profession and will attract more people." The Green Paper proposes performance-based pay rises of up to £40,000 for classroom teachers, but has met consider able opposition from unions. Hunt for hit-and-run van driver who killed PC

BY MICHAEL HORSNELL

A TRAFFIC policeman who was run down and dragged 100 yards by a hit-and-run driver died in hospital yester-

PC Jeffrey Tooley, 26, was carrying out a routine speed check on the A259 in Shoreham, West Sussex, on Saturday night when he was struck by the van, apparently deliberately. He sustained head injuries in the incident, involving a white Renault Trafic van, and died 12 hours later.

The fire brigade was later called to a burning vehicle at a farm near Brighton and police were investigating to establish whether it was the van involved it was later taken

away for forensic tests. "All his colleagues are extremely saddened and devastated by his loss", said Assistant Chief Constable Tony Lake. "We have opened an incident room and are treating this as a major crime.

"PC Tooley was a highly regarded officer and he died doing a routine job, a speed check that hundreds of officers do every day. His death is very, very sad for the force and for Sussex as a whole."

Detective Superintendent

Alan Ladley, who is leading the murder inquiry, said: "He was knocked down by a van that failed to stop. He suffered serious head injuries and despite being taken to Worthing Hospital died shortly before noon.

We desperately need to trace this vehicle. It was a white Renault Trafic which

witnesses have described as having distinctive stripes down the side, possibly green in colour.

He added: "Most of all I appeal to the driver of the van to come forward and talk to us about what happened."

PC Tooley was wearing a reflective jacket and carrying a torch in a well-lit area just be-fore midnight on Saturday when the incident occurred. He was with a fellow officer carrying out routine speed checks when the van swerved into the centre of the road and hit him.

"We are concerned this might have been a deliberate act which is why we are treating it as a murder inquiry at the moment, Mr Ladley

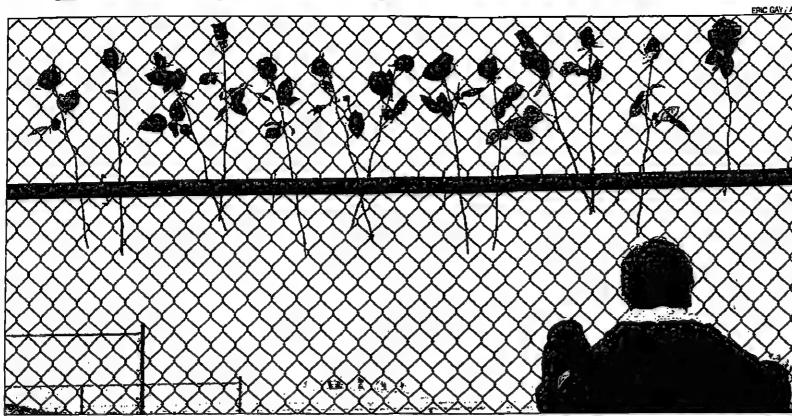

Boys spent year planning 'big kill'

Diary shows carnage was meticulously plotted, writes **Giles Whittell**

A METICULOUS diary found at the weekend shows that the Columbine High School shootings were planned for up to a year down to the last detail, including hand signals used by the gunmen to maximise their carnage.

The diary, discovered on the eve of a televised memorial service for the victims in Littleton, Denver, showed that Eric Harris and Dylan Klebold were not targeting sworn enemies but were "going for the big kill" and the destruction of their entire school, officials said. Across the country. schools were coping with a wave of copycat bomb threats. most of them hoaxes. Sheriff John Stone of Colora-

Thirteen roses, one for each of the pupils shot in the Columbine massacre, were placed on the fence around the school's tennis court at the weekend

down to "rock-and-roll time" at 11.15am last Tuesday, he said. Fifteen people died in the three hours of terror that followed, among them Harris

and Klebold. The suicidal teenagers had been building bombs and collecting guns for months, Sheriff Stone said. To

ted they had drawn up a map of the school marking its ill-lit areas, and they struck during the school lunch-hour to cor-

number in an enclosed space. They wanted to do as much damage as they could possibly do and destroy the school and as many children as they

could, and go out in flames." Up to 30,000 mourners were expected at a Denver stadium yesterday for a memorial service attended by Vice-President Al Gore, Governor Bill Owens of Colorado and the Rev Billy Graham's son, Frank Gra-

A chilling e-mail purporting to be written by Harris before his death was discounted as a hoax. Many had joined his Trencheoat Mafia for solidarity, and every pupil knew the gang existed. Not so Frank DeAngelis, the headmaster, "I had never heard of it until Tuesday," he said.

Five boys aged 13 and 14 were arrested in central Texas on Saturday after fellow pupils at their school in Wimberley told police about a bomb plot planned since January. Homemade bombs and instructions for building them downloaded from the Internet were found at the boys' homes. The local sheriff insisted "that these young men were serious about targeting students".

Madonna's enthusiasm induded choosing the make-up artist Sarah Monzani, who created her Forties look in Evita and is now turning her into a bronzed ("it's time-consuming Madonna never tans") Californian yoga teacher for her role opposite Rupert Ever-ett in The Next Best Thing. "She's not afraid to use makeup. On Evita she'd put in her teeth and eyes (she wore a veneer to cover the gap in her front teeth and brown contact lenses) and she'd become Eva Perón." It takes commitment to wear veneers, contacts and lashings of fake tan, but if the part demands it ... For her next campaign perhaps she'll even sport the odd wrinkle.

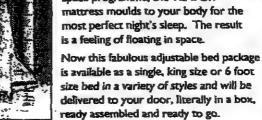

MARKS & SPENCER has

taken so many knocks recent-ly that it seems almost spiteful to sling yet more arrows its way. However, I had to checkout its summer offerings ... the best pieces were the stretch cotton shirt with threequarter-length sleeves, £30; the Irish linen range, which had booded sleeveless tops for £26, and bias-cut long skirts in black or stone for £40; and some sporty hybrids such as a grey sleeveless shirt that came with a drawstring skirt, both in a grey polyester mix that looks like lightweight wool but is machine-washable. It isn't a buge cache of goodies considering the amount of merchandise on offer in the Marble Arch store, and it slots into the useful rather than the irresistible category. I can't help thinking that until it takes more notice of fashion trends, everything on its rails will look a little limp.

AS polling day approaches, a sort of frenzied optimism is mounting in direct proportion to the slump in the party's electoral fortunes. They go on pretending that victory will somehow be snatched from the laws of disaster even when those jaws, in one by-election after another, are biting lumps out of the party's living flesh. And, of course, their hopes are pinned on neo-nationalism. Europhobia is breeding a crazed euphoria. Bolstered by the propaganda in the

Right-wing press, more and more Conservatives believe that all you have to do to dispose of new Labour is to strike super-patriotic postures. Say boo to Johnny foreigner and the voters will flock to you. To me they appear as raving romantics, as desperate for an enemy as we once were for a role, and subconsciously transporting our late and deeply mourned

adversary from Moscow to Brussels. John Redwood is running about in jaunty clothes, his saturnine features swathed in a manic grin. He has just stood against Major and is delighted with the publicity, which he sees as a successful first step to persuading the country that he is a human being. The trouble is, the more he tries to behave like a normal person, the madder he looks. Redwood is studiously courteous to me, since I have publicly threatened to leave the party if he is

elected leader, and he wants to show what a big, forgiving man he is. One evening I find myself sitting opposite Redwood at dinner in the Commons. Tonight he is excelling himself, crazier than ever, got up in light suit and bright tie, and as I listen to his demented talk about how useless German cars are, oh no, a Jaguar for him every time. he's so bloody patriotic he's got two of them, I am tempted to look under the table to see whether he is cross-gartered, in yellow.

What the party fails to notice is that, in so far as they spend their time thinking about Europe at all, the electorate are camped on the territory that the bulk of the party has vacated: somewhere in the

Amid all this, Michael Portillo strides about the Commons like a man of destiny. Our Minister of Defence moves with Churchillian mien and fateful tread, as if preparing to announce his decision to loose off a battery of nukes against - well, whom exactly? That is Portillo's problem: against whom to defend our imper-

illed nationhood. I had got to know him when he replaced me as a PPS, and liked him more as an individual than as a public man. He was certainly bright, and a competent Minister of Defence, yet he is a man with a problem. The trouble with Portillo is that he is immature. The immaturity stems from his obsession with his name and appearance, and from the fact that outside politics he is a highly inexperienced

God knows we all have our problems, and our aspirations are invariably dogged by our past, but I can think of no other politician who faces the same hurdle as Portillo: to become Prime Minister of Great Britain while convincing the electorate and himself of his Britishness. His insecurity as to his nationality seems so deep as to be ineradicable. One can only suppose that he was twitted at school about his black hair, thick lips and "dago" name and never got over it. The narrowness of his background - from Harrow to Cambridge to politics, with not much in between - makes things worse. Had he done National Service or seen a bit of the world all that sensitivity about his origins would have been knocked out of him

The irony is that his foreignness is a problem for no one but himself. He seems not to

He could be an outstanding politician if only he stopped fretting about himself and got to know his country. As it is, Portillo in full patriotic cry sounds dis-tinctly foreign, for all the world like some Argentine general banging on about la pa-tria in his bemedalled uniform and braided cap.

CHASTENED by the loss of his seat, now he is sliding from one extreme to the other. Out go the Churchillian mien and fateful tread. Now we are called on to admire a brand

Portillo's new persona will not work. He is certainly succeeding in forcing himself on our attention. With William Hague as his chief rival, that may not be saying much.

So maybe one day Portillo will make it. In a sense I hope he does, if only because his neuroses are more interesting than Hague's genial vacuity. Somehow our self-styled de Gaulle contrives to impart the feeling that he is waiting in the wings for the nation's call and who knows, maybe the call will come?

ortillo is a far from dis-likeable man who commands loyalty among his supporters, whose very uncertainty about himself can evoke sympathy, and who could yet insinuate himself into the nation's affections through his television series and the rest. One can imagine a scenario some years ahead where Portillo is back in the House, William Hague is ditched as ineffectual. Portillo replaces him, Labour find themselves in economic trouble, economic and monetary union explodes six months after we join in a sod's law re-play of the ERM, and Portillo gets in by a landslide on a quasi-nationalist ticket.

How would our national saviour make out in office? The judgment of a politician who is perpetually trying to convince people of something about himself will always be suspect, so we must hope that this able and intelligent man is bright enough to throw off some of the Little England riffraff surrounding him, and to

nothing occurs to me

WHEN I heard that Chris Pat-ten was being considered as Governor of Hong Kong, I felt concerned. For all his talents and "wotcher, enck" amiability, I was by no means sure that he was the man to steer the place through the years ahead. I told him that he would find himself dealing with two sets of intolerable people: the Chinese Communists. who were among the biggest bastards in God's creation. and the local Chinese fat cats.

CHRIS PATTEN

many of whom ran them a close second.

Having accepted the job. Patten began playing David to China's Goliath. I went to see Hurd and told him I did not understand our tactics. If more voices were needed to denounce the Chinese leaders. I would be happy to oblige. Otherwise I did not see how the

who had crushed students under tanks in the presence of the world's cameras, could be sensitised to the need for more democracy in Hong Kong by

public pressure alone. Hurd was his usual "now ier's be sensible and keep steady" self. The only reassur ance he could offer was that the Americans were fourfrightened old men of Beijing. square behind us. I watched for signs of their support, and saw what I had expected: the White House proclaiming the sanctity of human rights at the top of its voice then instantly

buckling under the pressure of the US business lobby. I was indignant about what I saw as a hypocritical British policy, endorsed for opportunistic reasons by all sides of the House. Our late conversion to democracy in Hong Kong was essentially a conscience-salving exercise: to assuage our guilt in handing back a colony we had taken under the immoral circumstances of the Opium War to an immoral regime. Far from being heroic and altruistic, our stance seemed to me to be self-serving and, in a sense, cynical. There was every chance that our tactics would end up leaving the people of Hong Kong with less democracy, not more. Which is exactly what happened.

Not everyone was blind to what was happening. Quite a few Tory backbenchers took the view that, in their words, Patten had "buggered it up". But Hong Kong was not the sort of issue that led to back-bench rebellions.

So the British decked themselves out in their moral finery, and the charade took its course. The Royal Yacht sailed in, the retreat was movingly or chestrated, Patten's friend Jonathan Dimbleby made a hagiographic TV film based on his still more hagiographic book The Last Governor and "honour" was satisfied. The Chinese had their pretext to undermine the elected Legisla-tive Council, and proceeded to do so, so everyone was happy. One crucial, unanswered

question remains. Before Patten was appointed, a confidential understanding delining the degree of democracy Hong Kong would enjoy had been reached between the British and Chinese Governments, and enshrined in an exchange of letters signed by Douglas Hurd. It is hard to think of anything more central to Patten's mission, yet in The Last Governor Dimbleby says that Patten had not seen or heard of the letters before the confrontational speech he made after his arrival. No wonder the Chinese Communists called Patten a

double-dealer For reasons best known to himself, Dimbleby fails to answer the central question: how could Hurd, who had signed the letters, and Major, who

Patten: unanswered questions

must have been in the know, have failed to warn Patten? Dimbleby shuffles the blame on to officials, and quotes Hurd as chiding them for not reminding him to show the vital letters to the new Governor. This explanation is unconvincing. Why did Hurd and Major not tell Patten personally that there might be some difficulty about re-engaging the battle for democracy, on acsince sold the pass? If he was kept in the dark, Patten would seem to have a legitimate grievance. Yet given the relation-ships involved, we seem unlikely to discover the truth from the luvvie circle of Dimbleby/Hurd/Major/Patten.

Of course he's good at PM's Question Time he's been playing at being Prime Minister all his life. It's just bad luck on him that Question Time, in the popular imagination. has ceased to be important. Pity he didn't go through the normal phases of being a Green or a Trotskyist. Like those infuriating voters who say "Don't worry about me, I've always voted Tory", you want to say to him, look, you're an intelligent fellow, has it never crossed your mind, not even once, that there could be another way of looking at things?

He has all Major's niceness and decency, in corporate form, and there seems no harm in him because where there is no personality there can be no harm. In all the years we were in Parliament together somehow I can't recall a single thing he has ever said or done that is of

When I think of William Hague, nothing occurs to me.

Not giving a sod is Ken's forte

POOR Ken Clarke battles on, genially exasperated, and you have to hand it to a man who never lets his exasperation drown his geniality. In his position I might be tempted to his someone. He invites me to a meeting with half a dozen colleagues to discuss electoral strategy (why me, I cannot imagine). The meeting is a waste of time. The jet-lagged, florid-laced Chancellor cannot breathe a word without some Euro-maniac saying, well that's all very well, ken, but what about EMU and the convergence criteria? What is really astounding about him is that, while most other pro-Europeans are busily trimming. Ken just goes on say-

ing what he thinks. One evening I ask him where he's off to next. Southem France, he says, and boy am I looking forward to it. All that faniastic food and wine, superb weather. I love it down there! I find myself glancing round to see who's listening. This is traitorous stuff, like a Soviet finance minister saying he is off on a trip to the West and by Christ is he glad to get out of this hole. For this is a party where allegedly grown-up people like William Cash go round saying they don't like continental wines, never have done, give me Austral-ian any day. When I select burgundy in preference to oceanic or South African at dinner, jokes are made about francophilia. But of course they are not jokes. This party is not just sick unto its soul, it's sick unto its liver.

Ken doesn't give a sod. Not giving a sod is Ken's forte, and being a lazy sod somehow increases the attraction. He is too indolent to care what becomes of him in the party. If you want me as leader, he seems to be saying, take me as I am, along with my thoroughly genuine and touchingly non-represen-tational wife. Ken and Mrs Ken are the least political pair in Parliament and therefore, in the eyes of a non-politician like myself, greatly to be applauded. The trouble is

Kenneth Clarke: an entertaining partiamentary character

that behind it all he would be very happy to be leader, but knows he is going nowhere. The paradox of our Ken is

that the bluff outspoken pro-European is a super patriot. a professional Mancunian who seems to think that we are every bit as good as we were and have a monopoly of common sense. So why all the fear and defensiveness about Europe? In a curious way his cavalier optimism about the single currency and European integration is as much a form of British complacency as the Europhobes' opposition. He thinks we are above it all and can bluff our way through. Have another one? Well, kind of you to ask, I

think I will. Cheers! The last time I saw him

was after the elections. By then he had lost his leadership challenge and was as far out in the new Tory party as it is possible to be. A couple of months earlier he had been Chancellor of the Exchequer: now he was sitting alone in the Garrick. He joined us for dinner, and was as much himself as ever. No bitterness, no venom, just lots of enthusiasm about a bird-watching trip he was planning. His future seems to be to turn into one of our parliamentary characters, of the more entertaining variety, though it seems a waste.

VISUAL ART: Adam Sage visits a bridge over the Seine to see the sculpture show that is

cold, unpleasant rain is failing on the French capital. The Seine is choppy. It is a day for right-thinking Parisians to begin lunch at 11.45am and continue eating until late afternoon. But on the Pont des Arts, several hundred people are ignoring common sense, pangs of hunger and the chill wind to witness the most successful exhibition in Paris

The bridge contains 68 sculptures by a Senegalese artist, Ousmane Sow. who was almost unknown in France until now. His large, rough-hewn fig-ures portray African tribal peoples, in-cluding the mighty Nuba wrestlers and his own slender, elegant ethnic group, the Peulhs. The centrepiece is a frieze that tells the story of the Battle of Little Big Horn. A giant and faintly Af-

rican-looking Sitting Bull implores the gods to help him. A lew metres along the Pont des Arts, one of General George Armstrong Custer's soldiers is scalped by a Sloux warrior.

The sculptures are the latpeople est in a series of free openair exhibitions laid on by pack the Paris Town Hall. Over the past decade, there have been works by Botero and Giacometti on the Champs Elysées and, last year, by Mark di Suvero on the Champs-de-Mars.

The announcement of this year's attempt to "bring art to the people" met, at first, with incredulity. How would sophisticated Parisians react to the powerful, sensual but unsophisticated work of Sow. French critics asked. "Everyone is extremely upset." said *le monde* as de exhibition opened. "Absolutely everyone."

Not so today. As more than 5,000 people cram morning and afternoon on to the small pedestrian bridge between the Louvre and the Académie Française, Sow has won stunning acclaim and popularity.

"The African Rodin" was how Le Parisien described him. "One of the world's greatest living sculptors" was Le Monde's reconsidered verdict. A burly security guard at the Académie end of the Pont des Arts said: "The bridge is a mass of people at the weekend. You can't move and we have to let them on in small groups." The Town

Hall says this is one of the most successful open-air exhibitions it has put on.
If the crowds are a surprise, then so, too, is Sow's career. Born in Dakar in 1935, he trained and worked as a physiotherapist for 30 years before turning to sculpture at the age of 50. His first shows were held in the basement of his practice in Paris, where he emigrated in the 1970s before returning to Senegal as his work started to attract critical attention 20 years later.

His knowledge of the human body is clear and striking. The muscles on the 2.5m tall Indians at Little Big Horn are tense. The Nuba wrestlers are poised to spring forward with an earth-shaking

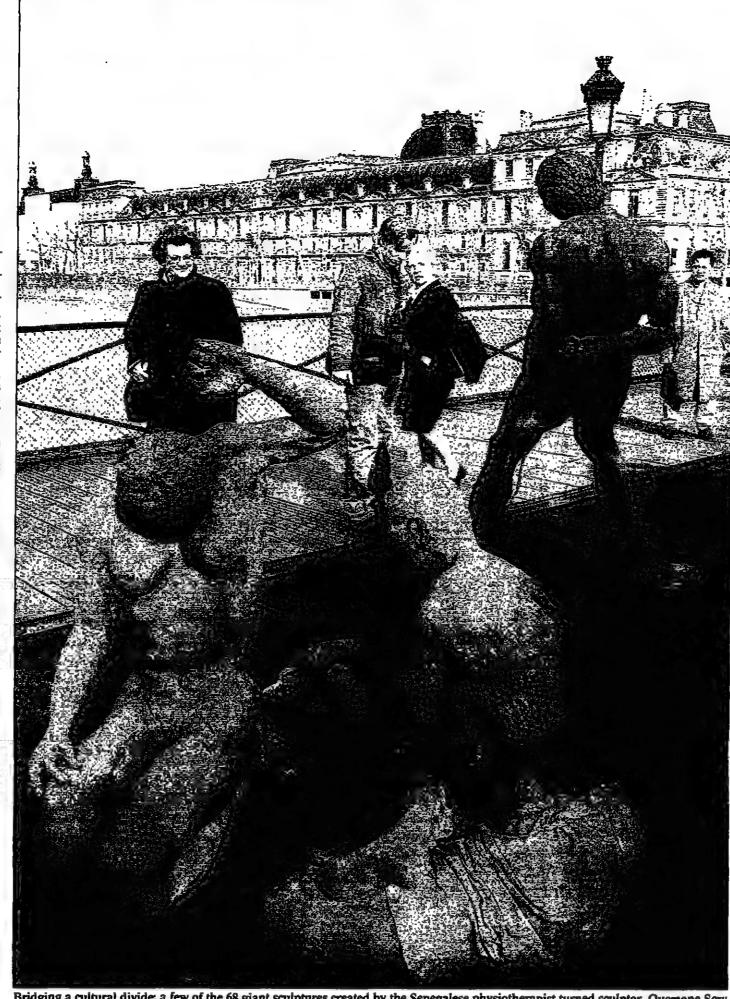

> "We live in an electronic world where we ignore what is essential," says Sow, who himself measures almost two metres. "Me, I talk of the human being." There is energy, sex and violence. "We have to struggle to conquer the woman we love," he says. "The struggle is a means of existence. His figures are built up

Smoke without fire

The American play wright Alex Finlayson has something of a special relationship with the Royal Exchange Theatre. This is her third play to be premiered here, and the third to poke a penetrating finger at the social malaises of very different American cultures. Following in the nomadic footsteps of Winding The Ball (set in a supermarket in small-town USA) and Misfits (set in Hollywood), this time she pitches up on a tobacco farm in North Carolina.

The play takes place in the present, and we all know the status of smoking in America today - somewhere between the criminal and the insane. Pinlayson's three generations of farmers, the Smalls, have got the weed in their blood in more ways than one. Now they find themselves the beneficiaries of a concern going nowhere. The daughter, Vette, is all for selling up and moving on. Her father, Hearon, vows

to defend his birthright to the death - though not necessarily his own.

Finlayson paints in the politi-cal and economic background with a strong sense of historical perspective. David (Julian Forsyth), an English documentary-maker, is conveniently on hand to elicit Hearon's informative tirades. "Up top ev'ry one of them columns, up at the United States Capitol Building, is a tobecco leaf," he rants to camera. "Tobacco built this

t is an intriguing business and Trevor Peacock's garru-lously drawling Hearon is an entertaining guide. But Finlay-son's play is essentially a tale of family strife, and here is comes unstuck. To my mind the characters are too underdeveloped for anyone to care much why Vette is such a tart or her near-speechless nephew, Reno, such a troublemaker. Both are something to do with Hearon's latent irascibility; but he, too, turns so quickly from moonshine-swigging old grump to gun-toting madman that Peacock himself looks rather taken aback by it.

Where Finlayson does score is in the quality of her dialogue and, save for some ghostly goings-on, the naturalism of her setting. The realistic sets of tobacco warehouses and fields and the cicadas on the soundtrack conjure up an almost filmic feel. The director, Gregory Hersov, finds an easy familiarity between the characters, and the talented cast are wholly watchable.

Fido (Lillian Watson, left) and Poppet (Leah-Marian Jones, right) put their best feet forward in Britten's Paul Bunyan

Britten at large in America

here's a slight but very positive sense of conflict about this welcome revival of Britten's "American operetta" of 1941, happily salvaged from the Royal Opera's cancelled 1999 season. First there's the sheer entertainment value of the show itself Richard Hickox's big-boned conducting, Francesca Zambello's helpfully inventive production in Hildegard Bechtler's economic decor (wonderfully lit by Wolfgang Göbbel), the performances of each and every member of the large cast — all seem quite faultless.

At the same time one is constantly goggle-eyed at the sheer brilliance of much of the music: Peter Grimes most certainly did not spring from nowhere four years later. The technical assurance of a composer still in his twenties is astounding: the craftily varied accompaniments to innocent-sounding strophic numbers. the deft construction of ensembles, knowing just when, in Great Day of Discovery, to bring in brass punctuation. just where to place the modulation and lift the audience out of their seats. All this, quite apart from the basic matter of hummable tunes, denotes a born theatre composer, and one capable of engaging a popular

Paul Bunyan Sadjer's Wells

All of which led to specula-tion on what might have hap-pened had the Britten-Auden partnership not foundered, had Britten not retreated - as some hard-hearted persons still argue — into English, not to say Anglican parochialism and personal concerns with much creaking of closet doors. Bunyan looks out into the world, looks at the foundation of a new society; the later oper-as tend to look inward. Unprofitable speculation, of course: no one is going to complain about the series of masterpiec-

es that followed. And one must beware of overpraising the piece. Of course there are faults: Britten isn't always in tune with Auden's flippant, Cole-Porterish verbal humour: the Swedish lumberjack's mutiny doesn't quite work; and I still have doubts about the all-too-aptly named "camp animals". But any potential flaws are minimised in Zambello's big, bold production, which won one of its awards specifically as an ensemble undertaking, which is what it is: every member of the

chorus is a principal, and vice versa, It is the superbly disciplined singing of Terry Ed-wards's Royal Opera chorus that most clearly reveals Britten's genius, ironically in that the piece was written essentially for amateurs.

But it is an ensemble into which an international tenor like Kurt Streit, new as Johnny Inkslinger, can fit effortlessly, and Lillian Watson's brilliant performance as the camp dog Fido almost won me round (Zambello wisely eschews ca-nine costumes). To hear a sing-er like Peter Coleman-Wright using breath control to spin long lines in the simple-sounding ballads is enormously rewarding, and the same is true of Timothy Robinson in Hot Biscuit Slim's entrance number, the catchiest in the score. Susan Gritton is enchanting as the protagonist's daughter, though her entrance, and immediate marginalisation, is another dramatur-

gically awkward moment. But it is the ensemble that counts. The closing image shows the whole company, motionless, gazing into the audience, left on their own after the abdication of their leader to build a new world. Every single face on stage was saying something. Unforgettable.

concerts: Beethoven gets the Richard Strauss treatment; Brahms is treated to a makeover; and a Bach expert makes allowances

Heroics coupled-

RICHARD STRAUSS had his way with Mozart, as Rodney Milnes recently reported when reviewing the first UK performance of Strauss's idiosyncratic edition of Idomeneo. What he did to Beethoven pales by comparison, as we heard in the second of the City of London Sinfonia's tributes to Strauss in his 50th anniversary year.

At the end of his long, sombre elegy, Metamorphosen, the sense of déià vu experienced in hearing its main theme is explained. This is the funeral march of Beethoven's Eroica Symphony, no less: Strauss wrote "in memoriam" beneath the notes. It was 1945; and this was a shuddering wake not only for a fellow composer, but for Munich. Berlin. Weimar and Dresden.

These resonances moved powerfully through the performance by the CLS, conducted by Richard Hick-

ox. All 23 solo strings stood to play (except the cellos and basses): as they passed each other fragments of Strauss's great arch of melody, first spinning them, line by line, then weaving them into complex polyphony, the players, too, seemed to be paying their own tribute.

The impression was enhanced by the fact that the Beethoven symphony was still reverberating in the air after its performance earlier in the evening. The thematic connection. though, seemed to be the only reason for this Eroica performance. Neither Hickox nor his band had a great deal to say about the work. This was a respectful, meticulous and cogently argued performance. which is not, perhaps, quite all that this symphony could or should be.

Beethoven and Strauss formed a strong framework for another canny piece of programming: Haydri's cantata Arianna a Naxos, Strauss's own chamber-operatic response to the myth of the abandoned Ariadne will be heard tomorrow, but, for the time being. Christine Brewer took charge of the Haydn in no uncertain terms. Her lustrous soprano brought the distressed Arianna's questions into foreground focus before conjuring up a startled vision of the approaching Argive ship, and finally withdrawing into faded hope.

Flexible to a fault

Philbarmonia/ Thiclemann : Festival Half

A FORTNIGHT ago Daniele Gatti and the Royal Philharmonic gave us a Brahms Third recalling Karajan or Kempe. If Christian Thielemann and the Philharmonic did not invite similar comparisons with their Brahms Fourth, it was partly because this conductor invokes different antecedents, and partly because his interpretation, though remarkable, raised a doubt or two.

Thielemann gave notice of his intentions with the first note: a quavering, infinitely protracted upbeat that clearly signalled much rhythmic latitude in the movement to come. Where Gatti was surging and passionate. Thielemann elected for a rhythmic flexibility that recalled his spiritual mentor, Furtwängler. Nowhere was this latitude more marked than at the approach to the

off in the coda. The finale similarly

encompassed a broad largamente near the start and a heady ending, while the slow movement was al-lowed generous space to unfold. Evidently Thielemann was en-deavouring to create a living organ-

ism unconstrained by regular metre

or unified tempo. The danger, not

entirely avoided, is that such free-

dom sounds artificial rather than

spontaneous. Yet it i had to choose

between this approach on the verge

of self-indulgence and the unadven-

Bach with some bite

Mass in B Minor Edinburgh

THERE is a third way. While Frans Brüggen no doubt prefers to conduct Bach's Mass in B Minor on period instruments - as he recorded it - there is no reason why a performance by an ensemble like the Scottish Chamber Orchestra should not be at least acceptably authentic.

It is not just a matter of knowing how Bach sounds with a period-instrument orchestra and of imitating it on modern instruments. That doesn't work. It is more a matter of making the right compromises in approximating to the ideal in terms of balance, colour and articulation. At the same time there is the question. of the voices to think about, of casting the soloists and of accommodating a non-specialist chorus in the general concept.

In St Mary's Cathedral the 50 or so voices of the SCO Chorus sounded just about right. Divided into a

of the eight parts were hard pressed to retain their place in the texture. On the other hand, there was no lack of contrast in the almost over-dramatic transition from the cloud-ed chromaticism at the end of the Crucifixus to the brilliant D major at the beginning of Et resurrevit. And in coping with what Brüggen presumably feels to be authentically brisk tempi, the ensemble survived more or less intact.

double chorus in the Osanna, some

With the soloists, the compromise might have been better adjusted. Emma Kirkby, an essentially period-instrument voice, was out of place here, particular when in partnership with Catherine Wyn-Rogers, who is more operatic. In this context the two male voices, James Oxley and Neal Davis, both of them displaying unaffected integrity. were more appropriately chosen.

As for the Scottish Chamber Orchestra, while some of the instrumentalists awarded obbligato roles were more stylish than others, the high horn and trumpet sound, the fluency of the oboe d'amore, the sensitivity in retaining a true halance with the soloists and chorus, the clarity of the textures - even in a cathedral setting - were admirable features of a generally serious but entirely unsolemn performance.

The other crises? What crises?

Keeping Blair's mind on the

Balkans has its price

T o Prime Minister can handle more than two crises at the same time. This old Downing Street adage is being tested to the full at present. All crises have opportunity costs — other issues do not receive the attention that they otherwise would. Decisions are not taken, or are fudged.

The domination of Tony Blair's diary by Kosovo has affected the other urgent issue. Northern Ireland. Although closely involved in attempts to break the current stalemate. as he will be again this week. Mr Blair has not been able to devote the time in intensive. face-to-face talks that he did before the Good Friday agree-ment. He may not be able to achieve a breakthrough, but his personal role is seen as crucial on all sides.

An obvious short-term casualty of Kosovo has been Mr Blair's drive to reform the European Commission. Following the debacle over the resignation of the Commission last month, he was keen to persuade other European leaders to adopt a far-reaching reform programme linked to the appointment of Romano Prodi as President. British ideas for improving internal financial controls are still on the table, but have made little progress because talks among European leaders are dominated by Kosovo. Little is now likely to happen until after the

European elections new Commission takes up office in

The domestic im-pact is clouded by the division of responsibility between Mr Blair and Gordon Brown. The Chancellor is now unchallenged chief executive on most economic, industrial and social issues. Peter Mandelson's resignation four months ago

removed the only powerful independent voice, while John Prescott is largely absorbed in his sprawling department. Mr Brown has also taken charge of the Scottish election campaign, determining strategy and having close allies, such as Douglas Alexander, in day-to-day charge of co-ordination. If the latest polls are right, and the Scottish Nationalists are well beaten in ten days' time, that will be Mr Brown's triumph.

Downing Street insiders say that Mr Blair's preoccupation with Kosovo matters less both because departments are busy implementing decisions already taken and because there is now a lengthy period of "purdah" preventing new announcements ahead of the May 6 elections, and then the June 10 European elections. Mr Blair has often talked of 1999 being "the year of delivery". Departments have been set a lengthy list of targets under the public service agreements with the Treasury. But this requires constant prodding from the centre.

The intervention of the Prime Minister Is often needed to overcome departmental inertia. This is just the time he should become personally involved in sorting out the mess over the future of London Underground. Even in those areas in which Mr Blair is particularly interested, such as education and health, pressure from him is needed to maintain reform. For instance, the drive to bring in appraisal of teachers and performance-related pay is at a tricky point because of opposition from the unions.

Kosovo may, in time, also affect government spending plans. Fortunately, public fi-nances are pretty healthy in the short term, so the immediate costs of the war should be absorbed without too many problems, once the Treasury and the Ministry of Defence have sorted out their usual spat about paying for replace-ment missiles and the like.

The problem is more in the long term. Provided the alliance does not fracture over the coming weeks, any lasting solution for Kosovo is likely to involve the commitment of a large number of troops there, as a peacekeeping and protection force. But two fifths of the Army are already on active service, an unsustainably high proportion for a peacetime professional force. So the size of the Army will almost certainly have to be increased.

Moreover, Britain and the rest of Europe are likely to have to spend very large sums rebuilding Kosovo and helping the economies of the surrounding countries.

The danger with regional conflicts such as Kosovo is that they distract attention from global priorities. Bill Clinton has been strongly

criticised by American businessmen for failing to reach an agreement with China over its admission to the World Trade Organisation during the recent visit by the Prime Minister, Zhu Rongji. In-tegrating China into the world economy is a key West-

ern priority, but Mr Clinton did not properly focus on the issues until too late. Germany and France have similarly feared that the West's relations with Russia might be a casualty of

Tony Blair has been worried for some time that Russia's default last summer and its failure to address its deep economic problems could produce an anti-democratic and aggressively nationalist leadership. These fears have, of course, been fuelled by Kosovo, even though Russia's warnings are more a sign of weakness than of strength.

r Blair argued in his Chicago speech on Thursday that the Cologne summit of leading industrial nations in June should adopt a package of trade, technical assistance and substantial financial help. As Mr Blair argued, Kosovo

is only the latest demonstration - others include the Asian financial crisis and transatlantic trade tensions of increasing global interdependence. He has called for a new "doctrine of international community".
The euphoric days of the

end of the Cold War are over. Surmounting these problems is going to take up much of the time of heads of government, as well as being more expensive for their taxpayers.

Hatred past and future

think one has to take it further than Hitler; indeed we may fail to understand the racism that threatens the world's future if we personalise it too much on him. Yet I found Niall Ferguson's article in yesterday's Sunday Telegraph very persuasive; he linked the Columbine High School massacre, the Serbian ethnic cleansing in Kosovo and the Brixton bomb

to the historic influence of Hitler. Fifty years after his death, Hitler retains his hateful fascination. His personality plays a much larger part in the contemporary world debate than those of the victorious war leaders, Stalin, Churchill or the half-forgotten Roosevelt. The only other European leader to have retained a similar hold on the public imagination 50 years after his death was Napoleon.

The facts are clear enough. The high school massacre was carried out by neo-Nazi fantasists who exchanged "Hell Hitler" salutes with each other and adopted German phrases and trenchoats as symbols of their Nazi views. They targeted at least one black student because he was black. The group that has claimed responsibility for the Brixton and Brick Lane bombings, Combat 18, apparently takes its name from Hitler's initials: A is the first letter of the alphabet and H is the eighth. The Balkans have a long history of ethnic cleansing: there is an inherent racism in the attitudes of the Serbs and the Albanians towards each other. Nato has used the comparison between Hitler and Milosevic as part of its

We do not yet know precisely who planted the London bombs, but there is no reason to question the police assessment that these were racial attacks, nor is it unlikely that the bombs were made and planted by neo-Nazis. The bombs were exploded in areas of ethnic concentration at a time when they would iniure or kill the largest possible number of people. Their aim must have been to terrorise the ethnic communities of these areas, and to

worsen race relations. Whether these bombs are the start of a sustainable campaign of urban terrorism, no one can yet tell. At the least they belong to the same group of racist crimes as the Stephen Lawrence murder, or the Other racist assaults and murders that have occurred too frequently in recent years. Many of these incidents have attracted little attention, but they have spread fear and resentment

The recruits to neo-Nazi and

If Nazism echoes from Kosovo to

Brick Lane, racism goes even deeper

racist groups come from the same people who form street gangs, engage in football hooliganism or get involved in fights outside pubs. They are not necessarily poor or unemployed, but many of them have criminal convictions or criminal associations. Some may belong to the ranks of the dropouts and the excluded, as, in his adolescence in Vienna, Hitler did.

Many are simply street bullies, who take into the street attitudes they have already shown in the playground. The Columbine High School killers were obviously intelligent, perhaps highly intelligent. The original Nazi pat-

tern of intelligent leaders directing street thugs can be regarded as a natural one. If Combat 18 is a large enough organisation have reached this stage, it is likely to have this pattern of leadership. In the past 50

years, Britain has seen a number of these groups form. cause trouble, draw attention to themselves, then break up and fade away. Despite Enoch Powell's grim forecast,

Britain has largely remained a ary 20, 1942, at which the "final stable and racially tolerant community. The Lawrence inquiry argued that racial attitudes in the Metropolitan Police were exceptionally bad. Without questioning the judgment in that case, one could equally argue that race relations in Britain as a whole have remained better than might have been expected. Yet it would not take very long for a terrorist campaign to bring that to an end. London and many other cities are now multi-ethnic communities, and such communities are vulnerable to ethnic tensions.

The Jewish community has a special understanding of the threat. Anti-Semitism is not the only form that racial prejudice takes; indeed, in modern Britain fewer people admit to anti-Semitic prejudice than to anti-black. The Brixton and Brick Lane bombs were not directed against Jews, nor was the Columbine High School massacre, nor is the ethnic cleansing in Kosovo. Yet anti-Semitism is the classic case of racial prejudice, and the Holocaust is the classic racist event of the 20th

No Jew ever believes that anti-Semitism has wholly disappeared. All Jews outside Israel, like all black or Asian people in Europe or America, have to live with the painful knowledge that there are people they meet or work with who ieel an intrinsic hostility towards them. They know the little sneers that will be made, the assumptions of racial difference, the stereotyping, the exclusion. And they know how much worse has lain behind that, in

medieval British history, in modern Euhistory. Jews do not forget the Holocaust, because they cannot afford to forget. i suspect that most of them think of the Holocaust, for one reason or another, every day. Many think of it more often than that.

The best account of the Holocaust that I have read is Martin Gilbert's book. His first chapter does not open with the Wannsee Conference of Janu-

solution" was adopted; indeed, he reaches that conference only on page 280. He starts his book with a quotation from Martin Luther dating from 1543, almost 400 years earlier. This was Luther's "honest advice" on the treatment of Jews. "First their synagogues should be set on fire," their homes should be "broken down or destroyed", Jews should be "put under one roof, or in a stable, like Gypsies, in order that they may realise that they are not masters in our land". Jews should be put to earn their livings "by the sweat of their noses", or should be stripped of their belongings "which they have extorted usuriously from us" and driven out of the country

"for all time". One does not think of Martin Luther, the courageous leader of the Reformation, in the same terms as one thinks of Milosevic, the Columbine High School killers, the London nail bombers, or indeed Hitler.

the Protestant tradition of the individual conscience can fail to see Luther in an heroic light. Yet his attitude to the Jews is atrocious. His anti-Semitism is not as vicious as Hitler's, since he does not recommend that they should all be killed, but he does recommend ethnic cleansing, burning them out of home and synagogue, herding them into camps, stealing their money, even expelling them "for all time". By 1543 Luther was a man of great public prominence. This was

no mere expression of private

Nor would it be right to do so. No

one who understands and values

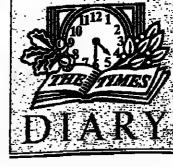

Hitler saw his own anti-Semitism as a species of Darwinism. "One may be repelled by this law of nature which demands that all living things should devour one another. The fly is snapped up by the dragonfly, which is itself swal-lowed by a bird, which itself falls victim to a larger bird . . . if I can accept a divine commandment, it is this one: thou shall preserve the species." He was talking, at that point, specifically about the Jews, in December 1941, just over a month before the Wannsee Conference.

t is not, I think, the ideologies used to justify racism, whether Christianity or Darwinism. L that explain the evil itself. They are rationalisations; anti-Semitism and other forms of racism seem to be a basic human instinct; they show a sense of hostility to the stranger, who is perceived as a threat. Perhaps this is ultimately a Darwinian explanation, since a strong awareness of the potential threat from strangers may have been conducive to survival in the many millennia when man was still a hunter-gatherer.

It is not conducive to survival now. By the end of the 20th century, mankind is armed with many weapons of mass destruction so lethal that they cannot be used for any ordinary purposes of war. Racism, in all its aspects, is the most likely cause of future wars, and it is the present cause of tribal war in Africa and Yugoslavia.

The Lawrence report stated that the Metropolitan Police were "institutionally racist". Perhaps they are. The greater worry is that mankind may be "instinctively racist". If we cannot cure ourselves of that flaw in human nature, the outlook for the next century will be even grimmer than the experience of the century that is passing.

JASPER GERARD

'Fifteen years ago there were no adverts and no products to advertise. A soft drink was a soft drink and there was only one word for it — water'

appy milkmaids, fields of corn, golden light of corn, golden light and lots of old men vaguely modelled on Leo Tolstoy. This is the surreal image of Russia presented in television ads. Quite how anybody expects people who actually live here to believe that there are robust, rosy-cheeked girls in embroidered shirts happily slopping milk from one pail to the next in some pastoral idyll outside the ring road. I cannot imagine.

Fifteen years ago there was none of this drivel. No adverts, no products to advertise, no spin. Cheese was cheese (in fact there were two sorts - yellow and white), and a soft drink was a soft drink. There was only one word for it - water. Anything non-alcoholic came under this name. You knew where you were.

Then, in 1990, a billboard went up in Pushkin Square. It was huge. On it was a little line-

drawing of a man holding a can. The caption, a ludicrously literal translation of the English, read: '7UP. More a jar of water than a way of life." People stood before it, squinting up in a desperate attempt to extract meaning. This was the start of advertising in For at least two years, direct

translations of foreign advertisements baffled the Russian populace. "Bounty -- the enjoyment of paradise" did not disclose that there was something to eat beyond the palm-tree wrapper and not a sex aid, as the words suggested. But eventually the economic colonists got the hang of things and started running faintly 1950s-style ads of the "buy this, it does this and is better than that" type. This went down much better and Russians began to believe that there were differences between cans of drink, and the ways of life that went with

them. They were not quite as convinced as their Western counterparts, perhaps - Russians in general have a more finely developed sense of irony than we do - but they managed to have a Coke versus Pepsi war nonetheless.

Today, however, it's a new ball game. While the nightmarish "Papa? Nicole!"

might not yet be appreciated, Western-style coffee ads are. Nowadays, the idea is to show affluent Russians enjoying the finer things in life. There is a fantastic one in which a girl lets a waiting lover leave messages asking where she is, as she enjoys her delicious cup of coffee

in a faintly sexual way. ing in a basketball court saying The thing is, where is she? She cannot be shown in some awful "I can chew it all day and it never

Brezhnev high-rise, but the beautiful pre-Revolutionary apartments here are not yet fashionable because old people are still dying in them. So this gorgeous woman lives in a ground-floor place that overlooks a forest and is always bathed in golden light. If by some amazing chance such a place exists, she

would need bars on the windows and an armed guard nearby. But best of all, there are now Russian companies running sophisticated ad campaigns. The trouble is, they have a Russian product to sell to Russians. This means that they cannot use beautiful Russian youngsters, looking Westernised and standloses its taste", because that is still selling the West to Russia. They have to sell Russia. The results are hilarious. This surreal twilight zone country has emerged - happy peasants in fields of gold meet affluent new

Russians with cars and country houses. The most toe-curling of these involves a little boy on in-line skates, gliding along a pristine riverbank (no such thing around these parts and anyway, he would fall down a pothole in the pavement and do himself an injury), hand in hand with his Grandpa. I think the boy is wearing a Walkman around his neck and if not, he ought to be.

Grandpa has a long, grey beard and is wearing a belted peasant shirt and shoes made out of reeds. Presumably his son eschewed his simple way of life and became a contract killer or similar (in-line skates are expensive). Anyway. Grandpa is dron- comment@the-times.co.uk

ing on about how the cathedrals are the heart of Russia (how he came out of Communism looking so well with such stringent religious beliefs is anyone's guess). The boy looks convinced.

The strangest, though, is Milaya Mila (sweet Lyudmilla), a pretty, buxom mother who goes out into the pale morning light, skips through the dew to her healthy, happy cows and comes home with pails of fresh milk for her eager, early-rising family.

What is so interesting about all these ads is that, without exception, they carefully omit the past 75 years. It is as though Russia leapt straight from Tolstoyan paradise to American dream without a glitch. Would that were true - and perhaps, with a carton of milk, a stick of chewing gum and an aromatic cup of coffee, it just might be,

TIME FOR THE FRONTLASH

A new neo-Nazi threat based on old hatred

It is the result of fortune alone that no one has been killed in the two nail bomb attacks in London over the past ten days. Although the devices deployed in Brixton and now Brick Lane have been described as unsophisticated, the impact of such explosions at short range would be deadly. These assaults are designed to murder, maim and, above all, terrorise the neighbourhoods concerned. Whether they have been organised by Combat 18, the selfstyled "Command Council of the White Wolves", or a different extremist faction is immaterial: they obviously represent a direct threat from the far Right and are clearly racist in motivation. The objective is to frighten Asian-British and black-British communities.

This is a serious criminal development and one to which the Metropolitan Police have rightly offered the maximum possible attention and resources. It is important, however, to remember how small the neo-Nazi Right is in this country and how feeble its political prospects are. These are violent acts prosecuted by those with no chance of even a modest degree of power. To intimate otherwise is only likely to offer warped pleasure to those responsible.

There is no evidence that these attacks represent some sort of "backlash" to the Stephen Lawrence inquiry. This is sheer speculation that attempts to provide logical form for what is at root pure hatred. Organisations such as Combat 18 have been around in various forms for a number of decades. Their membership has never numbered more than a few hundred, most of whom spend relatively little time in their ranks. It is not clear that the Macpherson report has triggered any surge in their popularity.

These attacks may instead be the result of other factors. The ultra-Right in Britain has been engaged in one of its frequent rounds of infighting. The partial introduction of proportional representation has persuaded parts of the British National Party that it should enter the electoral arena more vigorously and "broaden its appeal" in an implausible attempt to replicate the relative success of the French National Front. This has prompted a realignment and possible radicalisation of the remaining strongly racist sector. The American militias have set an example for some of these individuals to follow. The Internet might have provided another means of disseminating information on the construction of crude devices,

The Metropolitan Police have an opportunity not only to arrest those concerned but also lift their standing in the eyes of ethnic minorities. The Macpherson report portrayed a police force seemingly unwilling to recognise a distinct category of racist crime. The reaction of the police over the past week has shown an enormous improvement on past insensitivity. Deputy Assistant Commissioner Alan Fry has dealt with these incidents in a direct manner and adopted a tone that conveys an appropriate sense of urgency. He deserves the widest possible co-operation

from the public. The nail bomb assailants wish not only to sow fear among minority communities but to drive a wedge between them and white residents. The best possible response is not only their swift arrest but an investigation that brings together people of different colours. An increase in the esteem in which the Metropolitan Police are held would be an obviously unintended but extremely welcome consequence of the current bombing campaign. There is not a white "backlash" either to the Lawrence report or to any other aspect of race relations in Britain - although the ultra-Right would love to forment one. As Lyndon Johnson once said, it is time for the "frontlash" to materialise.

WOOLF AT THE DOOR

A legal revolution today that will take some time to judge

Great expectations await the reforms to civil litigation that come into effect today. These changes are based on the recommendations made by Lord Woolf, Master of the Rolls, in 1996. Then they were hailed as the solution to the protracted and expensive court process which has needed a lawyer at every twist and turn. The Lord Chancellor, Lord Irvine of Lairg, has continued this crusade, presenting these reforms as a key part of his broader campaign that includes ine controversial access to justice bill, in protest against which the Law Society has today taken out advertisements in the

national press. The expectations that the long-awaited Woolf reforms will transform civil justice into a quick and cost-effective remedy for disputes, accessible to all, are about to be put to the test. The principal theme is that of keeping as much litigation as possible out of the courts by encouraging alternative, or early, resolution of disputes. If the reforms succeed in this, then the costs and time spent in litigation will fall.

The chances of such success lie mainly in the hands of the judiciary. Judges have taken over the responsibility for moving litigation forward, replacing the lawyers acting in the case who were seen to have an interest in prolonging litigation in order to earn more fees. With this responsibility have come new powers to impose stiff penalties on those who prolong disputes. If judges use these powers effectively. litigants will find that fighting to the bitter

end does not pay. This will not happen overnight. These reforms are overhauling civil legal procedure and turning litigation on its head. Litigators will now be operating in new and unfamiliar territory. Under the new regime of disclosing facts and arguments in advance, the tactics of trial by ambush will be relegated to the past. At the same time, the traditional lawyers' hammer and tongs of procedural rules - studied and practised for years - have been replaced with an entirely new set of instruments. Everybody will be a beginner, and lawyers will be treading cautiously at first, inquiring over every point, and possibly making court hearings themselves even slower than before.

The lawyers' complaint is that these The legal professions are notoriously reluctant to change their ways. The Bar has been stalling for years over opening up its monopolistic restrictions on who can appear in court. Cynics might view the Law Society's latest attack on the cost-cutting Access to Justice Bill as an attempt to preserve its members' livelihoods.

There is, however, some justification for their protests. The Lord Chancellor has been hurrying his law reforms through Parliament. The Access to Justice Bill was presented to Parliament without the nuts and boits of how its changes will actually work. Similarly, although Lord Woolf said that his reforms depended on the use of new administrative technology, this will not be in place for another year - seriously jeopardising judges' ability to process their new workload.

Transitional difficulties are, however, inherent to all programmes of change. It would be wrong to judge the effectiveness of these reforms on what may be a sticky start. Nor should the wrinkles and irregularities which will inevitably be found in the new procedure be taken as a sign that it does not work. Every system has its own set of problems. What counts is whether, in the long run, the speed and cost at which people can solve their legal problems improve.

SAFELY MATURE

The cheesemakers smell a Whitehall plot

Cheese and bureaucracy do not mix. As we report today, specialist cheesemakers fear that overpowering bureaucracy might force them out of business as quickly as over-ripe Camembert provokes exit from the larder. The plight of these small businessmen highlights the dilemma politicians face. At the whiff of a food scare ministers are quick to promise new regulations to lessen the risks of picking up a knife and fork. The result can be bankruptcy for producers, less choice for consumer and, in this case, the death of the runny cheese and the supremacy of the rubbery one.

Only a few weeks ago, the Government was praising the British cheese industry's products, describing them as "some of the finest of the world". Such plaudits are deserved. Britain's cheeseboard reflects the variety of the countryside, speckled with blues and reds, some smoked, others full fat, oozing with flavour.

Yet if the proposed new dairy hygiene rules are implemented, like a green field smothered by a motorway, this rolling calorific delight might disappear under the uniform monotony of slabs of processed cheese. Forcing small producers to send every batch of produce for microbiological testing, for instance, could make creating their delights unprofitable. The difference between what ministers are saying and planning is, it appears, chalk and cheese. The cheesemakers smell the whiff of a Whitehall secret agenda, fearing that the regulations will mature into a ban on unpasteurised milk being used to make dairy produce. They argue that runny cheeses, made with untreated milk, cannot be made without bacteria, the enemy of the risk-conscious. Yet far from being beastly bacteria, these are on the side of the angels, fighting off listeria and making the cheese safe to eat. So forcing all producers to heat milk to 72C - pasteurisation - might be counter-productive, destroying the cheese's natural defence mechanism and its smelly,

unique creamy qualities. Ministers would be guilty of gastronomic vandalism if they allowed their quest for food safety to destroy the variety of the cheeseboard. Flagrant abuses of hygiene regulations should carry a penalty, but do not warrant a wholesale change in those regulations. Eating cheese is a risky business, but so is crossing the road or having a bath. In 1996, 34 people aged between 15 and 64 died from food poisoning, six of whom had listeria, while 83 people died by falling off a chair or out of bed. Politicians should remember the principle of "caveat emptor". Most shoppers, like good Cheddars, are mature.

As a result of the mismanaged implementation of the new scheme, judges, lawyers, court staff and litigants in person have been placed in an impossible position and recrimina-tions are likely to be fierce. Performance and pay

From Dr Alan B. Shrank

Sir, Why do politicians pursue policies abandoned by those who have introduced them in the past? In trying to force performance-related pay on teachers (letters, April 12 and 19), why have they ignored commerce's disenchantment with this policy?

Those who work harder than their colleagues do not do so to receive the incentive, nor do they work harder once it is received. Some not recognised as worthy of extra reward become disillusioned and work less. Overall, the total effort is reduced. Most big enterprises have discovered

the valuable time of assessors. Favour-nism and blackballing can influence decisions. Ill-feeling is engendered and damages team spirit. In teaching. team spirit is particularly important, since the quality of the school or college depends on the combined efforts of teachers in different subjects and at different levels. To select one or more teachers is invidious.

The key to rewarding workers is to pay them all an attractive salary. This results in higher-quality personnel and a high-quality service.

From Mr George Thomas

Sir, There is not the least fig of legality to our assault on Yugoslavia (John Laughland's article, April 22). We seem simply to have declared that what we decide is right is right and is the law whether or not the UN or anyone else agrees, and that those countries that do not observe our law must expect to be punished. This century has produced several infamous leaders who thought like that.

At least we should have observed one other law, which is that if you do break the rules because of a "greater good" then you had better be sure some great good comes of it. So far our interference has been a disaster and it might seem the situation could not be worse. But, for once, do we not have a duty to think this through? Will reducing Serbia, outrageous though its behaviour has been, into yet another Balkan wasteland really create a better situation than the one we have today?

Yours faithfully, GEORGE THOMAS, 17 Campden Hill Square, W8 7JY.

From the Director of the Atlantic Council of the United Kingdom

Sir, I do not dispute in any way the rights of Alice Mahon (report and letter, April 21) to exercise her conscience in an independent way as a Labour MP. I do know from personal experience from a visit I made to South Vietnam as a Member of Parliament in 1968 that anything you wrote — as I did for the press — exercising an independent judgment, was nevertheless used unscrupulously by both the South Vietnamese Government and Ho Chi Minh

Although heavily criticised by some members of the Parliamentary Lab-our Party, I did not regret my visit. A number of newspapers at the time were interested in sponsoring my visit, which I refused. On arrival in Saigon, the South Vietnamese Government arranged my hotel; however, after a short period of time I moved and stayed with the British charge d'affaires.

I think Alice Mahon made an error of judgment in accepting an invitation to visit Belgrade — including financial backing from a newspaper — when she might have known that her visit would have the effect of strengthening the Belgrade regime's propaganda.

I agree with her that the British public has the right to know the effect of the Nato bombings on the Serbian

Poverty in South Africa Gold teeth 'miracle'

From Mr Julian Charlton

The brutalisation of the police in South Africa (report, April 21, early editions) is a result not of the recent

crime wave but of the apartheid era. I visited South Africa in 1996 to make a television film on developments there. We went to townships. met aid workers and witnessed vistas of extreme poverty that barely seemed possible. Imagine the recent television images of the camps for Albanian refugees and multiply the number of

There are literally millions of people living so far below the poverty line in South Africa that they do not even show up on the national register. In addition, I believe, they have been systematically terrorised by the au-

thorities for decades. When Western politicians talk about the need for jobs and housing it is a standard pre-election promise. When South African politicians talk about the same thing it is a matter of national security. What South Africa needs now is not a better police force but a humanitarian aid mission on a massive scale:

From Mr Edwin Roth

Sir, Clare Short is totally correct and justified in likening certain Labour MPs to those Britons who wanted to appease Hitler in the Thirties (report,

April 21). As a foreign correspondent, I was working in Israel during the Bosnian War when a demonstration against Milosevic's ethnic cleansing of Muslims was held in an Arab town there. To everybody's surprise, one participant was Professor Shevach Weiss, then the Speaker of Israel's parlia-ment, an Orthodox Jew. "I came to this Muslim demonstration because I am an expert on ethnic cleansing." he said. "I am the only survivor of my family. All the others were ethnically cleansed by Hitler in Auschwitz."

Yours sincerely, EDWIN ROTH, 20 Arkwright Mansions, Finchley Road, NW3 6DE. April 22.

From Mr R. Luta

Sir. The President and the four Vice-Presidents of the English Centre of International PEN wrote that: Before Nato bombs began to fall, there was an active and vocal opposition to the tyrannical regime of Slobodan Milosevic with its vile policy of slaughter and ethnic cleans-ing of the Kosovo Albanians" (letter, April 20).

I was appalled to read this from people who lead such an institution. If this is not spin, or pro-Serb propaganda, it is ignorance at best. I come from Kosova, and by God, I wish I knew there had ever been a gathering of at least a few Serbs in Belgrade to express any kind of opposition to what the Milosevic regime was doing to the Albanians.

I would kindly ask Ms Billington and the signatories of the letter to send me any information to substan-tiate such a claim, if they have any.

ent associates the term "evangelical" with the way-out credulity and wacky behaviour of a minority of extreme charismatic churches and individuals ("God 'gives' gold teeth to believers". April 17). An evangelical is a Christian who accepts the Bible as the inspired and authoritative Word of God, a position taken by all the major Protestant con-

fessions of faith down the centuries. refugees by the factor of a thousand. The word evangelical was applied to Bible-believing Christians long before the charismatic movement was even thought of. It is true that, in the main, the mod-ern charismatic movement has taken

mot within the evangelical community. But the kind of mumbo-jumbo described in your report about gold fillings appearing miraculously in teeth is rejected and deplored by the large majority of evangelicals including, I suspect, most moderate charismatics. Evangelicals are concerned with the biblical gospel of Jesus Christ and the glory of God.

Study of Latin

From Professor A. J. Woodman

April 18.

Sir. You report today that Earl Spencer's eulogy for his sister has won the approval of Professor Lisa Jardine on the grounds that, if adopted for teaching purposes, it would make young teenagers realise that "language is important". Evidently Professor Jardine attributed the earl's rhetorical prowess to his impeccable education", including the study of Latin.

Presumably this cannot be the same Professor Lisa Jardine who, when the Secretary of State for Education 18 months ago voiced his support for the teaching of Latin, was reported in the press as saying: "I cannot believe my ears." On that occasion she confessed that her "blood boils" at the idea of reintroducing "a dead language". rather than computers, into primary classrooms.

Dyke 'disqualified' as new BBC chief

From Sir Paul Fox

Sir, It is inconceivable that the BBC would have asked me to return as Managing Director, BBC Television, had I, during my time at Yorkshire Television, made any financial contri-butions to a political party.

A decade on, nothing has changed. The BBC decided that Melvyn Bragg, one of our most gifted broadcasters, could not continue to host Start the Week on Radio 4 because of his

well-known links with Tony Blair (report, July 8, 1998).
Although Greg Dyke is a charismatic and talented figure in television, he has disqualified himself from being a serious candidate for the job of Director-General and Editor-in-Chief of the BBC (leading article, April 23; letters, April 20, 21 and 23). The fact that his financial contributions to Labour are widely known and that he would somehow "balance" Sir Christopher Bland, the Chairman and one-time GLC Conservative council-

lor, is irrelevant.

Even in 1999, the BBC cannot bend

the rules. Yours sincerely, (Controller, BBC1, 1967-73; Managing Director, BBC Television, 1988-91), c/o 10 Charterhouse Square, London, ECIM 6LQ. April 25.

Digital TV

From the Chief Executive of Channel 5

Sir, The leaders of commercial television who wrote to you (April 21) deploring the prospect of a digital supplement to the licence fee seem prepared to sacrifice the long-term public interest in the welfare of the BBC for their own short-term economic ends. They all have a substantial stake in the success of digital televi-sion, but seem unwilling to acknowledge the important and growing role

the BBC plays in ensuring the public appeal of digital offerings. We are told that the BBC is investing 10 per cent of the licence fee £200 million per annum — in digital infrastructure and services. The BBC's own free-to-air services (News24, Choice, Learning and Parliament), together with joint ventures such as UK Horizons and new, online offerings, will play a significant part in attracting digital customers. Do the signatories to the letter expect these services to be provided indefinitely at the expense of all licence-fee payers for the benefit of the digital minority

(and, of course, themselves)? There are precedents for the proposed supplement. Television was originally funded by a separate licence ice, over and above radio. Colour television was introduced in 1967 and a supplementary licence fee for colour the following year. It would be hard to argue that it inhibited the spread of colour; the extra investment by the BBC in new programming helped colour licences to outstrip black-and-white ones within eight

The signatories display little confidence in their own offering, little understanding of the past and little sympathy for the long-term role of the BBC in the digital age in suggesting that a £2.50 a month charge to fund the BBC's initiatives would seriously inhibit the transfer to digital.

There can be a serious debate about the scale and nature of the BBC's digital investment. However, to imagine that, for ever and a day, the BBC will be funded by a single, undifferentiated, flat-rate lump sum per household for all the services it offers would be to inhibit the BBC, the transfer to digital and (though they may not realise it) the businesses of the sig-

natories themselves. Yours faithfully. DAVID ELSTEIN, Chief Executive, Channel 5 Broadcasting Ltd, 22 Long Acre, WC2E 9LY. April 21.

OBITUARIES

ARTHUR BOYD

Arthur Boyd, AC, OBE, artist, died in Melbourne on April 24 aged 78. He was born on July 24, 1920.

t has been said that, after Picasso, Arthur Boyd's oeuvre is the most massive and varied in the history of 20th-century painting. His chief theme was the divine frenzy of love.

If recognition of his artistic stature was slow in Europe despite his huge output, it was partly because he painted pictures with subject matter when abstraction was in the ascendant, and partly because his combination of quiet modesty, acute intelligence and passionate art was not for the salon or cocktail party. He lived compactly in the satisfying circle of an artistic family, and yet he travelled constantly. He was a rare 20th-century visionary who dealt with great themes, both personal and public, without ever losing his sense of place.

Arthur Merric Bloomfield Boyd was

born in Murrumbeena, then just outside Melbourne, to a family which had emigrated from Britain in the early 19th century, and which has now produced four generations of artists, writers and musicians. His father, Merric, was one of Australia's first studio potters. His mother, a painter and Christian Scientist. provided an artistic and religious upbringing for her five children, who all became painters, sculptors or potters.

Boyd left primary school at 14 to work in a paint factory owned by an uncle, and briefly attended evening classes in art at the National Gallery of Victoria. In 1936, while living with his grandfather, himself a painter, he began to paint landscapes, well enough to have his first exhibition at 17. These were mainly broadly painted Impressionist views in grey-blues and ochres, but there was already a boldness of attack which was soon to become more Expressionist.

During the 1940s, some of the most urgent, passionate, imaginative and humane art anywhere in the world was being painted in Melbourne, Australia. It was as if only at the furthest distance from was as in only at the influenced the world's agonies be handled. The year 1937 had been crucial. In that year, Joel Bergner, a 17-year-old European Jew who had lived in the Warsaw ghetto and who painted in a style influenced by Picasso's Blue Period agonized in Australia as a refuser. Period, arrived in Australia as a refugee. The Russian Cossack Danila Vassilieff, who had fought in the First World War, reached Melbourne by way of the Black Sea, India, China, Queensland, then Brazil, the West Indies, England, France, and Spain; the self-taught Albert Tucker was picking up his own style of Expressionism; Noel Counihan was painting urban scenes with a strong social content, and John Perceval was painting psychological dramas.

Arthur Boyd in Hampstead in 1967, at work on the last of 35 large pictures about King Nebuchadnezzar, for the Adelaide Arts Festival

attention.

All these men, along with Boyd, came. together to produce what has become known as the "Angry Decade", 1937-47. throwing the agonies of a suffering world at an Australian society that was still trying to remain isolationist.

Boyd Joined the Australian Army Service Corps in 1939, working in Melbourne and Bendigo as a cartographic field surveyor until 1944, but managed to participate in the exhibitions of the Contemporary Art Society from 1942 to 1946. Meanwhile he was developing a personal style, combining Surrealism, symbolism, social realism and Expressionism to create a world of lovers and cripples, beasts and monsters, in scenes of suffering, passionate love and redemption.

After leaving the Army he married Yvonne Lennie, a former art student, in 1945, and set up a pottery business with his sister's husband, the painter John Per-ceval. In the same year the Myer Gallery requested the removal of one of Boyd's pictures, Two Lovers: The Good Shepherd, from the Contemporary Art Society Exhibition on grounds of obscenity.

He now began a profound study of the art of Bosch, Breughel and Rembrandt, including not only their subject matter and composition but also the technical beauties of their paintwork. With tempera and oil, sometimes over chalk grounds, and with an abundance of precise detail and mellow radiance of colour, he painted The Mockers and The Mourners in 1945, and in 1946-47 produced a tour de force of Breughelian and Bosch-like breadth, The

Mining Town.
Less tendentious than his paintings of religious themes, sexual passion, guilt and betrayal were his Berwick and Wimmera landscapes of 1948-49, which won him the respect of Australia's cultural establishment. A series of murals for his uncle, the novelist Martin Boyd, were followed in 1950 by work on ceramic tiles, and sculpture such as Saul and David of 1953.

In 1951 Boyd travelled to Central

Australia, where the poverty and derelic-tion of the Aboriginal people of the interior corresponded to the maimed and deprived creatures who already peopled his psychodramas of the redemptive powers of love. The trip had a strong impression on Boyd, as he showed in a series of paintings from 1956 entitled Love. Marriage and Death of a Half-Caste (often known as the Bride series). These Chagall-like allegories feature a part-Aboriginal stockman, who is joined by a naked, spectral bride in a forest clearing. The first cycle of paintings on this theme was shown at the Australian Galleries in 1959, and filmed by Patrick Ryan and Tim Burstall, bringing Boyd to international

After taking part in the Antipodean Exhibition that year. Boyd left for London with his family. They rented a house in Hampstead Lane as a base for touring Europe, and the next year, 1960 - the year that Sidney Nolan exhibited his Leda and the Swan series at the Matriesen Gallery - Boyd had his first London show, at the Zwemmer Gallery. The catalogue had a foreword by Bryan Robertson, who was to advance Boyd's reputation with his exhibition of Recent Australian Painting at the Whitechapel Gallery in 1961, and a full retrospective of Boyd's work at the same influential

address in 1962. Boyd next conquered the theatre. A commission for decor and costumes for Stravinsky's ballet Renard at the Edinburgh Festival and later at Sadler's Wells was followed in 1963 by stage designs for the ballet Electra, with music by Malcolm Arnold and choreography by Robert Helpmann, at Covent Garden and later at the Met in New York.

Like his close friend Sidney Nolan, with whom he was often linked, Boyd found Europe a great stimulus. The feeling of distance which had launched the "Angry Decade" in Australia was for a time reversed, and Boyd vigorously pursued his Australian themes in Britain. Then, after several years devoted to the Half-Caste cycle, his erotic fantasies of star-crossed, wind-blown lovers — as if in some underworld of the shades from Virgil or Dante — took on the myths and metamorphoses of antiquity and the Renaissance. In 1966 he began the Nebuchadnezzar series; in 1968 he made lithographs on the theme of St Francis of Assisi, and a collection of tapestries and

pastels on the same theme followed.

During the 1970s he published etchings, lithographs and aquatints on Lysistrata and Narcissus, and worked on tapestries of Nebuchadnezzar. He also illustrated Peter Porter's Jonah (1973) and The Lady and the Unicorn (1975), and Janet Dalley's translations of Pushkin's

il these works were punctuated by exhibitions at Fischer Fine Art in London, and long and frequent visits to Australia for an increasing number of exhibitions. In 1973 Boyd bought an estate on the Shoalhaven River, where he founded an expanding family enclave, and which became the inspiration for many subsequent sketches and paintings. In Europe, Boyd's base from 1975 was Ramsholt, near Woodbridge in Suffolk, and he also acquired a house near Palaio in Tuscany. Although he loved to travel, he was terrified of flying, and always insisted

on going by ship.
Responses to the landscape and natural events around Shoalhaven took more of Boyd's attention in the 1980s, when he acquired another house on the Shoalhaven River, at Bundanon, near Nowta, New South Wales. In 1984 he received a commission for a tapestry for the Parliament House Authority in Canberra, and another to paint 16 canvases for the foyer of the State Theatre at the Victoria Arts Centre, Melbourne,

Meanwhile, his paintings were growing larger, fiercer in colour and broader in their references to contemporary society. This meant that an artist who had long swum against the tide of fashion found himself right at the centre of the younger New Expressionists in the 1980s.

In 1993 Boyd and Sir Sidney Nolan (his brother-in-law since 1976) gave their extensive properties at Bundanon to the Australian public for the creation of a national arts and environment centre. The landscape, including Pulpit Rock, features in many of Boyd's late paintings, and the trust provides places for artists in residence. It is also developing exchange programmes, especially between England, Asia and Australia.

Arthur Boyd was appointed OBE in 1970, AO in 1979 and AC in 1992. He was voted Australian of the Year in 1995.

SIR JAMES COBBAN

Sir James Cobban, CBE. Abingdon School, died on April 19 aged 88. He was born on September 14, 1910.

JAMES COBBAN was one of the last of a generation of headmasters who devoted most of their working lives to a single school. Having learnt much about leadership and administration during the war, he also made a wide contribution to public life. Born in Scunthorpe, James

Macdonald Cobban won a scholarship from Pocklington School to Jesus College, Cambridge, where he took a first in both parts of the Classical Tripos (with the highest mark except for his contemporary. Enoch Powell) and was both Thirwall Medallist and Gladstone Prizeman. He taught at King Edward

VI School, Southampton, and at Dulwich College before serving in the Directorate of Military Intelligence and becoming, as a Lieutenant-Colonel, a Staff Officer with the Control Commission in Germany. After the war he returned briefly to Dulwich, before becoming headmaster of Abingdon, then an undistinguished school of 250 pupils, in 1947. By the time "The Boss" retired in 1970, it had more than 700 pupils.

Referred to by one general as the best staff officer he had ever had. Cobban arrived at Abingdon with something of a reputation as an administrator. It was said that the filing system he introduced to the school was based on what he

had observed of German military efficiency. Under him, the area of the school's buildings doubled, and when the quatercentenary was celebrated in 1963, Abingdon had become one of the major direct grant schools in the country.

He needed little sleep, and his energy and ideas never flagged. He remained in the forefront of curriculum development, with innovations in maths, science, classics and music. And he understood the claim to greater freedom among pupils in the

He always knew every boy in the school, and took even the youngest seriously. He was the favourite subject of his own jokes, and happily played up

Though small in stature, he had utter self-assurance and was quite unselfconscious. whether observed in his dressing-gown returning from his morning swim, or taking whole-school assembly in the open air on a cold winter's day, or teaching Greek with a combination of Movoum and Tupvaoriky (music and movement) which would have delighted Plato — and even pleased the Third Form.

Bodies Association; chairman Abingdon, and a governor of Stowe, Wellington College and others. He chaired the Abingdon bench of magistrates and served on the Oxfordshire Magistrates' Courts Committee, and that of the Thames Valley Police Authority.

He represented the Diocese of Oxford in the House of Laity on the General Synod and was vice-president of the Oxford Diocesan Synod, as well as chairman of the Laity Challenge Fund. He was one of those responsible for selecting ordinands for the Church of England and was himself a lay reader. He officiated in a group of six Dorset parishes from 1986 to 1997.

IP in 1950, became Deputy Lieutenant of Berkshire in 1966 and, under reorganisation, of Oxfordshire in 1974. He was appointed CBE in 1971 and knighted in 1982. In 1986 a party was held to celebrate 50 years of continuous publica-tion of his Latin reader Civis Romanus, which he wrote with a colleague at Dulwich and which had sold nearly half a million copies (paying for the education of four ighters). The two authors and the original commissioning editor were all present.

He married Lorna Marlow in 1942, but she died in 1961, and their only son also died when very young. His sister gave up her job as a primary school headmistress to support him at Abingdon. He is survived by her and his four daughters.

Cobban, who had become a

Munich Crisis

He worked on many committees, was a director of several companies, and produced a number of films with John Ford. For many years he was president of the Irish Club in London, and he also helped to promote the Dublin Festival Theatre. He also found time to write. His book on Godfrey Kneller, while not a scholarly contribution, served to revive interest in a figure overshadowed by his contemporaries Gainsborough and Reynolds. Killanin also collaborated with Michael Duignan on The Shell Guide to Ireland

As an Olympic administrator he displayed considerable diplomatic gifts. He was president of the Irish Olympic Council from 1950, and a member of the IOC from 1952. In 1966 he became chief of

LORD KILLANIN

Lord Killanin, former International Olympic Committee, died yesterday aged 84. He was born on July 30, 1914.

MICHAEL MORRIS, 3rd Baron Killanin, was a versatile irishman who achieved distinction in several different spheres, not least as President of the International Olympic Committee (IOC) in one of its most turbulent periods, 1972-80.

He came from an old Roman Catholic landed and merchant family, long settled in Galway. His grandfather had been Lord Chief Justice of ireland, and later a law lord who was created a hereditary peer. His father was killed in action in 1914, so Killanin succeeded as a peer while still a minor in 1927 on the death of his uncle.

He was educated at Eton, Magdalene College, Cam-bridge (where he was president of Footlights) and the Sorbonne. As he had edited Varsity, it was a natural progression for him to enter journalism. He was a war correspondent in the Sino-Japanese War, and later a lively political columnist with the Daily Mail. He was also one of the authors of Four Days, which described the reaction in various capital cities to the

During the war he served with the Queen's Westminsters and took part in the D-Day landings. Afterwards he married Sheila Dunlop, and returned to Ireland. He was determined not to be separated from the mainstream of Irish life. His few speeches in the Lords had shown him sympathetic to Irish nationalist aspirations.

> which he finally achieved. It had been thought that Killanin's predecessor as President of the IOC, Avery Brundage, who held office for 20 years, had had a difficult time, but Killanin's experience, though spanning only eight years, was even more trying. He hardly had time to savour his election to the presidency at Munich in 1972 before the Games there were marred by the tragedy that overtook the Israeli team at the hands of the Palestinian guerrillas - an early reminder of his unnerving responsibilities.

Later that year a crisis arose over the 1976 Winter Olympics. when Denver, the city originally chosen, withdrew. This was unprecedented and could have presented the new President

protocol, and two years later

he rose to be vice-president. He stood for a modern, flexi-

ble approach (not least on

amateur status) and his patri-

cian background helped him

to push through reforms. His

philosophy was to put the competitor first and to ensure

that the Games were open to

the maximum possible number of athletes. What he

really wanted was a reduction

of nationalism in the Games,

and he was for a long time a

lone voice advocating the aboli-

tion of flags and anthems. He

was also a consistent advocate

of the admission of China,

ment. Beijing dropped its precondition that it would rejoin only if Taiwan were excluded as a separate entity. based on the argument that Taiwan was a part of China and that its citizens should compete under the mainland flag. The IOC decided to recognise two separate Chinese Olympic Committees. But Taipei remained hostile to this new arrangement and stubbornly sent a team to Lake Placid in the name of the Republic of China rather than the new title wished upon it, that of the Chinese Taipei National Olympic Committee. When its team was refused

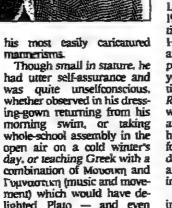

admission to the Olympic Village, Taiwan successfully sought court approval for the ruling to be overturned. Lake Placid duly lodged an appeal, supported by the US, which claimed that if the judgment were allowed to stand, the American position in international sport would be compromised. The Americans' attitude at Lake Placid

had changed diametrically from that at Montreal. But all this paled beside the problems presented by Moscow in the summer of 1980. There had been criticism of the decision in 1974 to award the Games to the Soviet capital. Indignation overflowed into anger when the Soviet Union invaded Alghanistan at the end of 1979. Personal indignation was supplanted by presidential hostility in America and expressions of severe disapproval elsewhere, nota-

bly in Britain and Australia. BRITISH GRIP ON HILL 60

During the last few days the area south-east of Ypres has continued to be the centre of interest, and the narrative of the fighting there will be given up to

the night of Wednesday, the 21st. Hill 60, of which the Germans held the crest, was seamed with innumerable trenches and saps. At 7pm on April 17 seven mines were fired simultaneously under the German trenches. The interval that elapsed before our assault took place was — to use the words of one soldier — "like a transformation scene." Trenches, parapets, sandbags disappeared and the whole surface of the ground assumed strange shapes - here torn into huge craters, there forming mounds of fallen debris.

As the reports of explosions died away. and while the dense columns of smoke and dust still hung in the air, our men. led by their officers, sprang from the trenches and rushed across the intervening space of some 40 to 60 yards between

ON THIS DAY

April 26, 1915

our line and the gaping craters before them, the front covered by the attack being only some 250 yards in length. Many of the German soldiers were

surprised in their shirt sleeves. Stunned by the explosions, suddenly subjected to a rain of hand-grenades, thrown by our bombing parties, they gave way to panic. Cursing and shouting, they were falling over one another and fighting in

communication trenches; and some of those in rear, maddened by terror, were driving their bayonets into the bodies of their comrades in front. Of all this our infantry had but a

momentary glimpse before they fell upon the enemy with the bayonet, burst through the maze of trenches, poured into the craters, and pressed on down the communication trenches until at last they were stopped by barricades defended by bomb throwers. The first line of trenches over the front assaulted was captured in a few minutes, with little difficulty, and 15 prisoners fell into our hands. But it was then that the real struggle began, for the Germans quickly recovered from their surprise. From our line the hill is a salient

exposed to fire from three sides, and it was only a few moments before the German gunners took advantage of this fact and opened fire. Soon the whole position became obscured in the smoke of bursting shells. Meanwhile our batteries had begun to support the attack, and a terrific artillery fire was their hurry to gain the exits into the maintained far into the night.

Six-shooters: Kanu, left, and Winterburn celebrate one of Arsenal's half-dozen goals against Middlesbrough

Wenger's ruthless troops go gunning for United

By Oliver Holt, football correspondent

THERE has been much talk in their fate is still in their control recent weeks from the players of Manchester United about the importance of sending messages to their rivals with emphatic performances, messages of invulnerability that gradually drain the opposition of all hope. As he stood in one of the wide corridors at the Riverside Stadium early on Saturday evening, Arsène Wenger, the Arsenal manager, smiled when he was reminded of

what they had been saying. His side had just subjected Middlesbrough to a humiliating rout. In the process, they had leapt to the top of the FA Carling Premiership for the first time this season. Wenger could afford to feel pleased with himself. "Three points is the best message you can

give," he said. Going by that criterion, United suffered a rare breakdown in communications yesterday. Their failure to beat a spirited, skilful Leeds United side at Elland Road was not a bad result, but, taken together with the sheer brilliance of Arsenal's 6-1 demolition of Middlesbrough, it seemed to throw the championship race wide open again.

United trail the champions by a point and even though because they have a game in hand, even though they are still the bookmakers favourites, Arsenal will hold the psychological advantage of being top for the next five days at least. In United's favour, they will not face opponents of Leeds's calibre again, while Ar-senal still have to play O'Leary's side and endure the lottery of a North London derby at White Hart Lane.

If Chelsea had won yesterday afternoon, rather than trudging to a dull goalless draw away to Sheffield Wednesday, they might have re-entered the race. Now, though, they have retreated even further into the shadows.

"There are still a lot of twists and turns to come," Ferguson said after he had seen Dwight Yorke spurn a late chance to beat Leeds, "but this is a good result for Arsenal and Chelsea. It will have given them much more hope. It will go right down to the wire now."

The way that Arsenal played on Saturday suggests that Ferguson might be right. They were irresistible. Kanu, their Nigeria forward, was so inspired that it will be hard to leave him out, even for Dennis Bergkamp. One of his goals. Cup semi-final replay. Ar-

an outrageously extravagant back-heel from 12 yards, almost defied belief. His poise and positional awareness have brought yet another dimension to an Arsenal attack that was not exactly short of weapons in the first place.

In defence, the champions were as relentlessly parsimonious as ever. Steve Bould, deputising for the suspended Martin Keown, produced a fault-less display that underlined the standards that Keown and Tony Adams have to set in order to keep him on the bench. Even at 35, Bould would be a starting member of any other side in the country. Even Manchester United.

It is also significant that since their epic defeat at the hands of United in their FA

Arsenal are at their most relentless now, unforgiving and brutal, and United will have to shake off their fatigue and rediscover the joie de vivre that sent them dancing past Juven-tus if they are to hold them off. Not only did Ferguson's team look jaded against their bitter

rivals from Yorkshire yesterday, they also finished the game with an epidemic of injuries that does not bode well for their ability to cope with the demands of a punishing cham-pionship run-in.

In the aftermath of the i-i draw, secured when Andy Cole scored a second-half equaliser to rub out Jimmy Floyd Hasselbaink's goal for Leeds, Ferguson orchestrated a mass withdrawal of his play-

ers from international duty. Paul Scholes and Andy Cole were pulled out of the England squad that travels to Hungary today, Jaap Stam, whose Achilles tendon injury is causing concern, will not join up with Holland and neither Ronny Johnsen nor Henning Berg will be part of Norway's plans. Add to that the fact that Ryan Giggs may miss the rest of the season with an ankle injury and the scale of the problem is obvious.

"We did well in some re-spects today," Ferguson said. "Our passing was chaotic at times and in the first 20 minutes we were very lackadaisical, but, considering the exertions of the last two weeks, that is understandable."

Ferguson is not the kind to need any reassurance, but David O'Leary, the Leeds manager, offered some anyway. "I have said I think United will win the title all along," he said, "and I will stay with them now. I thought Arsenal would beat Middlesbrough, so that doesn't really change anything. But one thing is for sure: they will push United all

Lost ball drives Spence to despair

IN RARCELONA

ANOTHER day, another row. The Peugeot Spanish Open has been dogged by controversies and it was not done with them in the final round yesterday as Jamie Spence had a ruling imposed on him that cost him. at the very least, the chance to finish second in the tournament. It also cost him the small matter of £43.450 and Spence was not happy about it.

Spence, 35, was the closest challenger to Jarmo Sandelin, the eventual winner, when he hooked his drive 20 yards to the left of the par-five 12th fairway at El Prat. He and Janet Squire, his caddie, were adamant that they saw the ball roll under an improperly parked car, but, when they got to the spot, the ball could not be found.

Paul Carrigill, a European Tour rules official, was summoned and, after consulting John Paramor, the Tour's chief referee, ruled that as there was not sufficient evidence as to the location of the ball, Spence would have to declare it lost, return to the tee and drive again under a two-

stroke penalty.

The result was a double-bogey seven and Spence finished in a tie for fifth place on 16 under par. Had the penalty not been imposed and his round had finished as it did. he would have ended the tournament on 18 under. His prize would have been £66,650 - as it was, he had to be content with £23,200.

Spence was furious. "No question about it, the ball was picked up by somebody. Nothing else could have happened to it." he said. "If there had been a marshal there, as there had been all week, the cars would not have been parked there in the first place. It was ridiculous."

Paramor was apologetic. "We tried to block cars off from parking there, but a few got through." he said.

This is not the first time that Spence has been hit by a contested ruling. He thought that he was taking a three-shot lead into the final round of the Roma Masters at Castelgandolfo in 1993, but was disqualified overnight for taking an incorrect drop when it transpired that he had moved his ball 15 yards instead of 13 from an area of ground under

Spence could not but remember that incident as he looked back on his misfortune and his reaction included a reference to Severiano Ballesteros's con-

troversial drop in the first round of this tournament that was as transparent as a wet Tshirt. 'To think, I was disqualified in 1993 for dropping my ball two yards out of position."

he said, "and yet there has been somebody here this week who dropped his ball eight yards away from where they should have done and was allowed to play on. The rules of

O'Sullivan lifts his game to retain initiative

BY PHIL YATES

A CRUEL slice of fortune. lapses in concentration and a detérmined opponent could not prevent Ronnie O'Sulli-van from closing in on a quarter-final place in the Embassy world championship at the Crucible Theatre, Sheffield, yesterday.

The match resumes at 10am today with O'Sullivan holding a 9-7 lead over Joe Perry. the world No 74, who has acquitted himself admirably on his debut in the last 16 of a ranking tournament.

O'Sullivan therefore needs only four of the remaining nine frames to provide the next opposition for John Parrott and remain on course to capture a title that his natural talent, if not his application, deserves.

The second session was a

showcase for all that is appealing and frustrating about the 23-year-old from Chigwell. who has already won the United Kingdom championship twice and, at the peak of his powers, is unstoppable. A well-crafted 66 clearance

to black enabled O'Sullivan to erase a 53-point deficit in the ninth frame and further successes were achieved with runs of 54 and 76. However, from 6-3 to 6-6, O'Sullivan lacked focus and accuracy.

Sensing danger, he re-established a two-frame cushion at 8-6, but Perry fluked the pink to a balk pocket to steal the fifteenth frame fortuitously and was unexpectedly set to end the day on level terms when 44-0 ahead late in the sixteenth.

Perry, responsible for the first-round elimination of yes, and even £43,000 - can Steve Davis, missed a delicate blue to a middle pocket. John Hopkins, page 33 displaying exceptional positional skill, replied with 74 to improve his chance of

progress significantly.
Stephen Lee produced an outstanding first session to take a 6-2 lead over Alan McManus and, had it not been for a bizarre conclusion to the fifth frame, his healthy overnight advantage would surely have been even more commanding. Lee was solid, self-assured and fluent.

Trailing 68-23 with one red on the table in the fifth. Mc-Manus needed three snookers. But the whole complexion of the frame changed when Lee went in-off while essaying a safety shot, unluckily leav-ing a free ball and McManus produced a clearance of 42 to snatch it on the black.

Showing considerable mental toughness. Lee recovered from 50 points adrift to win the sixth frame with a greento-black clearance and subsequently added runs of 87 and 104 in the closing frames of the afternoon to earlier contributions of 49, 89, 128 and 68,

The equation for inclusion among the elite top 16 in the world rankings next season, complex at the start of the championship nine days ago. is now simple. Tony Drago's 13-8 second-round defeat by Matthew Stevens on Saturday guarantees that, for an unprecedented twentieth consecutive campaign, Steve Davis will be a member. Unless James Wattana reaches the final, Jimmy White will also regain top-16 status.

Pessoa takes applause in faultless victory | Holt shows competitive edge

l-IURLING his hat high in the air, Rodrigo Pessoa claimed his second successive World Cup title yesterday after a faultless final round on Gandini Baloubet du Rouet ensured

The Brazilian, 26, who last year became the first rider to win the world championships and the World Cup in the same year, was greeted with a standing ovation at the Scandi-

Pessoa's success came at the expense of Trevor Coyle, on Cruising, who came within a whisker of giving treland its first showjumping World Cup victory, but Coyle had to settle for second place, despite being the only partnership not to ground a pole throughout the competition. All the same, this was Ireland's best result in the event since it began in 1979.

"When you're chasing somethe courage you need to try to catch him," Coyle said. "He's such a talented guy. You just have to grab the chance when you can." Coyle thought that chance had come in the jumpoff of the second leg, but paid dearly for a bold turn when Cruising incurred three faults.

Michael Whitaker, of Great Britain, on Virtual Village Ashley, was the only rider to incur no faults over the two rounds. EQUESTRIBLINSM From Jenny MacArthur

Although this lifted him from nineteenth to fifth place, it left Whitaker, who had four faults in each of the first two legs, in a frustrated mood. "Both the mistakes were bad luck - I don't think I could have done anything differently," he said. For his older brother, John,

it has also been a chequered three days. After a disappointing start, on Grannusch, he climbed to eleventh place after winning the second leg on Hey-man. Yesterday, they had 12 faults over the two rounds, finishing tenth.

Beerbaum, the European champion, promptly dropped out of contention but Coyle displayed his cool nerve when he and Cruising finished on half a time fault. If Pessoa, the last to go, made one mistake, victory would have gone to Ireland. Watched by his father and trainer, Nelson, Pessoa, with the entire stahim, duly finished without fault. The announcement of his victory was drowned by

Sean Robinson, Hector and Prebble, of Old Loughtonians, having been suspended along with Andrew Todd, o Reading.

Mayer scored for the home side in the sixteenth minute at Cannock, with Crutchley adding a second goal from a short corner three minutes before the end. The teams are also due to meet in the National League Premiership final, at Milton Keynes on May 3.

In the two match play-off for tenth place in the restructured premier division next season, Surbiton defeated Hounslow 3-0 on Saturday. The return match takes place on May 8. Peterborough Town and Formby, having won the cross-over play-offs, qualified for the second division next season. Both teams have previously played in the National League.

SPORT IN BRIEF

SHOOTING: Great Britain's attempt to win the rifle shooting world championship for the third successive time ended in narrow failure in Bloemfontein, South Africa, where the host country became the new holders of the Palma Trophy (David Powell writes). Britain had to settle for the runners-up spot as South Africa won by less than a central bull's eye, the narrowest winning margin under the present rules. Britain effectively lost the championship on the first day, at 800 metres in high winds. A valiant fightback on the second day of the 12-nation contest saw Britain reduce the deficit from 25 points to eight at the end. South Africa scored 14,081,599 points to Britain's 14,073,598. New Zealand were third on 14,044,568.

E FOOTBALL: Croydon are a point away from winning the Women's Premier League title after an impressive 40 home triumph over Tranmere Rovers yesterday, which extended their unbeaten run to 17 games (Cathy Gibb writes). Debbie Bampton, Carmaine Walker, Jemma Hunt and Jo Broadhurst scored the goals at The Arena, a victory that augurs well, for they meet the same opposition next Sunday.

FENCING: Louise Bond-Williams won the silver medal at the women's world cadet sabre championships in Dijon, France. on Saturday. Bond-Williams, from Chipping Campden. Oxfordshire, was beaten by Marianna Ticarico, of Italy, 15-12 in the final. Bond-Williams, 16, earlier had beaten Liz Jones, her Stratford club colleague, Flora Scalato, of Italy, and Ekater Fedorkina, of Russia.

ECYCLING: Michael Boogerd, the Dutch national champion. frustrated Lance Armstrong, of the United States, to win the Amstel Gold race, the fifth round of the World Cup, by a hair's breadth in Maastricht (Jeremy Whittle writes). The climax, though, was marred by a crash involving a photographer's motorcycle and two of the riders in the four-man leading group.

■ MOTORCYCLING: Troy Bayliss, of Australia, heads the chase for the Motor Cycle News British superbike title after a superb third-round winning double on his INS Ducati at Oulton Park yesterday opened an eight-point advantage over Chris Walker. the Kawasaki rider. "It feels great, but there is more to come." Bayliss, who secured a double for the first time, said, Walker finished in third and fourth places.

REAL TENNIS: Penny Lumiey retained the Guy Salmon women's world championship with an impressive display of coolness and determination at Hampton Court yesterday. She defeated Sue Haswell, the No 2 seed, 6-4, 4-6, 6-4 after trailing 2-4 in the deciding set. The tightest final of recent years saw Lumley capture a record fifth world title.

M AMERICAN FOOTBALL: Dameyune Craig, the quarterback, threw four touchdown passes as the Scottish Claymores equalled the NFL Europe record for the most points by a team in one game in a 48-14 victory over Berlin Thunder(Richard Wetherell writes). The Claymores were 37-7 ahead at half-time, a league record points tally for a half. SAILING

Mouligne closes in on leader

By Edward Gorman SAILING CORRESPONDENT

MIKE GARSIDE'S hopes of winning the fourth and final stage of the Around Alone Race from Punte del Este to Charleston are in the balance as J. P. Mouligne, of France, the class two leader, closed the gap after trailing the Briton for 14 days. As both sailors moved into

the southern edge of The Dol-drum belt, Mouligne, who has won every leg of the race so far in Cray Valley, had reduced Garside's lead by nearly 60 miles to 145 miles with just

over 3,000 miles left. "I know J. P. is going to close up soon," Garside said from his Finot-designed racer. Magellan Alpha. 'The race could well be decided in the next few days. We are both nursing damaged boats and bodies and we could both take it easy now, but that's not in my nature and I don't think

it's in Mouligne's either."
In Barcelona, Ortwin Kandler's Corel 45, Faster K-Yote, produced an impressive fourth and final stage of the Troleo Majorica to take the series title, ahead of David Maclean, in Babbalaas, and Graham Walker, in Indulgence.

The series saw three Britishregistered boats racing, with Chris Little's Bounder also among the seven-strong field. Maclean's crew started the last day on Saturday tied with Faster K-Yote, steered by Bertrand Pace, but the French boat was unbeatable. Eddie Warden Owen, who was at the helm of Babbalaas, said: "It couldn't have been much worse."

Eastbourne quick to pick Lemon

By TONY HOARE

EASTBOURNE boosted their struggling team by signing a rider often painted as the villain at the Sussex track when they agreed a deal with Mark Lemon, the Australia international.

Lemon, who missed the Australian season because of a knee injury and was put on the transfer list at Poole at his own request during the winter, is now fully fit and comes in on loan to replace Seemond

Jon Cook, the Eastbourne co-promoter, is hoping Lemon. 26, will be available for the meeting with Coventry at Arlington on Saturday, as the Eagles seek to recover from two consecutive home defeats. Lemon's appearance in Eastbourne colours marks a remarkable turnaround, as he has been a regular thorn in

the Eagles' side for the past two seasons. Poole and Eastbourne have rarely seen eye to eye and Lemon became involved in the long-running feud when the two clubs met in the 1997 Speedway Star cup final.

He said that everyone wanted to see the Eagles lose the final because of their attitude and, although Poole were beaten heavily over the two legs, his words have never been forgotten in Eastbourne.

Cook was happier to stress the positive aspects of baving a track specialist in his side in time for the league campaign. "Mark has been a target of ours for a long time and we are very pleased to sign him."

FA Carling Premiership: O'Leary's young side displays richness of its potential

Leeds stake claim as pretenders to throne

Alex Ferguson gained considerably more credence. In the process of dashing Mancunian hopes of returning to the top of the FA Carling Premiership, they also made a bold statement of intent. Ferguson has Arsenal and Chelsea to worry about this season. but this was a warning that next year, and in years to come, Leeds will be more concerned with emulating

path to the one masterminded by

them than frustrating them. Even if Manchester United were some way short of their best, even if the heroics of the past two weeks appeared to have taken their toll on David Beckham and Dwight Yorke in particular, a Leeds side that con-

tained six players under the age of 21 did more to expose their fatigue than many others could have done.

They had one piece of good fortune, when Yorke missed a chance to win the match with what was, literally, the last kick of the game, blaz-ing his shot high over the bar after a one-two with Teddy Sheringham — but they had proved by then that they deserved their luck.

In Harry Kewell, the young Australian, they had the game's outstanding player. Time and again, Kewell marauded through the middle of the Manchester United midfield, splitting them open with his dashing runs and his pre-cise, incisive pass-

espondent ing. Roy Keane and Nicky Butt were their usual combative selves, but even in this department, Leeds outdid them. David Batty and his apprentices, Lee Bowyer and Stephen McPhail, choked their opponents

whenever they had possession. In attack, Jimmy Floyd Hassel-baink and Alan Smith were a constant source of discomfort to David May, a late replacement for Jaap Stam, and Wes Brown. At the back. Jonathon Woodgate was a commanding, unflustered presence who will surely become a full England regular sooner rather than later.

Kewell had given the first hint of what was to come in the third minute, when he skipped past a lunge from Keane and crossed deep to the back post, where the unmarked Bowyer should have done better than to head on to the roof of the net. Leeds went close again in the eleventh minute, when May failed to clear Bowyer's cross and Smith thumped his shot into Schmeichel's chest.

Smith wasted an even better chance two minutes later after Kewell had caused havoc and slipped a pass out to the right of the area. Smith, usually a deadly finisher, dragged his shot wide.

Leeds's single moment of anxiety in the first half came when Beckham's corner squirted through to

the far post, where May tried to prod it in Martyn, flat on his back, kicked it away and then did so again

when Cole stabbed it goalwards. Kewell missed another chance when he glanced a header wide from a corner by Harte corner, but he made amends soon after that by creating the opportunity that put Leeds ahead. He picked the ball up just inside the Manchester United half after a careless pass from Butt had eluded Keane. When he reached the edge of the area, he threaded a pass through to Hassel-baink and the Durch forward tricked Schmeichel into thinking that he was going to try to take the ball round him before squeezing his shot inside him and in off the post.

However, the visitors did not buckle. They dragged themselves back into the same at the start of the

back into the game at the start of the second half and equalised in the 55th minute, when Keane's cross was met by Butt. Martyn parried

his header and Cole forced it over the line from close range, injuring

Woodgate at the same time. After that, the frenetic pace of the game slowed and the chances became fewer. Smith failed to make the most of a slip by Brown 13 minutes from the end, shooting straight at Schmeichel, but if Yorke had scored in injury time, defeat would have been hard for Leeds to swallow. O'Leary, who signed a new five-year contract worth an estimated £6 million yesterday morning,

Cole, right, and Jones get in a tangle as Yorke looks on yesterday

had no thoughts of gratitude or re-lief, merely determination to contin-ue the pursuit of Manchester United next season.

"I have got a fantastic group of young lads here," O'Leary said. They can cope with the big occasions, don't worry about that. They want to play on the big stage, believe me. United are our yardstick and in the years to come we will be chasing them and hounding them, home and away."

Ferguson's consolation, perhaps, is that Arsenal and Chelsea have still to negotiate Leeds in their own run-ins. King-makers this season, they may yet be the kings before

FA Carling Premiership: Relegation picture clears as Forest drop and Everton pull away

Blackburn look ill-equipped for moment of truth

BRIAN KIDD has scoured Europe to keep up to date with the latest coaching innovations, but there is nothing that Ajax, Barcelona or Juventus can come up with that can help now. His management has been stripped to its essence - the ability of one man to motivate II others.

The injury list, long and horrendous, means that there is a little that he can do to refresh his Blackburn Rovers team. Confidence is plunging and luck is running against them. Yet, somehow, this week he must try to bring about a transformation before they travel to Charlton Athletic, where defeat could be a prelude to dropping out of the FA Carling Premiership. This is a match to be watched from a hiding place behind the sofa.

Kidd, a talented coach, is being asked tactical questions that are tying him in knots. A genial man, the Rovers manager is being stretched to snapping point and midway through the first half on Saturday, it appeared that his agitation had boiled over into rage.

With his defence already traumatised by a laughable first goal. Kidd became in-censed by the provocative touchline antics of Phil Thompson, the Liverpool coach, after an accidental foul by McAteer on Riedle. It did not take a lipreading expert to guess that the Middleton Middleweight was offering the Liverpool Lip "outside"

"It was just something from the Manchester United and Liverpool old days," Gérard Houllier, the Antield manage er, said. "It made me laugh more than anything." But Kidd, despite an apology from Thompson, was still glowering a long time later. 'You had better ask Thompson about it." he snapped.
Kidd's mood may grow

darker still because, with four games to save Rovers from relegation - including a visit from Manchester United only someone with Jack Walker's riches would bet on them surviving. They refused

competence with which they went 3-0 down after 32 minutes suggested that they are on a course set for disaster.

Tragedy, farce, melodrama. There was a bit of everything from Darren Peacock in a mesmerising display. His back pass to John Filan after 22 minutes was unique, flying chest-high at the Rovers goalkeeper, who could neither catch it nor whack it into the stands. Steve McManaman, who was standing only five yards away, needed only to slide in as the goalkeeper slipped and fumbled having received what they call in rugby union a hospital

There was little that Rovers could do about Liverpool's second in the 31st minute, apart from stopping them passing from the back, shutting down McManaman as he moved down the right flank and closing in on Jamie Redknapp before he unleashed his rightoot shot from 25 yards.

The third goal, a minute later, featured even more inept defending. Peacock and

"At a time when you can question what attitude the players will have, they went out and showed they wanted to win for the fans," Houllier said, although the Liverpool camp should be wary of too much backslapping.
They played well in patches,

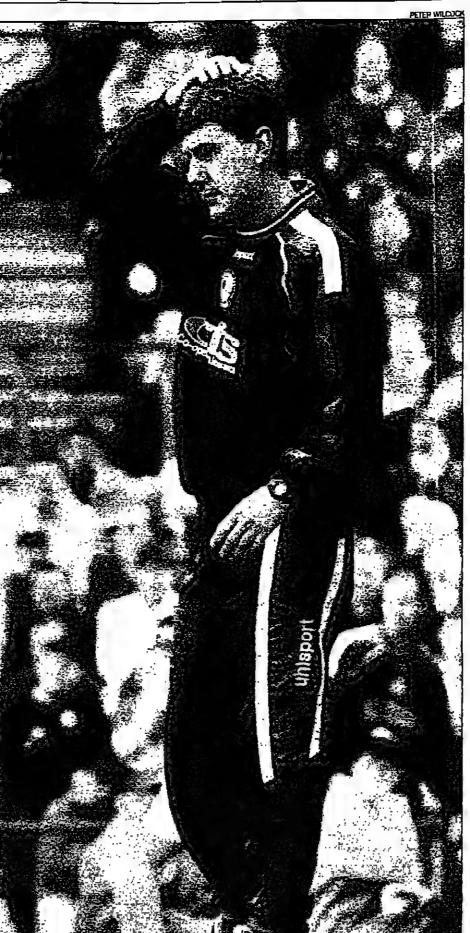

with Leonhardsen, McManaman and Thompson buzzing around just behind Riedle, but can Houllier really be certain that they would have done so they not been handed such an early and impregnable lead?

Meanwhile, Kidd sought solace in his side's performance in the second half, during which they pulled a goal back through Damien Duff's 18-yard volley in the 63rd minute and went close to a second on several occasions. Nevertheless, it is evident

that desperate circumstances are forcing players on to the pitch when not match-fit. These include Henchoz, who grimaced with pain from a groin strain, and Gallacher, who was understandably subdued on his first start since last year. Admirably, Kidd is still at-

tempting to see the bigger pic-ture and talking of redevelop-ing the club and nurturing its roots. "I worked my way up from the youth at Manchester United over more than ten years, so I have seen how it can happen on and off the pitch." he said - but he will know that it is the minor details that count at this stage of the season, such as Wilcox playing out of position and Ward struggling to hold up the ball. Football feast offers little nourishment

THERE are certain combinations that simply do not gel, no matter how worthy the individual ingredients. Just as sun-dried tomatoes should not be paired with chips, nor, under any circumstances, anchovies with custard, so professional sport makes for uneasy digestion when, for one side at least, nothing is at stake. Fusion football leaves an un-

pleasant taste: Derby County, vastly superior but mired in the apathy of having so little to play for, Southampton, desperate to wriggle free of the sweaty clutches of relegation, seeping confidence and lacking quality. No goals, no fun and a side-order of ham-fisted

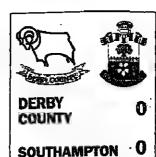

It was a result that sated the appetite of neither, even if the wounds inflicted upon Blackburn Rovers and Charlton Athletic made Southampton's point glitter like a trophy. It was illusory, however. Even if they were to finish fourth from bottom in the FA Carling Premiership — which, laughably, in the circumstances. Dave Jones described as "the best in the world" - another season of strain and purgatory surely

Within the confines of this quite dreadful exhibition, that prospect appears no closer this morning, "We expected Southampion to come after us, because they needed to win, but they didn't," Jim Smith, the Derby manager, shrugged. Seven consecutive defeats away from home have palpably curbed all adventure, all but the most defensive sensibilities, but this was a match that could have offered more.

By the end of a dispiriting aitermoon, only the feline form of Neil Moss soared above the general morass. On three occasions in a lopsided second-half - a marked improvement on the first, nonetheless — the

Southampton goalkeeper flung himself at the feet of his aggressors. Twice, Dean Sturridge, the substitute, was repelled in this manner, while a fortunate knee blocked a stubbed shot from Darryl

"I would have preferred all three points, which would

everything." Jones said, neglecting to mention that something, anything, would

have sufficed. "I've got to be happy with a clean sheet, the way we barried and threw ourselves in front of the ball. It's still very tight, but we've got to make sure that. when we play at home next week, we don't let all this hard work go to waste."

It will be different at The Dell, of course, even if Leicester City. Southampton's forthcoming opponents, are another team already mentally packing their suitcases for the summer. At their own compact ground, Southampton have not lost since Boxing Day. Perhaps the clusive Matt Le Tissier will have recovered from the convenient calf strain that prompted his absence on Saturday. Perhaps the sun will shine. Perhaps there will be no more war, policemen will wear daisies in their hair and burger vans will declare a moratorium on GM foods.

At Pride Park - even the name was a mocking irony all Southampton got was a couple of half-chances from Marians Pahars, the Latvia striker. There was a longrange shot well saved by Mart Poom, a penalty appeal that died in the throat and a precise, grass-cutting cross from James Beattle, which Pahars. in a whirl of limbs, contrived to miss. He made a meal of it all right, but the tastebuds hardly tingled.

Campbell strikes hope into hearts of Goodison faithful

BEFORE a match, history goes for a stroll. The abrupt, wrenching transactions of the transfer market make it so. A player leaves, but the replica strip remains. Around Goodison Park on Saturday, there were still supporters with the name Ferguson stretched across their shoulders.

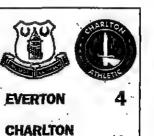

It is not just economic reasons that prevent them from buying a new top. These people are attached to that jersey, rather than stuck with it. To outsiders, Duncan Ferguson might have been a forward who scored infrequently and injured his groin often, but that is not how he is seen by many followers of Everton. To them, it was as if the club had surrendered its character when the Scot was sold to Newcastle United in November of last year.

Without him. Everton were at a standstill, a side that could hardly budge from a parlous position in the FA Carling Premiership. Worries remain, but now, at last, the

The vacancy inside Ferguson's No 9 jersey has been filled. Six goals in the past three matches, including two against Charlton Athletic, leave Kevin Campbell unchallenged as Everton's leading scorer in the Premiership. More significantly, the forward, who is on loan from Trabzonspor, has beloed his new colleagues to win three successive league matches for the first time in 15 months.

The excitement has bred security and the fear of relegation has been evicted from the premises. Of course, nobody imagines that life at Goodison will be made up of harmony and heroes from now on. The identity of the new owners, who are to buy the controlling interest of Peter Johnson, is yet to be established and it is impossible to tell what funds might be availa-

teenth home match of the season before they notched their fourth Premiership goal at Goodison. Campbell has hit as many in his past two appearances at the ground. Such are the quirks of a sceptical mind, however, that the forward's prolific form will raise doubts. At 29. Campbell needs to score twice more to reach the total of 100 league goals in England. It is an honourable record, but the present strike rate is a delirious spell that cannot be regarded as

ing the miseries he encountered in Turkey and the euphoric reaction of a crowd that yearned for a figurehead have put him in a heightened state of effectiveness.

It may be wiser to simply appreciate the vigour with which Everton have met the demands of the moment Walter Smith, the manager, felt that the game with Charlton had been "tense", but that reaction probably reflected anxieties over league position, rather than the match itself.

As if the risk of falling from the Premiership were not enough, Chariton must feel persecuted. With his arm outstretched, Don Hutchison charged down a clearance to open the scoring with a shot that squirmed under the goalkeeper, but Paul Alcock, the referee, did not see his handball. Campbell added another from a difficult angle after his first shot was blocked.

In the second half, he combined with Francis Jeffers before glanc-

purchase by Smith, initiated a counter-attack 15 minutes from time. Campbell gathered possession and strode down the middle of the pitch, but it was the movement of Jeffers, 18, that delighted. Instead of breaking, predictably. on the left, he made his run across the face of a defence that was distracted by the advancing Campbell and accepted a pass on the right of the penalty area to score.

Scot Gemmill, a cheap and telling

Charlton's thoughts turned to the necessity of beating Blackburn Rovers next weekend. Nothing could peeve the opposition. When Graham Stuart did convert a penalty, there was a cordial reaction from the stands for a former Everton player.

Heskey inspires Leicester revival | Forest and Atkinson quit big stage

THERE IS, it seems, nothing like a devastating cup setback to give sparkle to a league campaign. Arsenal's loss to the ten men of Manchester United in their FA Cup semi-final replay appears merely to have sharpened their aim in front of goal. while Leicester City, beaten by Tottenham Hotspur's ten men in the Worthington Cup final. have turned their Wembley blues into a purple patch in the FA Carling Premiership.

A deserved victory over Coventry City on Saturday took Leicester's unbeaten record to six matches since they lost the final, comprising three wins. including those at Liverpool and Tottenham Hotspur, and three draws, one of them away to Chelsea. Although the threat of relegation was averted to all intents and purposes halfway through that sequence, a team that plays in the shadow of Martin O'Neill's animated presence on the touchline is never going to mark its arrival at the 40-point safety level by taking forty winks on the pitch. Consequently, the manager could yet celebrate a third consecu-

tive top-ten finish since he took City into the top flight.

Part of the reason for Leicester's revival has been the contribution of their main striker, Emile Heskey. Having attended the same school in Leicester as Gary Lineker and followed his path to Filbert Street, Heskey will further emulate his hero if Kevin Keegan gives him his England debut against Hungary in Budapest

on Wednesday. As if to emphasise the similarity with his predecessor, Heskey used his unfamiliar role on the right of three forwards to demonstrate the kind of wing skills that Lineker dis-

played when he was rejuctantly banished to the right flank at Barcelona. "He made some really strong runs in the first half." O'Neill said of the 21-year-old. Three of those runs led to bookings for Quinn, Burrows and Shaw as they tried in vain to stop him

Heskey appears to have recovered from the back injury that, until recently, restricted his movement and meant that he was frequently unable to complete matches. His failure to score since mid-December. in part because of his fitness problems, needs rectifying, but O'Neill said: "He has played much better for us since the

Worthington Cup final." The presence of two 33-yearolds alongside him up front gave Heskey an extra responsibility for running, but it was lan Marshall, one of his veteran team-mates, who shouldered the burden of goalscoring for the second consecutive game. In first-half injury time. a corner by Steve Guppy, who has made the most crosses in the Premiership this season, was headed home by Marshall, who has perhaps had the most crosses to bear in a campaign blighted by a persistent hamstring injury.

Soltvedt's late turn and shot was the closest that a disappointing Coventry came to scoring, but, with three games remaining, the likelihood of them being relegated has probably become more remote because the chasers beneath them generally had bad days

THREE months ago, as Ron Atkinson lazed on a beach in

the Caribbean, he received an emergency call from International Rescue. Nottingham Forest needed saving from relegation and only Big Ron could help them. He struck a deal, reputedly worth £10,000 a week, finished his holiday and blasted off for the City Ground. Thunderhirds were go.

Fourteen matches later, of which only two were won. Forest bowed to the inevitable and out of the FA Carling Premiership. Atkinson's tan had hardly faded, yet the pallor of failure was unmistakable at Villa Park on Saturday. For the third time in six years, Forest had gone to that first division

in the sky. Mr Bojangles, he of the glittering jewellery and imposing paunch, had had little effect. Perhaps not even Thunderbirds, Gerry Anderson's puppet saviours of the world. could have spared Forest from their fate. They were a lost

cause many months ago. "I've no regrets about taking the job," Atkinson said. "It was always an uphili struggle.

We hattled away, but you need quality at this level and we didn't have it." Would he continue in management? "Only time will tell." he replied. "When I have made that decision. I'll tell the appropriate people."

Apparently, a Sunday news-paper employs those people. Atkinson, 60, the former in-side forward for BSA Tools FC, will retire at the end of the season. He will ride off into the sunset and concentrate on his television commentary work and business interests. Big Ron, the wisecracking font of all knowledge, is no more.

What now for Forest, whose return to the Premiership was effectively strangled at birth? Kevin Campbell and Pierre van Hooijdonk, their 58-goal first-division strike force, were parted before a ball had been kicked. Campbell left for Turkey but is now scoring goals for fun with Everton; Van Hooijdonk refused to play but is now occasionally appearing in midfield.

FA Carling Premiership: Two-club race hots up as champions take over pole position

Weary Chelsea concede title

WEARY acceptance overcame Chelsea yesterday. They had not even pulled out of Hillsborough before Giantuca Vialli started talking about plans for next season. His players are already ticking off the days before they will be able to hit the beach. While Manchester United

ETUTHAMPTON (

maintain the attack on three fronts, one is proving too many for Vialli's side, who continue to cling to third place in the FA Carling Premiership rather than grabbing it with any certainty. They looked a fired team yesterday, lacking width, pace and the ability to produce the unexpected. Their only consolation was that Leeds United had not made up any ground. Just when they should be flying, Chelsea are playing with their wings

dipped.
David O'Leary's side travel to Stamford Bridge next week and a draw should be enough for Cheisea to keep them at arm's length in the race for the European Cup. A top-three finish is nothing to be ashamed of for a club that is on a steady rise, but the deflating finale to their season has emphasised only how far they still have to travel rather than how far they

"It is about Manchester United and Arsenal now," Vialli said after his side's third Premiership draw in succession. "and I think that, with the tough games that United still have to play. Arsenal may be slight favourites.

"It is down to those two because we have just not been able to get the wins recently. We are in a better shape than last year, but there is still a way for us to go."

His team yesterday was substantially different from that which lost to Real Mallorca in in the Cup Winners' Cup on Thursday, but the method was just as mundane. Vialli paired himself with Mikael Forsell in

the starting line-up, but they could summon no more verve than Flo and Zola had in the 1-0 defeat in Spain. "Where is the goalscorer," went up the cry—it is the epitaph to their titie campaign.

Forsell disappeared at half-time, if he had not done so already, to be replaced by Zola, but there was something horribly rudimentary about this Chelsea display. Desailly, who had been switched into midfield, went through the mo-. tions, Wise's promptings came to nought more often than not, while Poyet was taken off on the hour shortly after heading wide one of his team's best chances of the game. Indeed, if anybody was go-

ing to triumph, it was Wednesday, who grew more confident as the game went on, while Chelsea, for whom Kevin Hitchcock deputised in goal, flagged. Their chances became in-

creasingly tempting, the best falling to Des Walker in the closing moments, but the former England defender went for it in the style of a man who had not scored in 263 previous games for the club. He scuffed the ball all of five yards goalwards, but he need not have felt embarassed. Exceptional throughout, he had no difficulties subduing Vialli. whose frustration became more evident with every anguished cry.

Walker was the springboard for Wednesday's sprightly sec-and half, in which Mark McKeever, a left winger making his debut two years after joining the club from Peterborough United, showed promising touches, even if, like his teammates, he failed to also display

a nose for goal.
"I thought we were going to get the winner as the game went on," Danny Wilson, the Wednesday manager said, 'because that is the best we have played for a long time. I thought the players answered a lot of criticism. We probably need one more point to be safe, but it was important getting a confidence boost against a team as good as Chelsea."

While Chelsea cannot afford to neglect their European ambitions over the remaining four games, Wednesday have some of their own. Uefa's bizarre ruling over English qualification may yet provide a "fair-play place" for the team in the FA Carling Premiership with the best disciplinary record and Wilson's side remain in pole position, with only one booking added to

their tally yesterday. You have to have a lot of sympathy for a team like West Ham, who have done it weekin and week-out and might not qualify." Wilson said, "but that is nothing to do with us. If they [Ucfa] want to give it to us, I will take it with both hands."

Wednesday's record might have been spoilt had the referee not been so lenient when Carbone struck Wise on the back of the head after the Chelsea captain had pulled out the Italian's hair-band in a typically juvenile prank. Carbone escaped without so much as a caution, while Wise was riled, but could not bring himself to retaliate. Truly, Chelsea have resigned themselves to their

Breathtaking Arsenal throw down the gauntlet

the blossoming of spring, this return of life after the greyness of winter. These past few weeks, England has been treated to a festival of football to quicken the pulse and stir the emotions. At the Riverside on Saturday, the exuberance continued unabated.

Arsenal's performance on Teesside amounted to a celebration of the sport, a glorious display of attacking, exotic skill that had even the Middlesbrough supporters stand-ing on their feet to applaud in wonder and admiration.

This was a match played in the spirit of Manchester United's victory over Juventus, of their dramatic triumph over Arsenal in that classic FA Cup semi-final replay and of Arsenal's own trouncing of Wimbledon last Monday. It was thrilling, breathtak-

ing stuff. Even Gary Pallister, the battle-hardened Middlesbrough defender, used those words to describe it. Bryan Robson, the Middlesbrough manager, said it was the best display that he had seen by any side this season.

It has got to the stage now. with only a handful of games left to decide the destiny of the championship, where United and Arsenal are almost daring each other to surpass what has gone before, as if they are setting new standards of excellence every time they play.

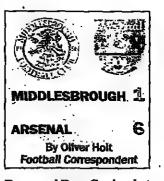

It is not like the traditional climax to a season, the usual glut of tense, tight games decided by one defensive error. one incisive move. This is free-flowing, uninhibited magic. It will have to stop somewhere, but, for now, it is wonderful just to lap it up.

Arsenal were so good on Saturday that their supporters took pity on the home tans. A strange sort of camaraderic sprung up between them, as something special brought them together. And so, late in the second half, the Arsenai supporters urged Middlesbrough on. They jeered good humouredly when Tony Adams shot high over the crossbar, they even leapt up and down when Alun Armstrong got Middlesbrough's empty consolation goal three min-

utes from the final whistle. By then, of course, they knew that they had all but wiped out the advantage in goal difference that United had held over them, they knew they had gone to the top of the table for the first time this season and that United would be feeling the heat of their challenge

Arsenal had taken the lead in the third minute. Patrick Vieira bamboozled Andy Townsend by flicking the ball casually over his head and through to Nicolas Anelka. Steve Vickers mistimed his tackle and Marc Overmars converted the penalty.

David Seaman made two

Deane and Dean Gordon, but Arsenal went further ahead seven minutes before halftime when Vieira fed another pass through to Anelka and the French forward elipped his left-foot shot beyond Mark Schwarzer. A few seconds before the interval, the visitors killed the game off. Anelka, keen to impress after some recent lacklustre performances and a game cooling his heels in the stand, crossed from the right, Kanu sidestepped Gor-don and curled his shot deliberately into the corner from

six yards out. That, though, was prosaic compared with what followed. If anything, Arsenal stepped up a gear and, before an bour had gone, they went four ahead with a goal of beautiful simplicity, economy and selflessness. Vieira started and finished this one. He played a one-two that freed Anelka on the right and then hurtled towards the box. Anelka cut inside and teed up Overmars who shaped to shoot but passed the ball square to Vicira instead and the Frenchman stroked it past Schwarzer.

Even that, though, was surpassed by Kanu's second two minutes later. Standing 12 yards out, Kann seemed to have few options when Lee Dixon curied a knee-high cross towards him, but he astonished the crowd and Schwarzer by leaping into the air and executing the first volleyed drag-back flick most of us had ever seen. It flew beyond the goalkeeper into the corner of the net.

Twelve minutes before the end. Kanu turned provider rolling a short pass to Anelka, who stepped inside Vickers and lashed his shot high into the net off the hands of Schwarzer. It was almost a relief when Armstrong rose to glance home Townsend's free kick, but it says much for the Arsenal defence that even in the midst of this carnival, it spoilt their day. "They did not like that." Arsene Wenger

said, after the game. The scary thing is, it gives them something to improve upon for next time. Apart from that, this was perfection. MEDDLESSROUGH (3.5-2). M Schwarzer

Berkovic restores calm

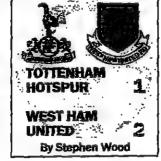

THE senses were in danger of blurring after a whirlwind afternoon at White Hart Lane, but one observation was undeniable: West Ham United cannot afford, no matter how high the price, to lose Eyal Berkovic.

The only sense aroused when the Israel international had the ball against Tottenham Hotspur was one of rare calm. His positional play, his first touch and the timing of his passes was soothing indeed. He did not score, but he made sure that his team could enjoy a satisfying victory.

Then Tottenham - and the match - exploded into life. David Ginola gave the home side hope of saving a point with another glorious goal and the tension had mounted sufficiently for John Moneur to lose his temper in injury time. He scythed down José Dominguez, prompting a mêlée in the middle of the field and a red card from Uri-

Gullit's mind elsewhere

THE problem with a long engagement is that it can become the focal point of a bride's entire existence. Newcastle United have absolutely nothing to divert them from their FA Cup Final date with Manchester United and so while Alex Ferguson should turn up at Wembley his head in a whirl, unsure of the colour of the lot bags and the name of the coach driver, Rund Gullit will be worrying to the last minute how the napkins will be folded

at the post-match dinner. Watching this PA Carling Premiership match was like having dinner with companions whose minds were elsewhere. They smiled at the anecdotes, even embarked on a couple themselves, but quite cleary the fare bypassed their taste buds and the ambience failed to stir their souls.

For Wimbledon, the distraction has been poor form and the continued absence of Joe Kinnear, fobidden by his doctors to lead the team since his heart attack in March. So fragile is the club previously known as the Crazy Gang that David Kemp, the stand-in manager, opied to bolster the defence when the scoreline stood at 1-1 and it was anyone's game. But if Wimbledon can

take heart from only their second point in eight matches, then perhaps the sacrifice of John Hartson, who scored his first goal since his £7.5 million transfer - a strike from a tight angle - was worth it.

By Alyson Rudd

Newcastle were similarly insular. Their supporters crammed into Selhurst Park and deserved to witness some passion, but Gullit, it seems, only has eyes for May 22 and the all-important choice of player for the big day. He made five changes to the side he named in midweek for the trip to Hillsborough and will no doubt continue to rotate his players until he finds the perfect combination to outwit Fer-

In the meantime, Newcastle are relying on Alan Shearer. The England captain is not what he was, but even a less sharp version is valuable and he gave Newcastle the lead, after Maric set up Hamann for a cross to the far post.

Hamann will be a crucial figure at Wembley. The Germany midfield player combines strength with guile and, after daintily exchanging passes with Solano, saw Sullivan dive at full stretch to deny him the winner from a vicious strike. At the top of the Italian championship, Lazio kept their one-point advantage after a classic headed goal from Christian Vieri, the Italy centre forward, put Sampdoria further into the relegation mire. Quite a change, this, for Vieri, who,

Wolves pay price for penalty miss

Wolverhampton Wanderers 1 West Bromwich Albion.....1

BY A CORRESPONDENT

PORTUNE failed to favour the brave at Molineux yesterday as Wolverhampton Wanderers took another tentative step towards the Nationwide League first division

Keith Curle, their captain, had the opportunity to secure three points and erase the memory of an own goal that settled the Black Country derby at The Hawthorns in August, 1997. However, his 54thminute penalty was appallingly high and it will be West Bromwich Albion who derive most satisfac-tion from the points shared with their local rivals

Denis Smith, the West Brom-wich manager, acknowledged Curle's courage in stepping up to try to convert the spot kick. "It's easy to criticise, but it took a lot of bottle to take a penalty in a match like this," he said. "Having said that, I was delighted when it went over."

Wolves remain in sixth place after this result, one that confirmed the participation in the play-offs of their other near-neighbours, Birmingham City, and ended the lingering hopes of Sheffield United. Now Wolves, Bolton Wanderers and Watford are the three candidates for the final two places.

manager, has asserted that there is no better time to overtake your opponents than on the tape and if his side win away to Port Vale tomorrow night, they will emerge as favourites, with Wolves and Bolton due to play one another at the Reebok Stadium on Friday

NEWCASTLE United's may be the most passionate Manchester City's the longest suffering. Manchester United's the most numerous (outside the North West, obviously), but Ipswich Town supporters must be the most fair-minded in football, On Saturday, after their team had been beaten at home by opponents from right at the bottom of the Nationwide League first division, they stood and applauded the vic-tors off the pitch.

No matter that Ipswich's hopes of automatic promotion to the FA Carling Premiership had been holed suspiciously close to the waterline, that their precious second place in the race had been lost within sight of the finish, that all their anticipation and optimism had suffered a shuddering jolt, they silenced a few, frustrated seconds of booing with an ovation that rippled around Portman Road.

Crewe Alexandra deserved no less. They were magnificent, a tribute to Dario Gradi, their manager, and the values he holds dear. Play the game the right way, play it fairly and win on merit or not at all and they won this match full square on merit, making a mockery of their position in the league. If they are relegated after a performance like this - winning against the odds with just ten men on the field during its thrilling finale - there is no justice in the world. If Ipswich miss out on the Premiership again. they should console themselves with the knowledge that some things are simply more important.

Gradi dominated the day. He

had promised beforehand that Crewe would get at least a draw, that they would score a few goals --"it would just be a question of whether we could keep them out"— and played his factical hand to per-fection, selecting just one striker and trusting that the quicksilver Rodney Jack would unsettle the big Ipswich back three. He did and Ipswich, outnumbered and often outplayed in midfield, had no answer.

Crewe went shead after 63 minutes, Jack swinging a pass wide to the right while Venus sent him flying, then Rivers running on before turning inside Mowbray and shooting under the goalkeeper. It should have been 2-0, too, but Mowbray es-caped punishment when he felled Jack inside the penalty area — an injustice that was compounded when, moments later, David Johnson fell over Walton's leg at the other end. Venus scored from the spot.

For a while, it seemed as if heroism and high principles would not be enough for Crewe, especially when Jermaine Wright was sent off. a late tackle earning a second, unlucky booking in the 76th minute, but they would not be denied. London stage in Watford Crystal Palace..... state of collapse

Queens Park Rangers 1 Bradford City...

By KESTH PIKE

QUIZ question: who finished the inaugural Premier League campaign as the capital's top chub? No. Wrong again. Not them, either. Yes, it really was. Queens Park Rangers' fall from grace has been dramatic and traumatic and the lift may not have reached the ground

The club that lorded it over London so recently could find next season that only Barnet are operating at a lower level and, let's face it, life doesn't get more undistinguished than that. "Results don't lie and our results over the past two years speak for themselves." Gerry Francis, the director of football, admitted after their defeat to Bradford City on Saturday. This is a good football

club, but it needs a lot of help." What it needs most of all, though, is a win. Any win. Three points would almost certainly be enough to prevent QPR's descent into the Nationwide League second division. but they have hit poor form again at exactly the wrong time. This was their fourth successive defeat and they have the best part of a full team either crocked or banned with

only two games left. "I don't think anyone's too good to go down," Francis said. QPR are certainly not too good. A club that could once boast Bowles and Marsh, that finished fifth in the Premier League as recently as 1993 with Ferdinand and Wilkins to the fore, is now dependent on the likes of Baraclough, Kulcsar and Jeanne for salvation. Fine players they may prove to be in time; but time is not on QPR's side.

For half an hour, their mix of perspiration and desperation - inspiration was strictly off limits - matched Bradford's more measured approach. But once they had gone behind to Beagrie's goal against the run of play. QPR were a beaten side. Worse still. they looked like they knew it.

Westwood struck a second on the hour. Gallen gave QPR brief hope with ten minutes left, but Watson hit a third for Bradford after Westwood and Ready had gone forehead to forehead like a pair of stags without the antlers (or the intelligence). Both feigned their innocence. Both went through the motions of appearing distraught at being sent off. Both. to be honest, made complete fools of themselves.

Bradford did not need telling the significance of the day's events, here and at Portman Road. Their goal tally is so superior to Ipswich Town's that victories against Oxford United on Saturday and away to Wolverhampton Wanderers eight days later will see them promoted to heights that were last attained in 1922. Taylor intends to go for broke By KEVIN EASON

EVEN as the final whistle sounded, a tracksuited Graham Taylor was urging his Watford players into attack, his arms whirling like a demented air steward, pointing out the exits which lead to the FA Carling Premiership. Taylor says that this will be

the week that could decide whether his side will be in the Nationwide League first division play-offs. They have a tough game away to Port Vale tomorrow, one they have to win to retain hopes of gaining a place among the contenders. Yet while everything is go-ing their way — Watford are

the team in form, this victory being their fifth in succession - Taylor is only too conscious of the fact that they could lose

out by virtue of the number of after six minutes, was a gift goals scored if they finish from Sun Jihai. Micah Hyde equal on points for the fourth play-off position. It was agony for him as his players shot over the bar, wide of the posts and almost anywhere but into the net - and then he had to suffer further as Palace pummelled his defence into giving

away a late goal.
"The last ten minutes were really nerve-racking because we had not been able to kill them off with a third goal," he said. "That has happened to us in the last few games where we have not finished the job. We need the goals just to

Their first on Saturday,

had performed valiant work to get to the byline, but his cross was a trickling effort that could have been dealt with easily by Kevin Miller, the Palace goalkeeper. Unfortunately, in the words of Steve Coppell, the Palace manager, there was a "communications breakdown". The goalkeeper called, but the Chinese defender swished at the ball and helped it into the net while

Miller stood baffled. At least Palace, with little to play for but pride, did not lie down, playing with three for-wards to trouble the Watford defence. That always had the

promotion-chasers on edge, Taylor said, and confirmed his opinion that Coppell's young side is one of potential. A goal from Tommy Moon-ey, after 53 minutes, still did

not settle the perves, particularly when Palace, after 87 minutes, managed a meaningful cross that Morrison flicked on and McKenzie headed into the net. Nevertheless, Watford won

through. Three games left and all must be won if they are to reach the target of 79 points' set by Taylor. "We would be desperately unlucky not to be in the play-offs with a total like that." he said. "It is up to

motion certainties since early this year, Cambridge United are making heavy weather of reclaiming their place in the Nationwide League second division.

Their failure to beat a Peterborough United side reduced to ten men in a derby bristling with endeavour and passion means they have won only two of their past seven games. They still need six points from their remaining four games to be guaranteed playing at a higher level next season and the third division title is no

longer at their mercy.

Not that Roy McFarland, the Cambridge manager, is losing any sleep just yet — even if his frantic demeanour on the touchline on Saturday suggested that he is, at the very least, growing impatient. We've got a young squad and perhaps they are feeling the tension a little bit." he said afterwards. "We let ourselves down today, but I'm still positive we will be promoted."

Cambridge's biggest league crowd in seven years packed into the Abbey Stadium, but it was the visiting supporters who found their voices first when Giuliano Grazioli headed home from close range in the seventh minute.

McFarland's men equalised in the 26th minute when Tyler. the Peterborough goalkeeper, was unable to prevent a low, innocuous-looking cross from Butler, to which Paul Wanless got the slightest of touches. squirming under his body. Cambridge dominated from

SURVIVAL skills that have been honed during their 13 years in the Nationwide Conference were on proud display as Welling United gained only their fourth home victory of the season at Park View Road on Saturday.

Welling travel to Leck Town, their fellow struggiers, tonight and then have a possible grand finale at Cheltenham, the champions. Barrow, three points ahead, with only a trip to Kidderminster to come, are feeling the draught the most keenly.

Welling faltered only when they found them-selves with the unexpected luxury of a 3-1 lead after a pivotal performance from Neil Trebble, who produced a challenging as-sortment of defi touches, crosses and shots. Hanion put Welling

ahead with a low free kick and although Norman equalised with a powerful header. Welling restored their lead when Ughah headed down a corner by Harle. Ten minutes after half-time, Trebble played a sweet ball for Rivere to steam into the area and supply a cross that was converted by Browne.

A goal pulled back by Heald, a substitute, served to increase Welling's doubts, but they held out in a fractious finish. No one will bet against them escaping again, especially as Barrow, who are in administration, might go out

Bristol rage over life's injustices

Bristol City Birmingham City.

BY NICK SZCZEPANIK

IT IS an unquestioned part of football lore that when you are struggling, nothing goes in your favour. Followers of Bristol City would concur with that after a game in which all the significant decisions - a disallowed goal, a penalty refused and a penalty awarded - went against their team. To that can be added a poor backpass that led to the deciding goal as the home side, desperate for points in their quest to escape relegation, were instead firmly consigned to the

In a first half described by Trevor Francis, the Birmingham manager, as "one of our most uncomfortable of the season," Bristol City dominated but could only get the ball in the net once and then saw Michael Dean, the referee. award a free kick to the visitors for an unspecified offence. Later. Dean turned down strong penalty appeals after Jonathan Bass, of Birmingham, appeared to block a shot

on goal by Aaron Brown with his hand. These frustrations were forgotten a minute after the restart as Ade Akinbiyi ran on to Adam Locke's long pass before sliding the ball in from an improbable angle, but they returned within a minute when

under Taylor's challenge and Martin Grainger put away the penalty. "The Birmingham players didn't even appeal," Benny Lennartsson, the Bristol City manager, said. It got worse, of course, Twenty minutes from time, David Howells mishit a backpass and Ndlovu, by now as unpop-

ular as the referee, was on to it to steer in the winner.

The visitors came off under a rain of jeers and, it emerged, phlegm and a steward had to be restrained by colleagues after an exchange of views with Francis, who had had a lapse of memory by the time of the after-match deliberations. "I

don't think anything hap-pened there," Francis said. "I

MONDAY MATTERS

Great showman's final bow

Even the manner of announcing his retirement was vintage Big Ron, says **Matt Dickinson**

ne can only assume that it was for light relief rather than salvation that Nottingham Forest hired Ron Atkinson this season, and even his jokes had lost their sparkle by the end. Now he has announced that he will retire this summer and we will not see his like again, except perhaps in the music halls of Blackpool. His dodgy tan and weak gags would make him a perfect compère and he already has the catchphrase. "Come on down," as he told the Forest supporters.

Big Ron could manage foothall clubs for fun, but, like anyone who relies too much on laughter to make themselves popular, the fun was increasingly at his expense. It was clear that he had lost his comic timing when he arrived at Forest in January and, swept away by the faint ripple of applause from the terraces. promptly sat down in the Arsenal dugout.

"I knew it was the wrong one when the some guy introduced himself as Dennis Bergkamp," Atkinson quipped, but we were already laughing at, rather than with, him. Forest lost 1-0 and the jokes, like his team, became increasingly laboured.

The announcement of his impending departure from the City Ground was barely more dignified. With his exclusive story sold already to one Sunday tabloid. Atkinson ducked and dived through his obligatory press conference after the 2-0 defeat away to Aston Villa on Saturday, which condemined Forest to the Nationwide League first division. "You'll be the last to know." he said, before taking the money and running.

To be fair, as Big Ron would say, he enlivened more than his share of back pages during a managerial career that has lasted 28 years and II jobs. He even had a bit of success along the way, a modest player with Oxford United who worked his way up the ladder from Cambridge United, where he enstuck with me' joyed successive promotions in the late Seventies, to West Bromwich Albion, where he guid-

ed a modest club into Europe. However, it was his five years at Manchester United between 1981 and 1986 that best characterised a coach who was always regarded as too decadent to join the greats. Not for him the austere work ethic of a Wenger, Graham or Ferguson and his flash style appeared to

thieves were disappointed not to find my place bulging with gold watches and trinkets."

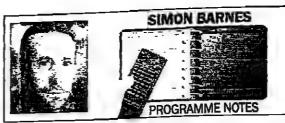

Yet Atkinson has hardly been shy when it comes to selfpromotion. His autobiography -A Different Ball Game - included scandalous and unsubstantiated allegations of drug-taking involving an England international and opinion was divided, although certainly not down the middle, as to whether it was an attempt to rid the game of the scourge of drugs or a quick ruse to sell

ou would have thought that Atkin-son would be the last person to spread unfounded rumours, given that he has had to endure his own share regarding financial affairs. Several reports were published in the mid-Eighties hat his transfer dealings were being investigated by the Inland Revenue and although he was cleared of all such allegations, it hardly helped to purify his image.
Soon it will be all over and

the game will have lost a character whose gregariousness and passion could not spare him from the reality that, at 60, he had lost his touch. "He thought that he could come in, tell a few jokes and everything would be all right," one of his predecessors at Forest said. but he underestimated how bad the problems were and he overestimated how much he had left in him."

Certainly, Atkinson ap-peared to have run out of oneliners by yesterday. "If there are any international committees looking for an experienced man, they can always give me a ring," he said, but it was not much of a parting shot.

Crucible containing the whole of sport

t was one of those moments that said it all Rather a long moment, as it happened. They even put a clock on it showed us time ticking away. It was one of those curious, suspended moments in

sport in which time doesn't stand still. It was the time that John Parrott took to play his shot in his match against Chris Small in the snooker world championship at The Crucible. Parrott was faced with a tricky shot during a safety duel with Small (incidentally, it is a strange fact of snooker that the safety exchanges—the nearest that snooker gets to a head-to-head confrontation, the nearest a player gets to making a tackle—are more interesting than the scoring). We had Parrott looking fraught, looking furrowed, looking hag ridden by doubt, wagging his head, raising his clown's pointed eyebrows and, finally, being a wacky Scous-er — surely, somewhere there exists a nonwacky Scouser - grinning ruefully. And it was, of course, rather good television.

The shot took three numbing minutes, 180 tension-racked seconds. The frame took 43 minutes in part of a session that lasted four hours. I thought the only frames that lasted 43 minutes were the ones I was playing in. Anyway, Parrott won in the end, a victory that was put down to experience and character.

All of which was quite interesting. Snooker had its golden age, of course, as it was rising from obscurity to become a major sport and a national obsession. Now it has found its level as a minor major sport — better than being a major minor sport, after all - and if the players are no longer household names in most households, the sport still has its place in the national life and still makes intriguing television.

But the snooker boom of the Eighties changed the way that we look at sport. For a start, it gave us the basic polarities of Steve Davis and Jimmy White, Why did White, who had such a colossal gift for the game -"natural talent" was the preferred phrase — never win the world championship? Why did Davis — lacking such obvious gifts —

win it every year?
The popular notion — that Davis was "boring" - was an obvious nonsense. Few sportsmen have spoken more interestingly about their sport than Davis. In fact. Davis's talent for analysis was not only helpful for observers. it was close to the heart of his talent. He had a "natural talent", not for potting balls but for winning snooker matches.

The fact that these two things could be separated came as a revelation to many of us. Snooker told these simple sporting truths with unprecedented vividness.

It was snooker's leisurely pace, the ability of the camera to register faces that did the job. The players' expression of self-disgust and, more revealing, sheer bewilderment as the easy pot rattles in the jaws and escapes, tells the story. Brilliance is the background: one that shows to best advantage the error that changes the destiny of the frame, the match, the championship.

The snooker boom was an education in the vulnerability of the athlete in competition, the fear in the beart of the champion. The long moments of stillness, this being essentially a still game, told us the truth about sport, the blindingly obvious truth that we meet and encounter every sporting day: that games are not won by skill alone.

The annual excitements of the world championship are helped by the stressful nature of the venue. This became not so much a crucible as a Petri dish, one in which sport performs its hideous and nameless experiments on the human soul.

nd always and again that cutaway to the non-player: stuck in his chair like an insect wriggling on a pin. This is always the most interesting aspect of a frame-winning break: not the soothing click and clack of the balls, drawn into their pockets, it seems, by some sort of magnetic flux, but the anguish and self-loathing on the face of the person to whom these terrible things are being done. We see, time and again, players gnawing

their naîls, or pulling the most terrible faces with the complete lack of self-consciousness that only total involvement allows. Since television has cleaned up its act - they keep saying Embassy but they don't show us the players savouring the consolation of the spon-sor's product — we miss the classic shot of Jimmy White: face pale, hollow, drawn and the inside of his cheeks touching as be raised his eigarette. We understand more about the nature of sport than we did 15 years ago: mooker was our futor.

OVER the years, The Times MeesPierson Corporate Golf Challenge has come to occupy an important place in the hearts and minds of business golfers everywhere in the British Isles. From the inception of the competition in 1993. the aim of its title sponsors has always been to enhance the season-long experience that only association with the Challenge can bring to its participants. Everybody likes value for money, and that

applies to housewife and company chief executive alike. There are credits to be won by the company golf day organiser who can prove to the boss that his cash is being well spent and, if only on that level, the Challenge would represent something of a bargain.

For their registration fee, companies are involving themselves in an event that last year saw 100,000 corporate golfers playing in it and they will also see their golf day featured in the Monday edition of The Times as part of the newspaper's sworn task of Getting Under the Skin of Sport.

A book, How They Stole The Game*, by the British investigative author, David Yallop, is to be released on the British market today; in it Yallop stirs the pot of Fifa, the governing body of football, under the diccatorship of João Havelange. But on June 8 last year, when Havelange was succeeded by his lieutenant, Sepp Blatter, as president, accusations

that the succession was pro-

cured with the help of \$50,000

each for votes from up to 20 African members of the

204-nation governing body In his book, Yallop has

raised the tempo of these allegations. Indeed, unable to find a publisher brave enough to print the book in English, the writer set up his own company, Poetic Publishing, to put it on the market. And he endorses the front cover of the book with "the book the Fifa presi-

dent tried to ban". To the chagrin of Blatter, his attempts to go to law to sup-press Yallop's work are helping the sales. A court in Hol-land ruled that the book did not offend Dutch law, a Swiss judge has placed a temporary injunction on it, and, although the nub of the allegations is protectively coated with words

such as "rumoured" and "al-leged", the publication goes ahead ere this morning.

The hardback is a significant as ault on the integrity of Havelange and the way it claims he manipulated Fila, which, the 83-year-old Brazilian "honorary" president has boasted, has an international turnover of \$150 billion.

In Brazil, some eminent sociological and sports writers have exposed the wheeler-dealing of Havelange, and Ricardo Terra Teixeira, his son-in-law. who is a Fifa executive committhe member and president of the Brazilian Football Associa-tion. Pule, in his tenure as Brazil's sports minister, brought out a law to curb the abuses of Teixeira, and Havelange has

from the platform of Fifa. Havelange has attempted to shrug aside Yallop's book. As he has done with other journalists, myself included, he smears any attempt of analysis and any criticism by scotting that he defeated an Englishman, Stanley Rous, for the pres-idency in 1974, and the English have been making insinuations about him ever since. Yet Havelange never felt the need to go to the law to prove himself. It was the acquiescence of a

that allowed the rumours to take root. Then Lennart Johansson, president of the European football union (Uefa), and Mong-Joon Chung, son of the founder of the South Korean company, Hyundai, began to stand up to Havelange. They were unhappy about his habit of granting television contracts. which, for the next two World Cups are SwFr1.3 billion and 1.5 billion respectively, without approval or discussion by the 24-country executive.

Some of this background is missed in Yallop's book. However, in printing he is braver than some of us who heard ru-mours, from within Fifa and outside, of bribery in Paris last summer. He may be taking an enormous risk, because none of us knows of any source of proof about what was going on in the Meridien Hotel in

Paris on the eve of the vote. What went on when Blatter defeated Johansson by 111 votes to 80 was clear for all to see and hear. Blatter was asked about "the Qataris brib-ing people with \$50,000 in envelopes to vote for you". Blatter responded: "The match is over, the players have already gone to the changing-rooms, I will not respond to this question."

He has subsequently, and re-peatedly, insisted that where such sums did change hands, they were legitimate payments to countries in need of instant funding. There is a case for before France 98. Fifa had promised all nations \$1 milion from television proceeds.

why these advances had to be paid in cash, and why on the eve of the vote that ensured Blatter standing for "continuity" should be president, while Johansson, offering "transparency, democracy, a new road" should have lost the support that he had been promised.

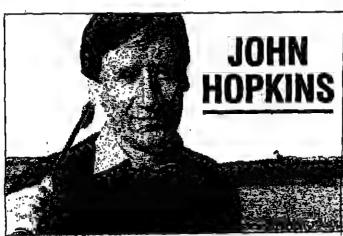

The unanswered question is

Yesterday, from his home in Sweden, Johansson repeated what he had said on the night of Blatter's victory and all that he has told Yallop on the matter of the alleged handouts. "I will say nothing about any bribes, because I know of no proof they took place. It would be a bad loser who makes such allegations without evidence."

Johansson, however, is "not against' an independent inquiry into Fifa affairs. "I have told the president [Blatter] that we cannot risk what has happened to the Olympic movement. We must be seen to be clean, and if it takes an independent arbiter to look at our books, then we should open the doors. Fifa is not ours, it belongs to the world of football." *How They Stole The Game by David Yallop (Poetic Publish-

The trouble began when Spanish television later broadcast film that showed that Ballesteros played his second ball from nearer the lole. The chief referee at this tournament was John Paramor, a very good golfer himself and one of the strongest officials in world golf. He has never been known to waive or bend any rule for anyone, not even Ballesteros when in Spain. Indeed, Paramor has fined Ballesteros for slow play at least once and warned him for slow

play at least once. On another famous occasion at Valderrama in 1994, Paramor denied Ballesteros relief from a tricky position behind a cork tree on the 72nd hole, a ruling that virtually made sure that Ballesteros could not win the tournament. Ballesteros sought relief on the grounds that the place where his ball had ended was amidst

On this occasion, however, Paramor ruled that Ballesteros had not committed any breach of the rules. "I asked the player what he had done and what he was trying to do." Paramor said yesterday. "I realised he had replaced his ball closer to the hole, but it comes down to a matter of degree. Was it significantly better? I adjudged it was not because the tree in question was not one that was concerning him. He said that if he was trying to improve his line, he would

suspect I am not alone among amateur golfers in suggesting that most times I could return to precisely the spot from which I played a shot. Paramor said that if Ballesteros had not moved from the spot, then he would have been able to replace his ball precisely, but that ard: he cannot tell precisely where it Ballesteros, having walked 200 entered the hazard and so he cannot

There has to be some leeway." Paramor said. "Take the rule governing the ball hanging on the edge of the hole on the green. Rule 16-2 says a player has ten seconds for the ball to fall into the hole, but earlier in the rule it says a player is allowed enough time to reach the hole."

As it happened, Paramor had just had to adjudicate on such a situation and he ruled in the player's favour aiter watching the incident on television and timing the player's walk from the ball to the edge of the hole.

place his new ball in exactly the correct position. The key to this is that he has used his best endeavours to do it all correctly. I am happy that the player did this."

Ballesteros is the one who has to live with himself after this episode. He has to look himself in the mirror each morning. 'The rule is very clear," Ballesteros said. "I spoke to John Paramor and he is happy. The

rest is history."
In this situation, most amateurs would not have known the rules well enough to have done anything but replace the ball accurately and, if they were found not to have done so. would either expect disqualification or would have disqualified them-

Is the conclusion of this story that amateurs should learn the rules better? It probably is. But another conclusion might be that there is one rule for amateurs and another one

EDGBASTON (Warwickshire won toss): Worcestershire Royals (4pts) beat Warwickshire Bears by 117 runs (D/L method)

IT TOOK Philip Weston, the Worcestershire opener, eight painstaking overs to score his first run, but he advanced flamboyantly to a maiden limited-overs hundred yesterday.

Weston, a powerful lefthander, made 125, with 11 fours and six sixes, from 124 balls, shared an opening part-nership of 149 in 27 overs with the forthright Pollard and worked Worcestershire into a match-winning position. With Warwickshire wobbling at 27 for two off seven overs in response to 287 for four, rain intervened for an hour, three overs shy of the 30 overs required for a result.

Warwickshire's adjusted target was 231 from 29 overs, a challenge that aptly reflected how comprehensively they had been outplayed.

Pollard, released last autumn by Nottinghamshire, marked his competition debut for the Royals with 70 from 83 balls before Solanki eagerly exploited the Warwickshire handicap of bowling with a slippery ball. Their third-wicket partnership was worth 49 in six overs, with Solanki contributing 32 before perishing to the second of two athletic catches by Knight in the deep.

In contrast to Warwickshire's slow start, Knight announced himself for the Bears with a flurry of five boundaries, but he skied a mistimed hook to short mid-wicket soon after Smith drove a catch to mid-off. The portents were poor for Warwickshire and when Leatherdale took four wickets in three overs, they

CHELMSFORD (Essex won toss): Lancashire Lightning (4pts) beat Essex Eagles by

IF ANY England player is going to capture the public imagination during the forthcoming World Cup it will be Andrew Flintoff, judging by the way that the big Lanca-shire all-rounder blitzed Essex in his only CGU National League match before reporting for national service next

Flintoff, still only 21 but built like a tank, scored 143 off 66 balls, hitting nine sixes and 15 fours with strokes of such awesome power that not only the fielders but also the umpires were often in grave physical peril. Indeed, when Nigel Plews called Ashley Cowan for overstepping, it was probably the first instance of an umpire signalling a no-ball with his head tucked underneath his arm as the ball flashed past

him to the boundary. The subsequent free hit, awarded under the rules of this competition and promptly dispatched the same way, seemed entirely superfluous, since Flintoff was hitting everything with absolute freedom on his way to 50 out of 59 off 24 balls, and 100 out of 148 off 50. The second of his two sixes

stumped heaving towards

It seemed all too much for Essex, especially when Flintoff quickly showed that he had not finished with them. Yet, amazingly, they were within four runs of victory when their last man, Such, was run out.

Flintoff had broken an opening stand of 70 in 15 overs by having Paul Prichard caught behind for 45 in his second over. He caught Law, when he was threatening retribution with 55, and Ronnie Irani, on

the mid-wicket boundary, and finally returned to remove Stephen Peters and Grayson.

Essex would not give up, however, and Robert Rollins. who had never made more than 38 in a Sunday league match, defied a pulled muscle to make 87 off 51 balls and give them a fighting chance before he holed out to long-on in the gathering gloom.

It had been a gallant

attempt to retrieve a lost cause. but the day belonged to Flintoff, who has matured impressively during the winter after looking completely out of his depth in his first two Test matches against South Africa last summer. By the end of the season his

weight had soared to almost 19 stone because of his long-standing back trouble and he was demoted to the A team for the tour of Zimbabwe and South Africa. He did so well, however, that he was added to the World Cup squad after be-ing left off the provisional list. Since then he has scored a

century against England in one of their warm-up matches in Lahore, forced his way into the one-day side in Sharjah and now shown that he is in prime form. The Essex Eagles had been expecting a visit from Lancashire Lightning. They had not expected thun-

Ebbw Vale

By GERALD DAVIES

LIANELLI have moved nine points clear at the top of the Weish League after a comfortable win against a strangely subdued Ebbw Vale on Saturday. Despite a midweek loss away to Neath and the unpredictability of bonus points in the offing, the West Wales club now looks set to win the championship.

The competition has entered the play-off stage, with each of the four clubs involved having played two of their six matches already. Llanelli play in Pontypridd on Wednesday against the club who, without the influence of Neil Jenkins at fly half, are limping along in desultory fashion after losing their two play-off matches to date.

As has become a familiar theme throughout the years, Lianelli are also challenging for the SWALEC Cup, Ideally, they would like to have secured the league title before reaching the two remaining matches, so that some of their leading players can rest before the final against Swansea in the cup final.

Llanelli are at ease in knowing that they, along with Pontypridd, will be participating in the European Cup next season. This is not the case for Ebby Vale, who will be competing with Neath in making up the complement of five Welsh clubs in the tourna-

ver lining. As more than 4,000 people drifted away from Heywood Road on Saturday, they were cheered by the broadcast announcement that Sale's place in the first division next season was assured after defeats elsewhere for Bedford and West Hartlepool. After the

TO EVERY cloud, there is a sil-

listing - with more to follow - they need to take encouragement wherever they can. Leicester had left them with none, but the champagne for the Allied Dunbar Premiership title remains firmly in the refrigerator. Not until the pocket calculator tells Dean Richards that the team he manages cannot be caught will he permit any hint of cele-bration, even though the

points difference between

Leicester and Northampton,

in second place, is such that they can virtually dispense with the graw that is all they require from their remaining two matches, with Newcastle Falcons and West Hartlepool. Yet already Richards is look-

ing ahead to a potentially-cha-otic World Cup season in which English clubs are scheduled to play Premiership matches to to and during the international circus. He ex-pects to be around a dozen players to various World Cup squads - Northampton, Bath and Saratens will be afflicted, though not to the same extent — and werries that not only domestic honours but European qualification may have been lost by Christmas

"Someone has to look very seriously at the start of next season," tichards said, with a board neeting of English First-Division Rugby scheduled for tomorrow. Rob Andrew, his opposite number at Newcastle, is of much the same mind. Acknowledging the duty wed to the sponsors, Richardswould prefer a limit-

ed Premiership competition based on a conference system similar to that already suggested by Saracens, with a separate tournament being played while the World Cup bandwagon is in full swing.

"It's almost as though you are being penalised for breeding good players." Richards, who does not anticipate much change to his squad between now and next season, said. Adrian Hadley, the Sale director of rugby, has helped to breed good players and is now

having to dispose of them to make the books balance: Barrie-Jon Mather, the England centre, will be joined on the transfer list by three or four more players within the next ten days, some of whom did not make a powerful case for retention by, as it were, their

lack of retention of the ball. "We are doing what every club in the first division has to do," Hadley said, "The investors are not prepared to lose the amount of money we have lost in the last two years. We

squad, maybe add one or two. but we will be competitive next season." That core should include Shane Howarth, full back for Wales but fly half for his club, and Sale are optimistic that they can keep him

from the clutches of Cardiff. Sale have leaked tries all season, but at their best their pass-ing is a joy and Jim Mallinder's vision creates tries such as that scored by Jos Baxendell which gave Sale so brief a lead.

Leicester created pressure on the Sale defence by running the ball at every opportunity, forwards and backs shaping a seamless game whose best expression came with David Lougheed's try in the first half. Typically, its genesis came when Sale failed to control their own lineout and Van Heerden ploughed through to

take possession. The South African lock has played strongly in the second half of the season, with thoughts of a possible place in

squad on his mind, and he created the impulse from which Leicester found Martin Johnson and Neil Back running in support. Lougheed received the final pass and brushed aside the last clutching hands.

Leicester's enthusiasm helped Back to two tries and a tally of 13 for the season, only for the England flanker to find that Pat Lam's brace for Northampton prevented him becoming the division's leading tryscorer; that may be the only area in which Northampton area in which Northampton pip Leicester this season. Falcons prey on ailing rivals

Newcastle Falcons Gloucester.

By Alasdair Reid

THE cruellest irony of Gloucester's dismai away record is that they so regularly threaten to bring it to an end. They started this Allied Dunbar Premiership match yester-day in typically promising fashion manufacturing a de-lightful try for Mike Davies, the centre making his debut, after only three minutes. Thereafter, however, they

were simply blown away.

Newcastle were nowhere near their best in their second game in five days, but they exercised an admirable degree of control. Indeed, Davies's try may have been a useful wake-up call, as Newcastle can often be desperately slow in getting into their stride.

The early jolt was a clear influence as they added thoroughness to their overall per-formance. Gradually they squeezed Gloucester out of the match, overtook them on the scoreboard after half an hour and, frankly, never looked remotely threatened.

Gloucester, after six consecutive league defeats, urgently need to strengthen their squad, a process that begins today when they unveil Junior Paramore, the Bedford flanker, as their newest recruit.

Newcastle, as ever, were given marvellous direction by Gary Armstrong, their captain. As Steve Bates, the Newcastle coach, said, Armstrong, the Scotland scrum balf, has been exemplary for Newcastle this season.

Armstrong produced a brace of tries early in the second half. Newcastle had reached the interval 18-7 ahead, through touchdowns by Mike Wood and Stuart Legg and a conversion and a penalty by Jonny Wilkinson, with Simon Mannix adding a penalty to Davies's early try. A penalty by Mark Mapletoft, who had replaced Mannix. shortly after half-time suggested that Gloucester could stage a revival until Armstrong in-

Tom Beim scored a late try for Gloucester but by that stage, with six minutes remaining, Newcastle had already lifted their foot off the gas. Gloucester's impudence and George Graham completed their scoring with a lastminute try.

Saracens lose place among big six

Saracens

By DAVID HANDS

THE cost of qualification for Europe is becoming more and more profound; the cost of not qualifying for Europe is even higher and that is the spectre that now stares Saracens, the big spenders of the Allied Dunbar Premiership, in the face. Defeat at Vicarage Road yesterday pushed there out of the top six for the first time in 18 months.

The main concern for Harlequins was the sight of Zinzan Brooke, their player-coach, leaving the stadium immobilised on a stretcher after sustainthe New Zealander had movement in in a tackle yesterday. i his limbs and John Gallagher, in dub's director of rugby, described his isit to Watford General Hospital as precautionary. He is expected to take a full recovery.

Gallagher can take immense satisfaction from the double that his players have achieved over Saracens. In October, they threw the Watford club off balance so badly that their season has not really recovered. Yesterday, they threw a spanner in the Europen works while doing their own prosects no harm at all.

"That was a massive defeat for us," rancois Pienaar, the Saracens coach and captain, said. He will not play gain himself this season. After sufering a partially torn medial liganent a week earlier against Leicester.

of the neck in loose play. However, he completed the job when twisting for Harlequins to swamp their oppo-

in the ten minutes before Saracens conceded 15 points, but the result was still in the balance until they waved Chris Sheasby through from a scrum in the second minute of injury time at the end of a second half extended by seven minutes while Brooke was carefully removed from the pitch.

Early lack of control suggested that Saracens were short of confidence. yet they scored a try of considerable quality that should have served to settle them. Johnson ran strongly out of defence and sent Sorrell sprinting clear. Although Carling caught him, Grau and Diprose breathed life into the movement and Daniel crossed at the corner.

That proved merely to be the signal

nents. Carling's weighted pass gave pick up from a scrum and sprint 25 Saracens next season - a run to the posts and, when Constable and Penaud made a hash of attacking out of their own 22, Mensah accepted the gift and sent O'Leary over. Sheasby and Jenkins were the next to make ground and Murphy plunged over from the ruck to give his team a

15-point advantage. Harlequins then displayed generosity of their own. Johnson kicked a penalty after Carling's high tackle on Sorrell and neither Carling nor O'Leary (twice) could stop the flying Daniel high-stepping his way to a second try. After a rash of replacements, Lacroix, one of them, immediately kicked two penalty goals to carry his side two

Bedford facing final orders

Bedford Northampton.....42

BY MARK BALDWIN

ONE of the men responsible for buying control of Bedford said after this latest defeat that he wants "to see more people here drinking at Goldington Road". You might think that many

Bedford supporters would have been seeking solace in the bottle long since after this season's trials and tribulations, but the point that Doug Braddock was seeking to stress is that the future of the club - irrespective of whether they remain in the Allied Dunbar Premiership or not - depends on developing their ground into a leisure facility. centred on rugby but used by

the whole community.

Braddock, a director of corporate consultants Jefferson Lloyd International, which bought out former owner Frank Warren's 90 per cent shareholding for reputedly more than £1 million last Friday, said: "We believe it is the right time for us to get into rugby. Too many people have been treating rugby as a busi-

ness. It's not, it's a game." Bedford, well beaten after competing hard for an hour. still have enviable spirit.
which reflects hugely on the players and the integrity and grit of Rudi Straeuli, their steadfast director of rugby. The club must now gear itself for the biggest week in its history, the visit to West Hartlepool, the bottom club, on Sunday, when automatic relegation will be averted if Bedford

Braddock said that money would be made available for players but "mainly for the development of this site". He added: "We are looking to invest considerably in the club and we are not throwing money down the drain."

Pat Lam scored two fine tries to snuff out the Bedford challenge on Saturday, which still burned brightly at 24-28. Grant Seely also scored in the first half, when Northampton briefly raised the pace, and a penalty try was awarded for a high tackle on Craig Moir. Alistair Hepher also out-kicked a woeful Tony Yapp. But Bedford also ran in five

tries and it was appropriate that they should finish the match in some style when a length-of-the-field breakout produced a try for Joe Ewens. "We deserve to stay in this division," Straeuli growled.

Eddery gets summons from Butler

By CHRIS McGrath

COMPTON ADMIRAL, whose turn of foot in the Craven Stakes augured so well for his prospects in the Sagitta 2,000 Guineas, will have youth and experience serving his cause when he returns to Newmarket on Saturday. Yesterday, Gerard Butler, his trainer, booked Pat Eddery to replace Frankie Dettori in the classic, in which the Italian is required by Godolphin.

Butler, 33 today, is in only his second season with a licence,

Paul Carberry was yesterday described as "stable" after undergoing emergency surgery on his spleen. He is expected to make a full recovery but could be out of action for two months or more. Carberry missed the ride on Bobbyjo in the Whitbread Gold Cup after being injured when riding out for Noel Meade.

whereas Eddery has just celebrated the thirtieth anniversary of the first of more than 4,000 career wins. The 11-times champion jockey, however, is still able to match the ambition of the younger man, who is seeking to give the rider of Zafonic, El Gran Senor and Lomond another Guineas success.

Though Dettori rode Compton Admiral in the Craven, Eddery was in the saddle when he showed so little respect for the reputation Killer Instinct brought to Ascot last summer. "That was the main reason we went for Pat, he has ridden the horse before." Butler said after discussing various options with Erik Penser.

Compton Admiral's Swedish owner also won the Craven three years ago with Beauchamp King, who went on to give Butler his

first success, in a listed race at Haydock last season. Dettori is to ride Island Sands,

who came out best among the colts in Godolphin's three-year-old trials 16 days ago. He is among 30 horses flying in from Duhai this morning, in the wake of a preliminary draft of ten yesterday. Today's priceless cargo includes those who will be entrusted with opening Godolphin's European season at the Guineas meeting. First to put his head over the parapet is likely to be Mukhalif. He won both his starts as a juvenile when with David Loder, and confirmed how he has flourished in the desert by chasing home Island Sands in the colts' trial.

That was over a mile but he is bred to stay well and, being of the neat build that suits Epsom well, Mukhalif could be an auspicious first runner for Godolphin in the Green Ridge Newmarket Stakes on Friday's card. All running plans, however, are subject to how well each horse has travelled and adjusted to the chilly English spring.

The vacancy on the French-trained 1,000 Guineas favourite. Moiava — a headache caused by Olivier Doleuze's suspension and exacerbated by Kieren Fallon's commitment to Wince - has been filled by Richard Quinn. The jockey con-firmed himself in marvellous form at Sandown Park on Saturday, persuading Generous Rosi to suspend his addiction to second in a desperate finish to the Gordon Richard Stakes. On the same card, Glamis did not remotely resemble a Derby colt in the Thresher Classic Trial,

albeit on unsuitably soft ground. Montjeu, however, owned by Michael Tabor and trained by John Hammond, is 10-1 with Ladbrokes for the Derby after winning the group two Prix Greffulhe at Longchamp yesterday.

acing arouses more than its share of contempt and condemnation, usually for the soundest of reasons. Haphazard planning. bookmakers' greed and administrative elitism can make the most faithful follower weep. Just occasionally, though, the sport presents a day of atonement, a day so speciacular it dispels all fears that this precarious industry, fundamentally decent but dated and slightly dotty, may perish among the piranhas of modern leisure. Whithread day at Sandown

Park was a triumph. More than that, it was an education. Its enlightened programme attracted almost 20.000 people, the biggest crowd on this day for more than a decade, and held their attention for upwards of five hours. It had two key virtues, quality and variety, and while these can never be easily replicated on a rainy Tuesday at Leicester, the mix must not be regarded as unrepeatable.

Indeed, the reaction to a day that Sandown justly calls unique is that it must cease to be so, as of next year. Into the ferment that is the 2000 fixture list should be tossed a new priority - the creation of three more weekend mixed meetings, so that two are in future scheduled at each end of the summer.

The criteria must be strict. These fixtures must be showpieces, the window displays designed to lure a new audience. No half measures, no stinting on the peripheral

ers want to see Fallon and Dunwoody, Dettori and McCoy: they also want to eat and drink without checking their supplies of Lomotil. Newbury could do it, so too Haydock, but only if their attitude is as committed to the cause as was evident in Esher on

Sandown's elementary achievement was to unite the Flat and jumping codes. Nothing new here, nothing faintly novel, in fact. Mixed meetings were once commonplace but the practice fell into

attractions. Good horses are disuse, largely. I suspect, because dozen here — would die for such a they threw up complications that card. But perhaps not many would some facilities essential. First-tim-were more easily ducked. They were more easily ducked. They could also seem a half-hearted compromise, the best of neither world, but, on Saturday, Sandown chalked up perhaps the most deliciously edectic menu racing has known, and made it sing.

Even on paper, the ingredients were appealing — seven races, four on the Flat and three over fences, the distances ranging from the initial five-furlong dash to the daunting 29 furlongs and 24 fences of the feature event. Every racecourse worth its salt - and we must be talking of at least two

Of course, Sandown has the facilities, the financial backing and an affluent catchment area. It is an enviable start. But if the 43rd year of the Whitbread card was also the best, it was because an unusually progressive committee created around the principal races an environment of entertainment rather than exclusivity.

Channel 4 set the mood at breakfast time. Its Morning Line show is never less than jaunty but it has additional animation on this all-for-one day. Jim McGrath, of goaded by John Francome into telling us that 12 of the 19 Whitbread runners might as well stay at home. Eulogy was among those to attract the dismissive red pen. I wondered at that one.

By mid-morning, the queues had begun to grow. I spent an hour, covering a painful mile, following Richard Rowe's horsebox, Eulogy within. Made a superstitious mental note to back it.

he racecards were £2 each, which seemed steep until you opened them. They were the best I have seen, the equivalent of a decent football programme. The tipping page suggested Eulogy "looks a stand-out each-way selection at around the 16-1 mark". It all adds up, I thought, checking my wallet.

The first success of the day was the Tote challenge, in which jumping beat the Flat. Tony McCoy said he had suggested it should be a steeplechase - "I told Frankie the railway fences are very attractive" - and Philip Mitchell who supplied the horses, joked that he had swapped the number-cloths, because Frankie had been so desperate to win".

Everyone, meanwhile, was

struck by the public response. More struck than they should have been, for this was a commercial certainty. Top jockeys are there to be promoted and at last it is being recognised. Hopefully, the lunch-time crowds for this gimmick event, and the masses of youthful autograph hunters, will persuade the most reactionary forces that

starmaking is good for the health.

The Whitbread was not won by a star. It was won by Barry Fenton, so much a Nationwide League jockey that the announcer got his name wrong during the presentations, and by Richard Rove, a trainer who had saddled the pauperish sum of five winners in a season so wretched that he admitted: "Three months ago, I wrote it off and started thinking about next

Next year, administrators please note, must contain more glifering, diverting days like this, when the Whitbread winner, naturally unbacked by a correspondent immune to superstition and coincidence, was Eulogy. His name was a testament to the occasion

RUGBY LEAGUE: BRONCOS STALL AGAIN AS RHINOS STEP UP A GEAR

Leeds revival averts Wembley worries

Huddersfield Giants20 Leeds Rhinos.

BY CHRISTOPHER IRVINE

WHILE London Broncos have been losing players and matches at an alarming rate. Leeds Rhinos attended to their pre-Wembley jitters with a suitably confident display ahead of the Silk Cut Challenge Cup final on Saturday, for which they are the 8-1 odds-on favour-

From the way they went through the motions of their two previous JJB Super League games, Malcolm Reilly, the Huddersfield Giants coach, observed beforehand that Leeds "obviously have Wembley on their minds". Not yesterday, however, as the Rhinos irresistibly cut loose in the first half and kept their minds on the job.

Unlike London, Leeds have the luxury of 22 fit players to choose from when the side for the cup final is announced tomorrow. No wonder Graham Murray, their coach, was smiling afterwards. "if I could have picked a game that would be good for us, this was the one. Everyone has come through with a clean bill of

Huddersfield rallied well from 30-6 down to give Leeds a handy workout in the second half. Reilly was under no illusions about London's task. "Today, they were playing for their places and were right up there," he said, "Leeds have quality across the park. Their outside backs are electric and exploited our brittleness on the

edges of our defence."

Before the tidal wave, Huddersfield led when Goulding's chip to the posts bounced awkwardly for Cummins and Jim Lenihan picked up the pieces for the first of his three tries. It was the last that the Giants saw the Rhinos' line - until Lenihan's second try, early in the second half -- as Leeds ran

them from pillar to post in scoring six first-half tries. Huddersfield were their own worst enemies, prompting Reilly to remark that they were better at pressurising themselves than their opponents. After a penalty, the defence was sucked in by Sheridan's darting run and Leeds worked Cummins over on the left before scoring his hundredth try for the club.

final on Saturday. In the four minutes before Since the semi-final defeat of the interval, Brad Godden, a Bradford Bulls, Adrian Mor-ley has been guilty, like several other Leeds players, of a drop in intensity. He, too, was back member of Malcolm Reilly's Newcastle Knights side that triumphed in the 1997 Australto his charging best and pow-ered over for the second try. Paul Reilly offered the occaformer coach to a fine try and Leroy Rivett added the first of his two when he performed the soft-shoe shuffle around sional glimpse of his promise as an attacking full back for and between three defenders Huddersfield. However, a

ST HELENS demonstrated again yesterday their peerless ability to score from long range as the JJB Super League leaders secured a seventh successive victory at the expense of stricken Hull Sharks.

Anthony Sullivan, the Great Britain wing, was at the cutting edge of an expansive performance in the first half with two tries that effectively put the reach of onponents who, with eight regulars missing through injury. took to the field with four Academy youngsters in their line-

Their misfortune was underlined after only five minutes, when a break from Jim Leatham, their prop, was halted by a try-saving tackle from Paul Sculthorpe, who then got up to intercept a loose pass from File Seru to send Sullivan sprinting 60 metres for his first touchdown. Apollo Perelini strolled through an inviting gap for a second try from Sean Long's cut-out pass four minutes later.

CASTLEFORD Tigers, who had failed to beat Wigan in all six Super League attempts. laid that dismal record to rest at the seventh time of asking at Central Park yesterday. They outplayed the champions, who looked a mere shadow of the team that had swept to the title last year.

Resolute defence restricted the Warriors to a single try an error by Castleford, while in attack the Tigers were dominant, crossing the line four times. No wonder Stuart Raper, the Castleford coach, de-scribed the result as "one of the highlights of my coaching career". More to the point, it emphasised that the race for honours this season will not be

restricted to the big names. John Monie, the Wigan coach, was left searching for the solution as his side suffered their third defeat, one more than the entire season in thwe league a year ago.

For Castleford, there is every reason to feel optimistic that they can be in the reckoning come play-off time. They domi-

nated from the start, going ahead after 11 minutes, when Davis scored the opening try.

This was an early sign that Wigan are not the awesome opposition of old and the crowd did not have long to wait for confirmation with another Castleford try, this time from Wells after a four-man move stretched the Wigan defence.

Wigan's only reply in the first half was a penalty by Far-rell and they left the field at the break to a chorus of jeers and boos, not a regular sound at Central Park. Yet there was no improvement after the interval. Instead, Castleford in-creased their lead when Vowles scored in the 53rd minute, with the home defence conspicnous by its absence.

Within five minutes of Wigan scoring their solitary try, their defence was broken again, Harland making the touchdown.

Road record puts gloss on Radcliffe's fine spring

WITH a brush in her hand, Paula Radcliffe is to spend the next ten days decorating her flat in the French Pyrenees, but already she has had a busy spring painting by numbers. This month Radcliffe has set British and Commonwealth record figures for

10,000 metres and a world record on the road for five miles. She is not done yet. Next month she is likely to make her first attempt on a track world record. Raddiffe is under more

pressure from the sport's promoters than she bas been from any athlete in her last two races. She said that she was being urged to try to break Sonia O'Sullivan's two miles world record of 9min 19.56sec at Loughborough on May 23, when the BBC begins its outdoor track coverage under its new five-year contract. The search has

begun to find pacemakers. I appreciate that the BBC would like something special there and, if it is organised properly with pacemakers. I would probably give it a try," Radcliffe said after taking seven seconds off her own five miles road world record in the grounds of Balmoral Castle on Saturday. Breaking ATHLETICS

away from Jackline Ma-ranga, the Commonwealth 1.500 metres champion from Kenya, almost from the start, Radcliffe won by more than a minute, in 24min 47sec.

A fortnight earlier, Rad-cliffe had taken eight seconds off her British and Commonwealth 10,000 metres record, leading from the gun and establishing a 30-metre lead on the first lap, recording 30min 40.70sec. At Balmoral, Radcliffe was in no rush to talk up her chances of a successful world championships in Seville this summer, under-

standably, given her unfortunate experience last year.

After achieving precisely the record double that she has managed again this month, Radcliffe went into the summer with hopes high for the European championships in Budapest. However. she picked up a virus and could finish only fifth in the 5,000 metres. This summer she hopes for the "bit of luck" that deserted her last year.

Radcliffe is undecided whether to go for the 5,000 or 10,000 metres in Seville. She holds the challengers at both distances in equal esteem. "If I am at my best and they are at their best, I am probably not going to beat them," Rad-cliffe said. "But, in the championships, it's luck on the day. I would never say I am not capable of winning.

By showing brilliant form now, Radcliffe acknowledged that she will be under greater the main summer championship. "It raises people's expectations," she said. "That happened a bit last year, but that is part of the game."

Tegla Loroupe, the women's marathon world recordholder from Kenya, won the ten kilometres at Balmoral yesterday, topping up a bank balance from which she is putting the six children of her deceased sister through private school. Loroupe's winning margin was as clear-cut as Radciffe's, only seven days after winning the Rotterdam Marathon.

TENNIS

Henman springs doubles surprise

FROM ALIX RAMSAY TENNIS CORRESPONDENT IN MONTE CARLO

THERE are those, many a Briton is among them, who believe that the clay-court season is a penance to be suffered before sanity is restored and the tennis circuit rolls into Wimbledon - so it comes as something of a surprise to discover that Tim Henman, alongside Olivier Delaitre, was the only man to win a title outright at the Monte Carlo Open. The Anglo-French partnership took the doubles crown, beating Jiri Novak and David Rikl 6-2, 6-3, while Gustavo Kuerten took the singles title when Marcelo Rios pulled out of the final after 13 games.

It marked the return of the curse of the clay courts. Last year, the two main events leading into the French Open ended with a whimper when Alex Corretja pulled out of the final in Hamburg and Albert Costa pulled out in Rome. In Italy, it was Rios who benefited, taking the winner's cheque in a walkover, but yesterday he could not overcome a pulled

in the towel at 4-6, 1-2 down. "Sometimes you have to listen to your body," Rios said. "In a five-set match, if you can play a couple of sets it is not enough. The injury is only going to get worse and, I don't want to be injured for another five months, so I have to stop."

At least the prognosis is not that bad. After spending three months waiting for a stress fracture of the lower back to heal at the start of the year Rios was relieved to find that two or three weeks' rest should do the trick this time. He felt the injury first two weeks ago and then hurt the muscle again on Saturday in his semi-final against Jerôme Gol-mard. Beginning the final with heavy strapping, he had the trainer on and off the court to take the bandage off, put it back again and take it off, as he tried to find a way to play

through the pain. "Twenty minutes after you lose a match like that, you feel like you have lost in the first round," Rios said, "but then you start to realise that getting to the final is not bad."

Henman would probably agree with that sentiment - a final on clay is not bad at all. especially given that he had no intention of playing doubles at all. When Delaitre was desperately searching for a partner at the last minute, Henman changed his mind and is now £50,000 richer as a result. Doubles may not be Henman's orimary concern, but the chance to get a little more match play on a surface that has always caused him trouble can do nothing but good.

"I just feel much more comfortable on the court now," he said. "We are both pleasantly surprised, but from the word go we understood each other's games. Just to be practising in match conditions can only be beneficial and winning is always a good habit to be in."

Bruised Broncos remain optimistic

London Broncos18 Warrington Wolves......30

By David Lawrenson

DESPITE witnessing his side's fourth successive defeat and seeing a succession of players leaving the field for treatment, Dan Stains, the London Broncos coach, refuses to be pessimistic about his team's chances in the Silk Cut Challenge Cup final on Saturstring of defeats going into the to change.

Wembley showpiece, he said: "That's neither here nor there. It would have concerned me if we had just got blown off the park, but I thought the commitment was first class."

Tries for Warrington Wolves by Alan Hunte, Lee Penny and Mark Forster were countered by scores from Mat Toshack and Tulsen Tollett and when Martin Offiah grabbed another just before half-time to give London an 18-16 lead, it looked as though day. When asked about the their fortunes might be about

Instead, two tries from Jason Roach and one by Toa Kohe-Love killed off their challenge and Warrington thoroughly deserved their win. They played smart, aggressive football and their centre pairing of Hunte and Kohe-Love is beginning to biossom. Equally impressive was Lee Briers, orchestrating affairs

from scrum half. Stains is confident that his injury worries will clear be-Wembley. However. there is still a question mark over whether Shaun Edwards

seems determined to do so, but Stains will make the decision after consulting his medi-

Cal staff on Tuesday.

kingston dominated the bout and halfway through produced an immaculately timed leg throw to dump the Dutchman on his back. Kingston weighs 77kg and will now concentrate on losing four kilos for the European championships, which he won in 1996.

"Obviously I would like to win again,

but I am regarding the event as a step-ping-stone," he said. "I particularly want to get a medal at the world championships to qualify for the Olympics."

Britain's other winner was Georgina Singleton, a featherweight, who defeated Zoizic Pallancher, of France. However. Debbie Allan, winner of the Dutch Open this year, was absent Provided Allan is fit, she will get the place for the European championships.

In the light-heavyweights, Keith Davis beat Min Soo Kin, the Olympic silver medal-winner from South Korea. However, in the final, he came up against Sung-Keun Park, another South Korean, and was overwhelmed.

eaders can take advantage of incredible offers on flights to ten European cities from just £34 return with easyJet. These fantastic fares, listed right, are only available on the net. Simply collect ten differently numbered tokens, eight from The Times and two from The Sunday Times. Tokens will appear every day until Sunday, May 9, 1999. You can travel between May 4 and July 15 and full details of how to book and the flights offer password will be printed on Wednesday. Don't worry if you missed yesterday's Sunday Times token, a bonus token will appear on Sunday. Attach the tokens to the booking validation form which will appear in The Times on Saturday. Readers over 18 can buy return flights for up to four people with one complete set of tokens.

easyJet, the Web's favourite ailine, has sold almost 300,000 seats via the Internet and is currently achieving 95 per cent of sales online. More people now contact easyJet by Internet than by telephone. Online bookings reduce costs by selling to customers via its Website and the consumer can consult prices on individual flights all for the cost of a local call. Stelios Haji-loannou, the easyJet chairman, said, "easyJet is definitely the Web's favourite airline, providing an easier and more cost-efficient service to consumers. People seem to be quite at ease with the Internet so I am looking forward to opening the first of my chain of easyEverything Internet shops in June this year in Central London.

Prosecute

By Robert Sheehan, bridge correspondent

Despite being the National Senior Pairs Champions of England, the difference in closing date for the age qualifica-tion meant that Peter Littlewood & Graham Jepson were not old enough for the Prokom Software European Senior Pairs in Warsaw and they had to take their chances in the Open Pairs Championship. They failed to make the first cut by the slender margin of one matchpoint, but came good in the repechage, taking the last of the four final places available from the B semi-final. They had to work hard on this deal to secure an average,

as the majority of the field played the North-South cards in game and usually conceded -50.

Summary assessment of costs

Practice Note (Court of Appeal, Civil Division: Assessment of costs)

The Court of Appeal would, in to make orders for costs which reflected the fact that a party, while successful in general on the appeal, had been unsuccessful in relation to certain issues.

Lord Woolf, Master of the Rolls, sitting in the Court of Appeal with Lord Justice Auld and Lord Justice Robert Walker, so stated in a practice note handed down on April 21.

THE MASTER OF THE ROLLS stated that Part 44 ("General Rules about Costs") of the Civil Procedure Rules 1998 (see Civil Procedure (Sweet and Maxwell (1999) pp 431-437) and its accompanying practice direction, did not explicitly set out the extent to which the provi-sions on the summary assessment of costs applied to the Court of Appeal, Civil Division.

This practice note therefore outlined the approach that the Court of Appeal would be taking with regard to the summary assessment of costs from April 26.

Paragraph 4.3 of the direction relating to Part 44 explained (at p476) that, in first instance courts, whenever a court made an order about costs which did not provide for fixed costs to be paid, the court should consider whether to make a

straightforward in the Court of Appeal. The Court of Appeal was expense of preparing statements of costs in cases which were unsuitable for a summary assessment. To achieve that aim, the Court of

Appeal itself would identify those cases which appeared to be suitable for summary assessment of costs and would notify the relevant parties accordingly. Parties to appeals would not therefore need to file statements of costs unless they were informed by the Court of Ap-peal that that was required.

Where the Court of Appeal in-formed the parties that it was minded to assess costs summarily, each party must prepare, file and exstatements of costs and identify any items of the other party's statement which were in dispute, giving reasons for the dispute, not less than seven calendar

days before the hearing. It should be noted, however, that the fact that the Court of Appeal might have requested state-ments of costs did not place an obligation on the court to assess costs That could be determined only

when the parties' statements of costs were available and the extent

Court of Appeal had not invited parties to file statements of costs on that proposing by letter to the court that a summary assessment might be suitable. If the court of costs to be filed.

Prosecutor's duty to disclose Regina v Director of Public Publications, Ex parte Lee

Before Lord Justice Kennedy, Mr Justice Blofeld **Budgment March 18**1

In cases triable only on indicament, there existed in the period between arrest and committal, a continuing duty on a responsible prosecutor t ascertain whether immediate disclosure was required in the interests of justice and fairness, in accordance with the Criminal Procee-

dure and Investigations Act 1996. The Queen's Bench Divisional Court, so held allowing an application for judicial review of the decislon of the Crown Prosecution Serv ice, on December 21, 1998, not to disclose unused material, prior to the committal for trial of Roger Lee on a charge of murder.

Mr James Turner, QC and Mr James Roberts for Mr Lee: Mr Jeremy Carter-Manning, QC and Mr Christopher Kinch for the Director

LORD JUSTICE KENNEDY eaid that:

I The 1996 Act considerably reduced the ability of the defence to take an active part in committal proceedings, so the need for disclosure prior to committal was also re-

2 Part I of the 1996 Act introduced a completely new regime in relation to disclosure. It replaced most if

not all of the provisions of the common law from the moment of committal with a two-stage process set out in sections 3 and 7. The second stage only occurred in response to

a delence statement. 3 The disclosure required by the 1996 Act was intended to be less extensive than would have been required prior to the 1996 Act at com-

4 Although some disclosure might be required prior to committal. and thus prior to the period to which the Act applied, it would undermine the statutory provisions if the pre-committal discovery were to exceed the discovery obtainable

after committal pursuant to the

5 The 1996 Act did not specifically address the period between arrest and committal, and whereas in most cases prosecution disclosure could wait until after committal without jeopardising the defend-ant's right to a fair trial the prosecutor must always be alive to the need to make advance disclosure of material of which he was aware, either from his own consideration of the papers or because his attention had been drawn to it by the defence, and which he, as a responsible prosecutor, recognised should

be disclosed at an earlier stage. Examples canvassed before (a) previous convictions of a complainant or a deceased if that information could reasonably be expected to assist the delence when applying for bail:

(b) material which might enable a delendant to make a pre-commi ial application to stay the proceedings as an abuse of process; (c) material which might enable

a delendant to submit that he should only be committed for trial on a lesser charge, or perhaps that he should not be committed for tri-

(d) material which would enable the defendant and his legal advisers to make preparations for trial which would be significantly less effective if disclosure was delayed, for example, names of eye witnesses whom the prosecution did not intend to use.

6 Any disclosure by the prosecution prior to committal would not normally exceed the primary disclosure which after committal would be required by section 3 of the 1996 Act, that is, disclosure of material which in the prosecutor's opinion might undermine the case for the prosecution.

However, to the extent that a defendant or his solicitor chose to reyeal what he would normally only disclose in his defence statement give the secondary disclosure which such a revelation would trig the secondary disclosure ger, so whereas no difficulty would arise in relation to disclosing material of the type referred to in (a), (b). (c), above, and his Lordship accepted that such material should be disclosed, the disclosure of material of the type referred to in (d) above would depend very much on what the delendant chose to reveal about

7 What was not required was a full blown common law discovery at

the pre-committal stage.
Although the 1996 Act had not abolished pre-committal discovery the provisions of the 1996 Act taken as a whole were such as to require that the common law obligations in relation to the pre-committal pehis Lordship indicated.

8 Within the framework outlined. his Lordship accepted Mr Turner's submissions that even before committal a responsible prosecutor should be asking himself what if any immediate disclosure, justice and fairness required birn to make in the particular circumstances of

the case Very often the answer would be none, and rarely if at all should the prosecutor's answer to that continuing piece of self-examination be the subject matter of dispute in this court. If the matter did have to be ventilated it should, save in very exceptional circumstances be before a trial judge.

The consolidation by the Court of Appeal of all its principal practice directions would greatly improve the accessibility of information about civil appeals by ensuring that court users and judges need refer to only one document for direc-

Lord Woolf, Master of the Rolls. so stated on April 19 when, sitting in the Court of Appeal with Lord Justice Auld and Lord Justice Mummery, he handed down the 65-page document due to come in to force on April 26, 1999.

THE MASTER OF THE ROLLS said that the Court of Appeal had taken another step in the process of modernising the civil justice system. It had consolidated all its principal practice directions, with some minor amendments.

into one single document. All individual civil division practice directions previously in force would be superseded by this practice direction. That would greatly improve the accessibility of information about civil appeals.

The consolidation of existing practice directions would also facilitate the review of the current rules on civil appeals, in particular. Order 59 of the Rules of the Supreme Court, which had not yet been fully incorporated into the new Civil Pro-

Net fervour surrounds WH Smith

WH SMITH: The recent strong performance in the share price owes more to the group's involve-ment in the Internet than to any

views on current trading. Since the start of the year, the price has risen from a low of 477p to close on Friday at 728%p. Even so, the Internet Bookshop, which it bought last year for almost £10 million, is only likely to contrib-ute £6 million to overall sales, albeit double the £3 million

achieved last time. SG Securities is forecasting a profits setback when interim numbers are published on Thursday. It is forecasting pre-tax profits of £98 million, which compares with a pro forma £128 million last time. These figures are struck after disposals, including the sale of the Virgin Our Price music retail business to Richard Branson for £145 million. as well as cash handouts to

shareholders. Total book sales are likely to be up about 5 per cent providing the main driving force for group profits. However brokers will no doubt be interested to learn from the retailer about the current state of play regards the rest of the group's launch of its on-line internet service.

Earnings are expected to come in at about 27p, paving the way for a dividend of 5.9p.

ALLIED DOMECQ: There will be little for shareholders to cheer when the drinks and food giant publishes interim results on Thursday.

ECONOMIC OUTLOOK

Search for a soft landing

ast week's rash of statistics seemed to convince much of the City that the UK is comfortably heading for a soft landing and that further interest rates cuts are unnecessary. However, there still remains serious doubts about the health of the manufacturing sector and the country's trade performance, with both issues coming under the spotlight this week.

Tomorrow's trade data, in particular, are likely to provide a firm reminder that with the pound remaining at stubbornly high levels, the deficit will continue to act as a substantial drag on the economy for some time. MMS International, the economics consul-tancy, forecasts that while the global trade gap in February will narrow from the January record of £2.8 billion, it is set to remain at high levels of £2.3 billion. The non-EU trade deficit is poised to widen again to about £1.8 billion, suggesting that the trend of large deficits is likely to continue. Also on Tuesday, the Confederation of

British Industry will release its March industrial trends survey. The last couple of surveys have pointed to a modestly improving trend in the sector. Analysts are look-ing for a bigger bounce-back in March as evidence that manufacturers may return to growth during the second half of this year. Abroad, the main focus of interest will be US first-quarter GDP figures on Friday. The

heady 6.0 per annualised rate recorded at the end of last year has sparked fears that the Federal Reserve will be forced to raise rates. Slower first-quarter growth — MMS fore-casts an annualised rate of 3.2 per cent should calm rate fears although the GDP chain price index, a measure of inflation, is expected to rise from 0.8 per cent to 1.3 per cent.

The Rubin factor puts Wall Street on edge

IN NEW YORK

ROBERT RUBIN, the US Treasury Secretary, is adored as one of the architects of America's stock market boom. Now there are fears that he

will resign. Alongside Alan Greenspan. Chairman of the Federal Reserve Board. Mr Rubin provided the safe hands that ensured the US buil market survived last year's international financial crisis, as well as protracted attempts to impeach President Clinton, It helps that Mr Rubin is a Wall Street insider.

Before he joined the Clinton Administration, Mr Rubin was co-chairman of Goldman Sachs, the investment bank due to float later this year. Aithough rich. Mr Rubin, a trim 60-year-old, knows that he has missed out on a lot more mon-

ey by going into politics. The float will leave the top four Goldman executives with stakes worth between \$136 million (£84 million) and \$227 million each. To ensure no confliet of interest when he left. Mr Rubin used a "blind trust" to convert his stake in Goldman into a fixed income

Robert Rubin is seen as an architect of US shares' boom

stream and he thus misses out on the share bonanza. At a gathering organised by

New Yorker magazine last week, Mr Rubin revealed that President Clinton teases him over the timing of his departure from Goldman. There has. for two years, been on-off speculation about Mr Rubin leaving government. The rumours have recently focused on his wife's alleged dislike of Washington, on the ending of Mr Clinton's impeachment trial and on Mr Rubin's admission that one academic post he has been offered intrigues him.

Mr Rubin sidesteps the question and scoffs at suggestions that the Dow Jones industrial average could fall by up to 1,000 points if he went. "Absolute baloney," he says, adding that the last time there was fevered talk of his departure, the Dow fell by all of two points.

Mr Rubin has breakfast or lunch weekly with Alan Greenspan and Larry Summers. Deputy Treasury Secretary and his likely successor. The meetings have been characterised by Time magazine as "the committee to save the world". Mr Rubin prefers to portray them as slightly geeky affairs. "Most people don't find things like yield curves amusing we have all kinds of jokes about the yield curve," he says.

Mr Rubin's part in cutting the US budget deficit has been crucial to the Clinton Administration's economic success. He has also been praised for persuading Western banks to reschedule Korean debt in 1997, stopping a messy default. Mr Rubin says that the world's financial crisis is not over, but dodges questions on the sustainability of US economic growth, since any comment is likely to be over-interpreted.

Huge gains on Wall Street have fostered greed, envy and a guilty fear that a bubble is about to burst. The Rubin factor is one more possible trigger.

Terranova fight set to ignite

THE muted battle for Terranova, the prepared foods business demerged from Hillsdown Holdings last year, is expected to spring to life this

Unigate, the food and dairy group chaired by Ian Martin, has offered 125p a share, or £228 million, for the business. Terranova is today expected to issue a hard-hitting defence of its plan to stay independent. It is also thought that if Unigate decides to raise its offer, it will do so this week.

Since Unigate bid last month, Terranova shares now 1381/2p - have traded well above the bid price, indicating that the stock market believes that either Unigate will raise its offer or that one or more alternative bidders will emerge.

Under Takeover Code rules, Terranova has until today to publish new informa-tion. Also, under the Code, Unigate has until next Monday to increase its offer. However, since that is a Bank Holiday, it is thought that if Unigate is to raise its offer it will do so this week. Unigate has reported acceptances for 5.6 per cent of the shares so far.

man since 1971, has been responsible for the development of the group from a one-store, family business. He now leaves most of the running of the business to John Clare, chief executive. He joined in 1985 as marketing director. He became managing director a year later, group managing director in 1992 and chief executive in 1994.

Mark So chairman, has been with the group for 29 years. He was appointed managing director of the retail division in 1973 and group managing director from 1986-92. He is also chairman of the British Retail

director since 1998, was appointed to the board in 1997. Aged 35 and by far the youngest of the Dixons directors, he qualified as a chartered accountant with Arthur An-

joined in 1986, is the managing director of Dixons group commercial services. He is responsible for Mastercare, the aftersales side of the business.

Pavid Gilbert, the managing director of Currys, joined the company in 1981. He has worked throughout the group as marketing director.

The non-executive directors are made up of John Curry, the executive chairman of Acal, Sir Tim Chessetts, who is also chairman of the Legal Ald board, and Karen Cook, the co-head of UK corporate finance at Schroders.

IXONS has already claimed its place on the list of wonder stocks of 1999. By mid-April, its shares had risen nearly 100

per cent in value since the beginning of the year to the dizzy heights of nearly £16. Of course, it is Freeserve, the free Internet access service Dixons launched late last

year, rather than its retail business, that has spurred the share price. Dixons has now asked its bankers, Credit Suisse First Boston, and Cazenove & Co. the brokers, to look into a multibillion pound flotation of Freeserve. They could come up with a valuation of somewhere between £2 billion and £3 billion.

The wind has rather been taken out of the Dixons sails in the past fortnight. Doubts about how to achieve a fair valuation of Freeserve, which is set to break even only this year and to make a small profit next year, plus the stalling of the Wall Street technology stock rally, knocked its share price off its peak. But those who bought at the beginning of the year will still be flush.

If Freeserve were somehow to be split off from Dixons. through a partial sale, flota-tion or joint venture, it would have the benefit of giving the market a chance to evaluate the core retailing business properly. It is doing well, but the fuss over Freeserve has left it in the shadows.

John Clare, group chief exec-utive, points out that, although there has already been a huge share price spike this year, the group has actually been on a reasonably steady upward curve since 1994. Windfall spending from building society conversions gave a huge boost to sales two years ago, and they subsequently fell back. Since then, trade has gone back on to a smooth upward track.

The turning point for Dixons's fortunes came when it sold its American retailing business in 1993, six years after buying it. Silo, or Your Electronic Superstore, as it was renamed, was an unmitigated disaster for Dixons. Mr Clare remembers it as a "night-

Withdrawing from the States cost Dixons £300 million in all, and a great deal of credibility. Since then, Dixons has not made any overseas acquisitions, except in the Irish Republic. "When we came back from America, we had our tails between our legs and said we'd focus back on the UK. The strategy has delivered." Mr Clare says.

The Freeserve venture is a

COMPORATE PROFILE: Dixons

Sir Stanley Kalms, chairman, left, and John Clare, chief executive, have seen shares in Dixons, the electrical retailer, reach nearly £16 this year, boosted by Freeserve, the free Internet access service that was launched last year. With the growth in Internet stocks, Dixons is now considering floating Freeserve

big step away from the British high streets and retail parks for Dixons. Its success could encourage other such strategic leaps and this could lead to some expansion overseas America was a failure, and if Dixons were to try expanding in western Europe, it would quickly come up against kingfisher, which has a large European electricals business built around Darty. the French market leader, and

Comet in the UK. Dixons and Kingfisher went through a period, ten to fifteen years ago, when their fates were closely intertwined. Dixons made a £1.8 billion bid for Kingfisher in 1986, when it was still named Woolworth Holdings. When that failed, by way of consolation, Dixons bought Silo. Spotting that the acquisition had been a mis-take, Kingfisher struck back with a £568 million hostile bid in 1989.

When that bid failed in turn, Kingfisher consoled itself with the purchase of Darty. Mr Clare says that he would have

loved to have bought Darty, a company that he greatly admires, but Dixons was in no

position to do so at the time. Looking at the Dixons position in the UK, there is little doubt that markets are going in its favour. Lots of new hitech products are coming on to the market in the next three years, while others will move into the mainstream. Great things are expected of such

things as digital television, mini-discs and DVD.

"In the early Eighties there was a technology bandwagon. From the second half of the Eighties there was nothing new. We are now standing at the edge of an era when we will get growth," Mr Clare says.

Verdict, the retail consultancy, believes that Dixons, the market leader in the UK. should be a beneficiary of the

@Jakarta.

Sir Stanley Kalms, whose father founded Dixons with a photographic studio in 1937, is still chairman of the company. and remains as enthusiastic about new developments as ever. Now aged 67, he works out of the Dixons central London office, while Mr Clare runs the group from the Hemel Hempstead headquarters.

When Sir Stanley took Dixons on to the London Stock Exchange in 1962 it was still a photographic business, with l6 branches. It was not until five years later that Japanese audio and hi-fi units appeared in the Dixons range. Expansion continued, and in 1984 the Currys Group was acquired. it added 613 retail outlets to the group, together with Mastercare, the electrical ap-

pliance service organisation.

The Dixons conundrum is

that it has overcome its American mistake to become phenomenally successful, the stock market loves it to pieces, but the general public does not. Customers flock to Dixons shops, but on the whole have not taken them to their hearts. Mr Clare acknowledges

this, but says that Dixons is doing its best, and has to cope with some formidable difficulties. He admits: "I'd like to establish a reputation and image with the consumer that is better than the one we've got. We're the best regarded in the sector, but not as highly regarded as other sectors. The main reason is the

products. We sell products that go wrong and that people have difficulty in understanding." Although staff turnover is not bad for the sector, at about 20 per cent per annum, the churn of sales staff can cause problems.

As so many of the products sold by Dixons involve servicing at some point, it also sells extended warranties. It is always chary of saying how much money it makes on these warranties - another factor that has aroused public miscoi finale muth

Customers are also constantly suspicious that Dix-ons' prices are unfairly high. Despite the company's protestations that it operates on very low margins. Peter Mandelson, when he was Secretary of State for Trade and Industry, drew the Office of Fair Trading's attention to accusations that Dixon's was over-

Dixons and the OFT have had one meeting to discuss the issue, and nothing more has been said. There is no inquiry, but nor is there anything to say that the company has been exonerated. Given the Government's enthusiasm for defending the rights of the consumer, there seems a reasonable chance that the competition regulators will eventually turn their full attention to the electricals market, particularly personal computers.

Dixons has certainly built itself a very strong position with-in its markets. Verdict reckons that it has grown its share of the entire electricals market from 17.3 per cent in 1994 to 27 per cent. The move by Asda and Tesco into electrical retailing has had no noticeable impact, and Mr Clare is confident that neither supermarket operator actually makes mon-ey on it, "Electrical retailing is a very easy market in which to secure sales, but it is very difficult to make money," he says,

Integrity Works praised Dixons' "long-established and progressive approach to ethical expression," adding: "Starting at the top and through its sponsorship of a chair in business ethics, it has spelt out that in its view 'good business beg-

ings and ends with integrity."

Crisp Consulting said that
Sir Stanley's pay of £850,000 a year is well under par for his long experience, and the other directors are paid reasonably.

Crystal Palace's Goldberg loses £7m as companies are liquidated spurs technology firms

By JASON NISSE

MARK GOLDBERG, the 35-year-old computer recruitment entrepreneur who presided over the collapse of Crystal Palace football club, has lost more than £7 million in a series of business ventures that have been placed into liquidation in the past few weeks.

In addition to losing an estimated £22 million when Crystal Palace went into administration last month, Mr Goldberg has suffered huge losses in a series of badly run business ventures.

The losses incurred by Mr Goldberg this year will have more than wiped out the money that he made from selling a 12 per cent stake in MSB international the recruitment firm that he founded, for £23.8 mil-

lion last year.

Mr Goldberg is almost certain to sell his remaining million shares in MSB in the next few weeks. MSB shares rose 29p to 2201/2p on Friday, ahead of the company reporting its full-year results tomorrow.

The figures are expected to show MSB thriving without Mr Goldberg — who resigned from the company last July and reporting profits, before tion, a property company, and

exceptional costs and tax, of E11.5 million.

All in all, eight companies controlled by Mr Goldberg have been placed in liquidation over the past seven weeks. These include Data Scanning. a technology start-up venture. Lands Development Corpora-

Mr Rubin said that it appears that the companies had been "run by remote control". He said that Mr Goldberg had been "astonishingly naive for The losses this year do not

represent the first time that

Mr Goldberg has been in fin-ancial difficulty. In 1991 he presided over the collapse of two ventures - MSB Appointments (London), which was liquidated with a deficit of £873,000, and Aquamarine Hotel (Brighton), which had a

deficit of £306,000. As a result of this, Mr Goldberg faced bankruptcy over debts he had incurred totalling £1.07 million. He agreed an Individual Voluntary Arrangement (IVA) with his creditors, by which they were paid only £30,000 to clear his debts.

This IVA was disclosed in the prospectus for MSB's flotation, but is not well known. Simon Paterson, of Moore Stephens Booth White, administrator of Crystal Palace, admitted that he was not aware of the IVA when he took on the appointment at the First Division football club, but that he had since been told about it. He is working on a plan to re-structure the club's finances so that it can resume combat in

the First Divison next season. Mr Goldberg - who last week charged Crystal Palace fans £5 each to attend a public meeting about the club and has hired a bodyguard - was unavailable for comment.

Search for top valuation to look for US listings

MANY of Britain's fastestgrowing technology companies are considering abandoning their homeland to float on the Nasdaq stock market in the US, authoritative research

out today shows. The research, carried out by Deloitte & Touche, the chartered accountants, to find Britain's 50 fastest-growing technology companies, found that many businesses felt they would achieve significantly higher valuations in the US than in London.

Deloitte's findings will once again highlight the relative lack of financial research into the technology sector in Brit-ain, and the reluctance of British investors to embrace highrisk, high-reward ventures.

in spite of this, however, Deloitte found that London markets were slowly becom-ing more attractive to technology companies, thanks to the increasingly high profile of businesses such as Freeserve, the free Internet access company expected to join the London stock market this summer. At the top of Deloitte's Fast

50 list is Eidos, the computer games company behind the hit title Tomb Raider, which is currently being made into a Hollywood film.

Eidos was founded in 1990 by Simon Streater, a former Ministry of Defence software engineer, and turned into a commercial success by Ian Livingstone, one of the founders of the Games Workshop retail chain, and Charles Cornwall, a South African corporate financier. The company, which is quoted on Nasdaq as well as in London, achieved astonishing sales growth of

29,637 per cent between 1995 and 1997. In second place is Data Discoveries, an Edinburgh software company, which saw sales grow by 7,117 per cent during the same period. The company produces business software that can confirm the names and addresses of cus-

A separate report from the

FRESH doubts about the pace of earnings growth emerged to-day with new data showing that wage deals in both the manufacturing and service sectors slowed sharply in the first

quarter of this year.

The findings contradict the official average earnings data published last week and are likely to reopen the debate about the accuracy of the official data, which were only reinstated last month after a fourmonth suspension.

The Confederation of British industry pay bank shows manufacturing pay growth falling to 3.0 per cent in the three months to March 1999 compared with 3.1 per cent in the last quarter of 1998. Service sector wage growth also eased lower, falling to 3.6 per cent in the first quarter compared with 4.4 per cent in December 1998.

in contrast, the official figures showed annual wage growth dimbing to 4.6 per cent in the three months to February, after 4.5 per cent in January.

The ONS blamed the "exceptional" revision on an unexpected late surge of corporate returns. Large bonus pay-ments also seemed to have pushed the overall figures up-wards with the annual growth

high as 5 per cent.

Many City analysts seized on the data as evidence that the Bank should now call a halt to its rate-cutting spree. The Bank has repeatedly said that earnings growth above 4.5 per cent is incompatible

in February alone placed as

with its inflation target.
Recent minutes from the Monetary Policy Committee have suggested, however, that the Bank is still not fully convinced of the accuracy of official data and still places high importance on other pay surveys such as the CBI's and its

own pay databank. The CBI said its survey, although the most comprehensive of its kind, was not directly comparable to the official data. It includes a bonus element only if changes to bonus

Smith in China to tackle CD pirates

BY RAYMOND SNODDY

HONG KONG has seen an explosion of CD piracy since the handover of the colony to China, according to Chris Smith, the Culture, Media and Sport Secretary, who is leading a top-level delegation of British television, film and record industry executives to mainland China and Hong Kong this week. He believes Hong Kong. Macao and Eastern Europe are now the worst areas of the world for CD and software piracy. Before handover an estimat-

ed 60 million CDs a year were pirated in Hong Kong. One re-cent seizure involved 22 mil-lion CDs and the capacity of the Hong Kong industry is now one billion CDs a year although not all are counterfeit. The Culture Secretary

hopes to persuade the Hong Kong authorities to involve the police as well as Customs officials in stamping out pira-cy. Mr Smith will also raise the issue of piracy with the Chinese Government in Beijing because of high levels of

CD, software and film piracy

Although the Chinese authorities have been making progress in protecting copy-right the total legitimate demand for all CD formats is 46 million units compared with the current estimated capacity of 275 million units.

Mr Smith hopes to open up the Chinese market for British

films and television programmes and make it easier to launch British music there. At the moment anyone wanting to sell Western music legitimately in China has to get a number for each individual track from the Ministry of Propaganda.

At the moment China aliows less than 70 foreign films to be imported a year, divided roughly half between the US

and Europe. Recent hits that have been shown in China include Titanic from the US and Sliding Doors from the UK.

Few British TV programmes are shown in China. Exceptions include The Bill from Pearson Television. largely, Mr Smith said, be-cause it is designed to change attitudes to police and polic-

SB enlists Bristol-Myers to aid new drug's sales drive

BY PAUL DURMAN

SMITHKLINE BEECHAM has brought in Bristol-Myers Squibb, the large US pharmaceutical group, to help it to make a success of Avandia, its new diabetes treatment.

Bristol-Myers will sell Avandia in the US alongside SB to encourage a rapid take-off of the potential blockbuster seen as vital to the British company's growth. Advisers to the US Pood and Drug Admin-

mended on Thursday that Avandia be approved for treating adult-onset diabetes, a problem for almost 15 million Americans.

Bristol-Myers already sells Glucophage, the leading diabetes treatment, whose fastgrowing sales reached \$282 million in this year's first quarter. SB, which has more than 3,000 US sales representatives, believes that Bristol-Myers will help it to "get the

France pressing for Elf and Total tie-up

FROM ADAM SAGE IN PARIS

THE FRENCH Government but analysts say he may be is pressing for a merger be- whistling in the wind. "Agip tween the French oil giants Elf-Aquitaine and Total-Fina.

The Socialist-led Government believes that a Gallic national merger may be the only way to avert the sale of Elf ei-

ther to Shell or to Italy's Agip. Speculation about Elf has been fuelled by reports that Mark Moody-Stuart, Shell's chairman is pondering a bid. He has been asking pension funds owning about 55 per cent of Elf whether they would

back a hostile offer. Jérôme Jaffré, Elf's chairman, favours a link with Agip. and Elf are pretty much the same and it is always difficult to succeed in a merger between equals," Jean-Jacques Limage, an EIFB analyst, said.

Elf profits last year fell by about a third to Fr3.5 billion (£350 million) on turnover 17 per cent down at Fr211 billion. The Government, which re-

tains a golden share in Elf, wants to "save" the company through a merger with Total - which last year announced purchasing the Belgian Petrofina — but senior managers say their cultures differ too much. **WORD-WATCHING**

Housing boom is not inevitable

ing market is at the centre of disputes about the outlook for the British economy. Some forecasters are suggesting that we are in for another housing boom. Most strikingly, stories abound of City whiz-kids who, in former times, would blow a large part of their bonuses on a Porsche, now buying London property to rent. I am not sure how that leaves you, but it does not exactly fill me with confidence.

Support for a strongly bullish view of the housing market can certainly be found in selected comparisons with previous experience. According to FPD Savills, the property consultancy, after the latest rate cuts, mortgage payments have fallen to 15 per cent of the average household's disposable income. The historical average is 25 per cent. while at the end of 1989, the proportion was a staggering 45 per cent. In other words, taking account of the level of both house prices and interest rates, property is now more affordable than it has been for decades. Therefore. you might think, it must be a raging buy and the boys with the Porsches have got it right

But hold on. This notion of judging whether the price of something is going to go up

ty" is very odd. I do not know about Porsches, but the average car is more affordable than ever, so is the average can of baked beans. But if I were you, I would not set out to build up stocks of either in anticipation of a sharp rise in prices. The notion that this is a way of assessing the housing market derives from the idea that the demand for housing is always financeconstrained, that is to say, you would always seek to put more into housing if only you could raise the money.

This was indeed a rough description of the housing market in the not-too-distant past. Until the mid-1980s, housing finance was rationed and there was considerable pentup demand. Moreover, the combination of high inflation and favourable tax treatment for housing meant that it was advantageous to put as much money into property as you could. Accordingly, if lower interest rates reduced the mortgage hurden, it seemed sensible to increase the size of the mortgage. But that game came to an end with a bung when the raging boom of the late-1980s sent house prices to such levels that thereafter they had to fall, and sky-high interest rates broke many a

borrower.

psychology undermined the relevance of "affordability". In the Eighties, people did not envisage that they would go on paying out 30 or 40 per cent of their disposable incomes in mortgage pay-ments forever. Rather, they believed that rapidly rising incomes would quickly reduce that percentage, while house prices would continue to rocket, giving them the chance, at some point over the rainbow, to cash in their chips and live on the proceeds. Once you take away that perception, the relevance of historical comparisons of "affordability" is sharply reduced.

sion if you focus on real rather than nominal interest rates. On the face of it, interest rates, including mortorrower. gage rates, are extremely low. But once you take ac-

Jason Nissé on how a 300,000-strong African tribe has become a big player in platinum

and changes in tax treatment, they are not low at all. Indeed, they are higher than they have been for much of the last 30 years.

of the average house price to average earnings, or if you like, the number of years of gross earnings the average person would have to pay to secure the average house. I prefer this ratio to measures of "affordability" because it is not distorted by misleading changes in the level of nominal interest rates. At the peak of the 1980s boom, the ratio reached 5.5, but the average over 30 years is about 3.8. It is standing at that level now. This suggests that although houses are not expensive, neither are they particularly cheap. It supports the view that, unless the market takes leave of its senses, house prices are likely to rise only mod-

This is another contrast with the late 1980s — the market will not be allowed to take leave of its senses. If house prices were to take off then this would threaten unacceptable implications for inflation. Accordingly, the Monetary Policy Committee would raise rates — if necessary, to

estly, just above the increase

excruciatingly painful levels. So anyone who correctly foresaw a housing boom and geared up accordingly would experience only short-lived joy. They would soon find themselves saddled with high borrowing costs and a housing market turned soggy as a

The one set of conditions in which I could envisage house. prices taking off would be if the MPC no longer had its eye on inflation. Moreover, there is one plausible circumstance in which this could happen. Suppose that the Government gets serious about preparing Britain for the euro and decides to target a level for the exchange rate

now at 25 per cent, and perhaps set to fall further, this would imply sharply reduced sterling rates, perhaps down to 2.5 per cent or lower even if that threatened a house price explosion and an inflationary blow-off.

You might conclude from this that an Irish-style hous-ing boom is indeed on the cards in the UK. I conclude something quite different. Far from being driven by the force of inevitability, getting Britain into euroland will be a herculean task.

harvest bol of the Royal Bafokeng Nation. And by South African tradition a emcodile can break down stone walls when it is roused. A more recent legend, which raises a smile in Johannesburg wine

bars, concerns a crocodile subjugating an impala. As the 300.000-strong tribe from the northern corner of South Africa has won an historic victory over Impala Platinum, the giant mining group named after the southern African gazelle, and so made itself an important player in the market for one of the world's most sought-after metals.

These days the Bafokeng is jokingly referred to as "a tribe of lawyers". But the Bafokeng is not so much a tribe of lawyers. as a tribe of businessmen, it is led by its kgosi — or king — the 34-year-old, American-educated Lebone Molotlegi II. He has spent nearly a decade fighting Impala and its backers. Gencor. the South African conglomerate. through the courts. At stake were the revenues from four platinum mines (evocatively named Impala I and II, and Wildebeesten I and II) located on Bafokeng land, which stretches from the dusty town of Rustenberg to the southern borders of the Sun City holiday complex.

The deal, struck a few weeks ago, gives the Bafokeng a stake in Impala, a royalty of about 22 per cent of the mines' revenues and a seat on the £500 million company's board for the kgosi. It also guarantees how much Impula will mine, how it treats its workers and the local environment and gives the Bafokeng an important say in whether impala strikes the asset swap it wants to do with Lonmin, the British group formerly known as Lunrho.

However, the issues raised by the Bafokeng's agreement with Impala go deeper than a scam of platinum, reaching to the core of how South Africa's giant mineral wealth is divided between the tribes who have lived there for centuries and the white settlers who arrived on the gold. diamond and platinum-rich areas less than 200 years ago. The Johannesburg business community is split between those who think this is a landmark in the battle for native land rights, or a one-off brought about by tenacity, good luck and the foresight of an African king who was born nearly 180 years ago. Sitting in his office, with its

oxk-panelled walls and a stuffed leopard by his desk, the kgosi certainly pays tribute from the Bafokeng's unique position to his great, great grandfather who was simply known as Mokgatle. He ruled the Bafokeng -which can trace its history back to the 12th century - for 50 years from around 1834.

The tribe came to live on its current lands in the early 17th century - about the same time as the Cape province was settled by the Dutch. The Bafokeng lived peacefully until the Zulu uprising of the early 1820s, when it was attacked by renesade Zulu warriors, led by the chief Mzilikazi. Here luck intervened: the Bafokeng found themselves an unlikely ally in the Boer "Voortrekkers" who had ventured north to set up a new republic in the Transvaal. Mzilikazi, who himself was on the run from Shaka, the fearsome Zulu leader, attacked the Boers. Realising it was better to make friends against a common enemy rather than fight on two fronts. Mogkatle and the Boer leader.

Paul Kruger, banded together. Kruger gave the young Mogkatle some invaluable advice: if

have to buy the title deeds. Mogkatle sent 50 of his men to Kimberley, where they worked in the newly established diamond mines, raising enough money for the Basokeng to buy the 1,200 square kilometres it now owns.

This ownership started to become important when platinum was found in the 1920s. However, it was not until the 1960s that mining started in earnest. A prospecting agreement was signed between Geneor and the Bafokeng in 1966, and there were a series of other deals between the Genour. its subsidiary. Impala, and the Basokeng. But the key deal which led to the Bafokeng's legal action was struck in the 1980s.

As part of South Africa's policy, while apartheid still operated, of creating independent homelands within the country. the Bafokeng found themselves part of Bophuthatswana. The nomeland's president. Lucas Mangope, was jealous of the Balokeng's mineral wealth and pressurised the father of the current kgosi. Lehone Molotlegi I. to give up the rights. He resisted, but was forced into exile in Botswana and, while he was away. Mangope signed away the Bafokeng's rights to Impala.

When Mangope was deposed.

the Basokeng first tried to have the deal with Impala changed. And when that legal action failed, it went back to court to have the whole agreement ruled invalid claiming President Mangope had exceeded his powers.

Impala claimed it was not going to budge. Steve Kearney, Impala's managing director, said: "We have a strong legal position, having entered a legitimate business deal." In the end the market, sensing

runs out." he said.

The LS400 from Lexus is the quietest car in its class.

The Bafokeng has already built a civic centre, schools, hospitals and roads in an area that was starved of resources in the apartheid era. It has purchased the shopping centre in the local town of Phokeng, which it is redeveloping, has invested in a brick-and-tile factory and struck a joint venture with Mobil for distribution of lubricants. Keeley Hawes and Rupert Graves in The Blonde Bombshell (ITV, 9pm)

finds extreme reluctance among today's Swedes to talk about the matter.

The Bionde Bombshell

ITV, 9pm Diana Dors has been dead for 15 years, but the actress is brought vividly back to life in this two-part film by I'ed Whitehead, using material from her own autobiographical writings. Tonight Keeley Hawes plays her from her drama school days to her first foray to Hollywood and the end of her first marriage, to Dennis Hamilton. Hawes is superh as the achingly ambitious buxom. superh as the achingly ambitious, buxom, dyed-blonde who really couldn't say no to anything: Sheila Gish plays her mother, whose showbiz dreams she is fulfilling. Rupert Graves is electrifying as the utterly unscrupulous, vile-tempered and faithless Hamilton, a perverted charmer who died of syphilis and whose debis crippled her financially. Tomorrow night Amanda Redman very movingly takes the story on through the second and third marriages and the milercoaster of success and personal tragedy. mllercoaster of success and personal tragedy.
Gary Webster plays Dickie Dawson and Barnaby
Kay is Alan Lake. Two of Diana's children were
consultants to Robert Bierman's film, which is
strongly recommended.

The Sundays: nothing much to Bragg about

Paul

Hoggart

good thing, of course. When the good thing in question is as deeply serious as The Life Peer Formerly Known as Melvyn, that point can arrive surprisingly quickly. Even so, he was an excellent host on The Sundays, Channel 4's Saturday night guide

to the following morning's papers.
However plodding some of his
presenting may be, Lord Bragg is a deft and astute chairman of group discussions. This was what was needed to juggle a panel of opinionated hacks, writers and comics, such as Francis Wheen, Howard Jacobson or Linda Smith. and the formula worked a treat. But for the new series he has been replaced by a deranged young Scot called Alan Tyler. Tyler bounds into the studio like some tacky game show host. His every utterance is injected with SPURIOUS URGENCY! He tries EXCITING FUN! He thinks it is featured prominently on this his duty to cut across the profile of the President of Yugoslahis duty to cut across the panellists, usually to SHOUT SOMETHING COMPLETELY STUPID. He puts the "thick" in thick Scottish accent. Heavens preserve us. HE THINKS HE'S THE NEXT CHRIS EVANS!

The panellists blinked gently and tried to carry on as if they weren't being hectored by the loony in the Tube compartment. but you could see it was hard going. At the end we learnt of the breaking story that Zoran Djind-jic, a Serbian opposition politician, has spoken out against Slobodan Milosevic's conduct in Kosovo. As the last prominent Yugoslav to do this, the journalist Slavko Curuvija, was promptly shot dead, this must have taken courage. This update was of particular

interest to anyone who had seen Correpondent: Sloba and Mira on BBC2 earlier in the evening as both Djindjic and Curuvija

via and his wife

Documentary makers always take the risk that their work will be overtaken by events. The reporter Phil Rees and the production team must have felt this acutely as the potential lessons of their carefully assembled materials were blown apart by the first cruise missile. What was doubtless intended as a sober warning, became a chastening explanation of why Nato's strategy has gone so awry.

ne image stood out - the skulls of Serb warriors decapitated by their Muslim oppressors embedded in niches in a medieval church wall. A deep and violent sense of ancient injustice and unrighted wrongs, bitter grievances ossified into symbols and nurtured over centuries these has been the fuel of Slobodan Milosevic's rise to power, remorse-

lessly pushed by his wife Mira. Ferdinand and Imelda Marcos, Bill and Hillary Clinton, Neil and Christine Hamilton — the pairing of the amoral opportunist and the driven ambitious wife is an archetype. Their schoolmates called Sloba and Mira "Romeo and Juliet", so cloyingly were they de-voted to each other, but they turn out to be more like the Macbeths.

Both are tormented by private

ghosts. His uncle, father and mother all committed suicide. Her mother betrayed her partisan comrades under Gestapo torture, an of-fence for which her father, Mira's granddad, personally shot her.

The most worrying underlying message was that they were fundamentally unstable, ruthless and operating outside the norms of rational, decent behaviour. Her ambition for him is all-consuming, and she is known to dominate his political will. He is, by this account, a hollow opportunist and together they have spun a spider's web of political and financial corruption. You could dismiss this as Nato

propaganda, except that the witnesses included many impor-tant former friends and allies whom the couple have manipulated or betrayed. Above all we were shown that Sloba and Mira have always used external conflict to bolster their position. At a time when their grip might have been weakening, the cluster bombs have fallen like manna from heaven. Being relatively new to this job. and working from home. I have spent very little time in the offices

of The Times and have never met the Editor, Peter Stothard, the subject of Nick Danziger's profile in The Establishment (Channel 4. Saturday). So I watched with a mix-ture of rubber-necking fascination and some apprehension in case the programme showed my employer in an unexpectedly bad light. ilmed across the furore over

the serialisation of Citta Sereny's book on the child-murderer Mary Bell, the film might have laid the Editor open to some uncomfortable criticisms. In the event I would be surprised if he wasn't rather pleased with a portrait that proved to be respectful and appreciative. The only dissenting voices came from the mother of Mary Bell's victim ("All this is about money") and the veteran letter writer Captain Kimm, who thought the paper had behaved hypocritically ("Shame on you all."). Danziger's technique of running the commentary over black-and-white stills lent an air of gravitas and the programme ended with the satisfaction of a big scoop, obtained by completely ethical means.

I enjoy Roger Cook's exposes. There is something about the inevitability of it all. Cook's tone of shocked indignation, the secret films, the "Gotcha!" denouements, that border on the comical.

Locks. Stocks, Burgiars and Fences (ITV, Priday) was gratifyingly true to form, with the interfering old agent provocateur setting up. inter alia, a formidable lady burglar and a bent jeweller. Maybe all police work should be conducted like this, with the cost of operations being covered by advertising revenue.

World awaits reforms to hold crises in check

By ANATOLE KALETSKY .

MAJOR reforms of the global financial system, designed to contain future crises such as the ones that have hit Asia, Latin America and Russia, are due to be approved this week at meetings of the Group of Seven and the IMF.

Finance ministers and central bank governors gathering in Wash-

that they are close to agreement on most of the key measures to strengthen the "global financial architecture" proposed in the wake of the Russian crisis by Gordon Brown, the Chancellor.

The reforms, due to be approved in principle this week but implemented only gradually from the autumn onwards, fall into six broad categories: ☐ A new "contingent credit line" ington over the weekend indicated (or CCL) will be created to stop the

ic policies to prior approval by the IMF will be guaranteed large credit facilities with almost no strings attached and available immediately to protect themselves against attacks by international speculators. The CCL scheme will potentially be backed not only by the IMFs \$76 billion (£47 billion) of uncommitted

resources and its \$46 billion of pre-

spread of financial contagion. arranged credit lines, but also by Countries that submit their economthe possibility of additional parallel lending from the treasuries and central banks of the G7.

The IMF will formally adopt a new attitude to economic management designed to create "sustainable exchange rate regimes". It will discourage developing countries from basing policies on fixed exchange rates. Countries will instead be encouraged to adopt floating or adjustable exchange rates, except in the small number of cases. such as Hong Kong and Argentina. where governments are willing and able to adopt currency boards.

□ New codes on financial supervision and monetary management will be designed to improve surveillance over speculation by banks and hedge funds. Central banks in the G7 countries will also be expected to operate in a more transparent manner - a proposal resisted by the European Central Bank. Reforms will ensure that private sector lenders make bigger conces-

sions if developing countries default. This may require changes in English and New York law.

New efforts will be made to protect the poorest people in developing countries from global financial crises, The IMF and World Bank will be told to redesign adjustment

programmes to give higher priority to social safety nets.

☐ The poorest developing nations will be given additional relief from their unsustainable debt burdens. While these principles have now been broadly agreed. Germany and Japan are still reported to be

obstructing detailed agreement. The programme will also disappoint advocates of granting complete debt relief to the pooorest countries.

BT in £1.2bn deal to buy Japan stake

By Raymond Snoddy, media editor

American Telephone & Telegraph (AT&T). its worldwide partner, are to spend £1.2 bil-lion to take a 30 per cent stake in Japan Telecom, a long-distance carrier.

The deal, announed yesterday, pushes ahead with the strategy of building a global network by taking significant minority stakes in foreign tele-

Taking the stake in Japan Telecom, which BT believes is the third-largest telecoms play-er in the \$100 billion a year Japanese market, is a final recognition that the UK company is unlikely to be able to invest in the domestic business of NTT, Japan's dominant national operator.

Under the deal signed yesterday in Tokyo. BT and AT&T will each subscribe for 15 per cent of the shares in Japan Telecom which has built a fibreoptic network running along

the routes of Japan Railways. BT is putting up most of the money and will have an economic interest of 20 per cent in the venture compared with AT &T's 10 per cent. But the two companies will jointly manage their investment.

The shareholding levels

BRITISH TELECOM and were set because the largest investor in the company is Japan-nese Railways East with 15.1 per cent. This status will be preserved.

BT is investing about £620 million in cash in the venture and AT&T, its partner in a \$10 billion (Eo billion) global joint co-operation, will put up about £130 million. The balance of the £1.2 billion investment will come in the form of BT and AT &T businesses in Japan which will be integrated with Japan Telecom. These include BT Communications Services. Sir Peter Bonfield, BT's chief

executive, said yesterday that, when BT entered the Japanese market in 1985, the aim was to become a strong force in the world's second-largest telecoms market after the US.

"This deal will allow Japan Telecom to become the number one challenger in Japan," Sir Peter said. According to BT, Japan Telecom. which so far has about 17 million customers as well as interests in mobile operators with six million subscribers, comes after NTT and KDD.

Others contend that Japan Telecom also lags behind IDC, in which Cable & Wireless has an interest. Yesterday BT was adamant that its policy of seeking partnerships, backed up by minority stakes, around the world, was the right one even though other international players such as Cable & Wireless had been getting rid of their mi-nority stakes. "We are very keen to have a spread of investments, then we can buy up and sell down. It gives us flexibility," said Andy Green, director group strategy and mobility. Yesterday's agreement, which should close by the au-

Finishing touches are put to the marquee where a special members' meeting of the Bradford & Bingley Building Society meeting will be held today

B&B members prepare for windfall

By Susan Emmett and ROBERT COLE

TWO-AND-A-HALF million customers of the Bradford & Bingley Building Society can look forward to windfall pay-ments of at least £800 to £1,000 as it becomes increasingly likely that the vote on the society's future will prompt the conversion of B&B into a bank.

Some believe that the windfalls could top £2,000, but the confirmed result of the vote will not be known until later today. A special members' meeting is being held this afternoon at the B&B's Yorkshire headquarters in Crossflatts. near Bingley.

If the members vote for conversion, it is likely that the B&B board will begin to press ahead with a flotation on the London Stock Exchange. However, a pro vote will also excite frenzied speculation about whether B&B will actually make it to the stock maket as an independent entity. AXA and Prudential, the insurance groups, among others, may

jump in to acquire the firm. In Crossflatts, finishing touches were being made to the arrangements for the special meeting. A marquee, capa-ble of accommodating 1,000 people, has been erected.

About 1.5 million - or 60 per cent - of the society's 2.5

million members have already voted on the issue. Some be-lieve that 800,000 have been cast in favour of conversion.

The result may be tight, but senior B&B personnel, who have been engaged in defending the society's mututal status, have conceded that the result could go against them, and in favour of the windfall seeking carpetbaggers. Banking analysts also say there is a high likelihood that the society vill convert.

However, cautious observers point out that confident, but ultimately mistaken, predictions were being made about a similar vote at the Nationwide Building Society last

mutuality camp won the day. The B&B vote is being viewed as a watershed decision not only for Bradford & Bingley but for the building society movement as a whole. The board is not legally re-

quired to accept members' decision. Christopher Rodrigues. chief executive, will take account of the size of the poll turnout before deciding whether to act on the result of the vote. But he is unlikely to seek to thwart a clear majority vote.

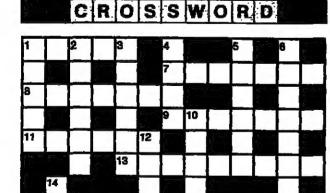

year. In the event, the pro-

by savers and borrowers. B&B, is the UK's secondlargest society. It has spent £5 million fighting the pro-conversion campaign led by Stephen

Major, the quantity surveyor and plumber. The B&B board, has main-

tained that members are better off with a mutual organisation: Such claims have been backed by high-profile figures such as Martin Bell, former war correspondent for the BBC and Independent MP for Tatton, and John Monks, General Secretary of the TUC. On the other hand, mem-

bers in favour of conversion say that the one-off benefit of a windfall, plus dividends from shares owned, would more than compensate for anything lost if the firm's savings and mortgage rates became less

Littlewoods to spread its bets

The divisions will be run by separate boards under a shake-up due to take effect on Saturday. Roger Withers, chairman of Bass Leisure South Africa, will be the nonexecutive chairman of the leisure operation.

Littlewoods dismissed anticipation of a sale or flotation of the business as speculation. The organisation is wholly owned by the Moores family, but the 30 shareholders in the family have given up day-today running of the group. Splitting Littlewoods's core

operations in two is the biggest move so far by its chairman, James Ross, the former head of Cable & Wireless. Barry Gibson, the chief executive, who joined last September from BAA, said: "Littlewoods Leisure and Littlewoods Retail address very separate markets and the leisure business will benefit from the dedicated focus that will come from a separate board." Littlewoods's leisure side

has been under pressure from the National Lottery. The com-pany has invested £20 million to strengthen the business and has started a telephone betting service - Bet Direct.

PowerGen stations fetch £1.4bn

BY CHRISTINE BUCKLEY

MISSION ENERGY of the US has won the race for both of the power stations Power-Gen has been forced to sell by the Government. An announcement will come today or tomorrow.

The company, which owns First Hydro, the Welsh hydroelectricity station that is vital for providing power at peak times, has paid £1.4 billion for the two stations - Ferrybridge in West Yorkshire and Fiddlers Ferry on Merseyside.

Mission, which is part of Edison international, beat off contenders including the US's NRG. The stations have been sold at a premium to the £1.1 billion they were expected to raise. All those interested in buying the stations went through a government vetting process.

A key consideration was whether the stations should go to separate buyers or as a pair. The Government was convinced that one buyer, if the right one, could provide greater competition than two.

Record merger activity

BY ROBERT COLE

THE volume of mergers and acquisition activity across Eu-rope shot to a record in the first three months of the year. According to Thomson Financial Securities Data, the financial information provider, \$345 billion (£213 billion) worth of deals were struck in the quarter.

This is more than \$200 bil-

lion greater than in the first

the last part of 1998, which saw \$193 billion of deals. The rise was assisted by the outbreak of activity surrounding Telecom Italia and among the French banks. But the quarter also set a record for the number of deals struck. JP Morgan, the investment
